ANN S. VANDERBILT being first duly sworn, deposes and says:
My husband, William Vanderbilt, and I purchased the Fourth of July Creek property in 1984. For the ten years that we have owned the land, the amount of water that we have diverted from Fourth of July Creek to irrigate for pasture has remained the same. We assumed that it was the licensed 2.900 C.F.S claimed under the original 1916 permit. It now appears that due to the long delivery ditch and the gravelly nature of the soil, we require and use, and have used, more water than the allotted flow. It also appears that the amount of water diverted to irrigate the land for sustainable pasture has been historically greater than 2.900 C.F.S. claimed; to our knowledge the ditch, first put to use in 1927, has remained the same approximate size and length, with the same carrying capacity.
