Re: Withdraw 24-04040 and 41-07077

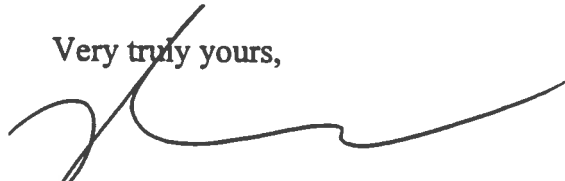

Dear Don:

This is a request that Idaho Department of Water Resources (IDWR) withdraw from the Snake River Basin Adjudication (SRBA) the following water right numbers in favor of new water right numbers for the same water uses by the USDA Forest Service. A brief explanation is provided for two water right numbers.

1. 24-04040 is actually in Basin 23. The new number IDWR assigned to the use is 23-04074. The USDA Forest Service has no interest in 24-04040 and requests that it be withdrawn from the SRBA.
2. 41-07077 is a BLM permit with a source and POD on the National Forest that is piped off the forest and onto BLM administered public land. There are no BLM POUs on the National Forest. It was developed about 1987. However, livestock use of the same source at the same POD on the National Forest began in 1878. This necessitated another individual claim for use on the National Forest to differentiate it from the BLM use. The Forest Service claim based on historic beneficial use is 41-10228. Both claims use the same source. The Forest Service has no water use associated with 41-07077 and requests IDWR records be changed to reflect this information. This withdrawal of Forest Service interest does not effect the BLM claim and permit for 41-07077 in the SRBA.

If you have any questions about this matter, please contact me or Steve Spencer at 387-0835 at any time.

Very truly yours,

RANDALL J. BRAMER
