	)	WATER RIGHT

This form is used to report the proposed elements of one federal reserved water right or one water right acquired under state law. Submission of this form will not result in the automatic issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law, and have appeared, prosecuted and defended their positions with regard to this water right dispute.

Instructions For Use

A copy of this water right as recommended in the director's report shall be submitted with this form. A statement shall accompany **each** element of a water right.

Elements where there has been no objection should be listed exactly as they appear in the director's report. The statement as to an uncontested element shall state "as recommended in the director's report."

Contested elements that are the result of an objection filed with the court shall be accompanied by a statement fully describing all facts, documents, expert opinions and law which support the element of the water right (attach additional pages if necessary).

Idaho Department of Water Resources and the claimant(s) stipulate that water right number 34-00645 is correctly described in the director's report.
