DATE PHOTO TAKEN: 05-22-95
AGENT: KELLY K CHRISTENSEN
CLAIM OR WATER RIGHT NUMBER: MULTIPLE USERS

This shows the GPS location made on the headgate for the Barker Ditch. The site tag was placed on the heagate. You are looking southwest up Cross Creek. I found .95" on the staff guage for the parshall flume (3' throat) being diverted on this date. The system was not at capacity.
