RE: PRIORITY DATE FOR A71-10852

Dear Mr Marvel

I have tentatively completed the recommendation of your claim with a priority date of 09-24-66. That date is the earliest date that I am able to recommend without having the claim amended even though the evidence you submitted (and I am accepting the aerial photo as good evidence of priority) supports an 08-24-66 priority date.

I have enclosed a copy of your original claim flagged as amended for your use if you wish to amend the priority date. To amend the priority date cross out the current date and insert 08-24-66 (and initial the change), sign the claim, and have your signature notarized. Upon receiving the amended claim, I would then update the records and recommend the claim with the earlier priority date.

Please notify me whether you decide to amend the claim or not.

Sincerely

Kelly K Christensen

Dear Kelly:

Enclosed is an aerial photo from 1966 of our property 3½ miles from Stanley in Custer County. I received this copy from the ASCS photo archive in Salt Lake City. You will note that the pond we have discussed is present at the time the photo was taken. I have indicated its location with an arrow. Please let me know if this is sufficient to confirm our application for this water use as previously filed with your office.

Also I would like to request an application for our domestic well located in Gooding County southeast of Bliss. My recent readings of the newspapers recommend that I make a late filing to protect that water source. I had an application but it appears I have misplaced it. Thank you for your help with the necessary information to make this late filing.

Sincerely,

A handwritten signature in blue ink that reads 'Jon Marvel'.

I returned his call in response to my Nov 30 letter requesting evidence of priority for the above claim. We discussed the current status of the claim and what evidence is before me at this time. We then discussed what is acceptable forms of evidence. I gave him the ASCS archive address for aerial photos. He indicated that he will compile the information and send it to me.

RE: SNAKE RIVER BASIN ADJUDICATION CLAIM A71-10852 REQUEST FOR
EVIDENCE OF PRIORITY

Dear Mr Marvel

In reviewing your file I noted that Evidence of Priority has not been submitted as of this date. Before this claim can be recommended the evidence must be included in the file. The information that I currently have does not support a September 24, 1966 priority date and discussions with your wife indicated that the actual date that the pond was constructed was likely some time after 1966.

I have enclosed a pamphlet that discusses Evidence of Priority and a proof report of your claim for your use.

RE: SNAKE RIVER BASIN ADJUDICATION BENEFICIAL USE CLAIM

Dear Mr Marvel

Apparently I mailed you the incorrect form for filing a claim for recreational use. The form you completed, is to be used for domestic and/or stockwater only. I have enclosed the domestic claim form that you completed and a computer generated claim that I data entered based upon the information supplied to this office. Please review the computer claim and, if I have entered the claim correctly, sign the claim and have your signature notarized and then return the claim to this office.

Although the fee you submitted is the correct fee based upon your claimed use and my previous letter, I am also returning your check as my supervisor requested that I have you include the \$50.00 late fee with the filing. Please include a check for \$110.00 with the signed claim form. I have already mailed your extension of time request to Boise for their consideration.

You indicated on the claim form that you wish to receive the docket sheet. The annual fee for the docket sheet is \$7.50 and I have enclosed an order form for the docket sheet for your use. You may include that fee with the claim fee (for a total due of \$117.50) or complete the order form and send it along with the \$7.50 to Boise. The state office normally handles the orders for docket sheets.

Again I apologize for the inconvenience this may cause you. If you have further questions please call this office.

Sincerely

Kelly K. Christensen

NOTES: Filed verification of #71-02102 for licensing purposes was conducted on 7-13-66 by Donald H. of the Dept. Field notes of the system & description of the system indicates that the pond was NOT in existence as of that date.

Evidence submitted for the claim is an aerial photo dated 8-24-66 that clearly shows the pond. I accept this as good evidence of Priority.

NOTES:

I found the P/D as claimed no change required.
 The inlet & outlet of the 2 1/4" diversion line are both cut merged
 and not clearly visible and I believe that some water runs into
 the pond through the sides as the pond is partially surrounded
 by a swampy area.

SYSTEM DESCRIPTION:

Water entering the pond either from Little Job Co. or directly through the the pond side exits from the South east corner from a 6" pipe. The discharge pipe is higher than the inlet pipe thereby making the stored water unavailable for migration.

RECOMMEND TO WR STANDARDS OR OTHER?

Although some water may now in the pond (making it in stream storage) water is diverted from a stream channel through the reservoir by the as a diversion to storage. I accept the most as claimed and consider the time to be div to storage & Y() N() Explain in notes, below. Storage.

NOTES:

The div rate claimed is less than calculated to be necessary however that rate better reflects current needs. The pond has been in for 30+ years and has never been dry though a natural pool should have been established. It is as there is indication that and water enters through the sides the required diversion rate will be less & therefore accept the rate as claimed.
