RE: **Evidence of Priority**
NO. A35-04093

Dear Claimant:

The Notice of Claim identified with the number shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by JULY 15, 1991, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

I, WESLEY ADKINS, being first duly sworn on my oath,
do depose and say:

I

That I am a resident of American Falls, Power County,
Idaho, and have been such for most of my natural life.

II

In the calendar year 1960, I went to work for Power
County Implement and Bowler Ranches, Inc. in the irrigation/-
pump department.

III

In the Spring of 1962, I set the pump in a well in the
Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NW $\frac{1}{4}$) of
Section 25, Township 7 South, Range 30 in Power County,
Idaho. This property was originally irrigated by a deep
well turbine pump which was used to provide flood irrigation
water to irrigate the subject property. I was aware that
later this system was converted to handlines and wheel
lines and that the property is now irrigated by a pivot and
wheel lines.

IV

That I was aware that the well was drilled on this
property by E. G. Commons, who is now deceased.

V

That I was aware that the pump was used in the 1962 crop season to flood irrigate the property listed above and that since the ground is very sandy, a full one inch to the acre would be required to properly irrigate the ground under flood irrigation.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 9th day of July, 1991.
