RE: Snake River Basin Adjudication claim Nos. 35-07769 & 35-02658

Dear Mr. O'Donnell,

I am writing in regard to the objections you filed on the Department of Water Resource's recommendations to the court on the above claims. You objected to the water quantity recommendation, arguing that the combined rate should be 7.5cfs rather than 7.15. You stated that the discrepancy was due to the Department's incorrect measurement of the capacity of your diversion works.

As support for your objection, you sent a copy of a 1998 report from Idaho Power which measured your diversion capacity. The Department will not amend a license based on measurements made subsequent to the issuance of the license. In order to consider amending your license, the Department would need evidence of the higher diversion rate which dates from before the Department's re-exam in 1994. If you have pre-1994 evidence and the Department finds that evidence persuasive, it will consider amending your license.

If you have any earlier evidence, please mail it to me at the address below. If you have any questions, please call me at (208) 327-5404.
