RE: ADJUDICATION CLAIM A35-04179

Dear Mr. and Mrs. Christensen:

We are preparing our proposed recommended Director's report of the claims that you filed in the Snake River Basin Adjudication. One of the claims you filed, A35-04179 indicates that the source of water is groundwater. The source is indicated as wells once owned by the Aberdeen Springfield Irrigation Co.

We have concluded, from our investigation of this claim that the source of water is the unnamed drain, not the wells. The wells are no longer flowing and have not been maintained, for what appears to be many years. You have however been using water from the drain for many years, as is supported by the affidavits that you submitted as evidence of priority.

Our preliminary recommendation for this claim will change the source of water from groundwater to an unnamed drain tributary to the Snake River. The point of diversion will be shown as the earthen dam that controls the diversion into your canal.

We may reconsider this recommendation if you can supply documentation that tends to support the source of water for this claim has been the wells and not the waters of the unnamed drain. The preliminary report is scheduled to be completed on November 1, so you will need to respond by then if you disagree with this recommendation. There will also be opportunity to object to the recommendation after the report is prepared.

Sincerely,

Eric Verner,
Sr. Water Agent

To Whom It May Concern:

Dear Sir:

We used the water from Colburn Dam located near center of Sec. 6 T.5 S. Rge 32 E.B.M. in exchange for canal water, to irrigate Sec 5 S Rge 32 E.B.M. from 1953 until we sold to Carl Christensen in 1972. They've used it since then to irrigate parts of Sec. 5, 6, + 8 S. Rge 32 E.B.M.

The water which flows into Colburn reservoir behind Colburn dam comes from springs N.W. 1/4 N.W. 1/4 Sec 6 + a creek which starts in Sec 3 Rge 34 + continues to canal wells in S.E. 1/4 S.W. 1/4 Sec 2 T.5 Rge 31 E.B.M., which was dug in 1957 + continues to Prudhomme + Driscoll Drains + then on to Colburn Dam.

Carl has used this water since 1953 to my knowledge.

To Whom it May Concern;

Gentlemen;

I have lived in this locality all my life, 64 yrs.
and have a pretty good recollection of this water usage.

I can witness that Carl and Mary Christensen
has been using water that starts a drain water in
section 3 Range 34 Township 5 South and continues
to Wells dug by the Aberdeen Springfield Co. in
Section 2 which are described.

S. E. $\frac{1}{4}$ S.W. $\frac{1}{4}$ Sec. 2 T-5 R-31

Continues in a drainage ditch to the
Driscoll and Gaudhomme farms then to the
Reservoir which is located in Section 6 - Range 32
T-5 S

To my knowledge Mr & Mrs Christensen has
diverted water from this reservoir to Irrigate
land in Sec. 5, 6, and Sec. 8 T. 5 Range 32 E
since 1953.

The Harold Orths that were the previous
owners of this land where reservoir was located
also used this water prior to this date.
