IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 67-70

NAME AND ADDRESS: STEVEN R SHUMWAY
HWY 95 BOX 2405
COUNCIL ID 83612

ELSIE B SHUMWAY
HWY 95 BOX 2405
COUNCIL ID 83612

SOURCE: WEISER RIVER

TRIBUTARY: SNAKE RIVER

QUANTITY: 0.700 CFS

PRIORITY DATE: 06/01/1902

POINT OF DIVERSION:

T17N R01W S4 SWNE Lot 1 Within ADAMS County

T17N R01W S23 SWSWNE Injection Within ADAMS County

T17N R01W S23 NWNWSW Rediversion Within ADAMS County

Water under this right may be injected into Fort Hall Creek at the POD shown above and redirected from Fort Hall Creek to the place of use from the point of diversion show above, but the water right may be exercised directly from the diversion from the Weiser River.

Water under this right may be re-diverted from Fort Hall Creek only when such water is injected into Fort Hall Creek.

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	03/15 11/15	0.700 CFS

PLACE OF USE: IRRIGATION Within ADAMS County

T17N R01W S23	NESW	6.90	T17N R01W S23	NWSW	30.00
T17N R01W S23	SWSW	30.00	T17N R01W S23	SESW	3.90
T17N R01W S26	NENW	26.00	T17N R01W S26	NWNW	36.00

132.8 ACRES TOTAL

This right is limited to the irrigation of 56.0 acres within the place of use described above in a single irrigation season.

The rights listed below are limited to the irrigation of a combined total of 132.8 acres in a single irrigation season. Combined Right Nos.: 67-70, 67-72, and 67-376

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

Re: Water Right 67-55

Dear Mr. and Ms. Shumway,

Per my conversation with Mr. Shumway this morning, I am sending a copy of decreed right 67-55 and a blank claim form. As you can see from enclosed documents, there was at one time, decreed water applicable to the property we were discussing on the phone.

At this time, decreed right 67-55 was claimed and recommended to Doug Scism under Snake River Basin Adjudication (SRBA) claim 67-55.

If you feel that decreed right 67-55 is applicable to your property, and you wish to pursue that water right, you need to file a claim. For your convenience, I am enclosing a claim form.

As we talked about on the phone, the evidence I used to recommend 67-55 in the name of Douglas Scism was the fact that he was the only person to claim that water right, and Bosco Bosler's watermaster records show delivery to Douglas Scism.

If you use water right 67-55 and Mr. Scism does not, it would be appropriate to file a claim. Once a claim is filed, then I will review evidence from both parties and make a recommendation to the SRBA court regarding which claimant can show beneficial use of water right 67-55.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Craig L. Saxton', is written over a horizontal line.

Craig L. Saxton
Sr. Water Resource Agent

CONVERSATIONAL MEMORANDUM

Date: March 2, 2006

To: File 67-45, 67-70, 67-72, 67-375C, 67-376, 67-2117, 67-11304C

From: Craig L. Saxton

Subject: Phone Call – Shumway

I called Steve Shumway and he wasn't available, but was able to speak with his son, Dan I think.

Dan met with Monica VanBussum and David Tuthill at the B67 water district meeting on February 6, 2006. I had given Monica a packet of amended claims and a letter to give to the Shumway's.

I called as a follow-up on March 1, 2006 to inquire if they were going to send in the amended claims. I discussed several subjects with Dan.

67-70, 67-72, and 67-376:

I asked Dan if he was going to send in the amended claims that I asked Monica to drop off with him. He said he did not have them. Monica did give them to him so they could have been lost in the shuffle. I will send claimant a third and final copy. I told him I need them signed and returned to recommend their water rights.

67-45:

I asked again if they felt that this was their water right as it is claimed on someone else's land. I have not been given a solid answer. They have not returned the amended claim I sent them. I will recommend this as decreed, not on Shumway's property.

67-375C and 67-11304C:

Again we discussed how Shumway feels they should have a larger portion of the split as McAlvain (67-375B & 67-11304B in the name of Fruitvale) doesn't have right to the water according to Shumway. I told Dan that I needed something to support that. He said he will talk to his dad, Steve.

67-2117:

I told him that this was based on a license and I didn't see any problems recommending it.

Re: Snake River Basin Adjudication (SRBA) claims 67-70, 67-72, 67-375C, 67-376, and 67-11304C.

Dear Mr. and Ms. Shumway,

Per my conversations, *Here are copies of* have changed the amended claims I sent you *The amended claims +*

67-70, 67-72, and *letter that I spoke*

To review, we or *about on the phone.* and 67-72 are from Roberson Sevey *Please respond by* Hall Creek.

It was determined *3-16-06 or I will have* or under claims 67-70, 67-72, and 67-346 is *to recommend what I* here the water is commingled and

I originally amended *Can w/ the current* s. You contacted me a couple of weeks ago *Claims - C. Seaver* not included in the amended claims. ~~Since that~~ conversation, I have amended claims 67-70 and 67-72 to reflect a permissible place of use (67-376 does not require amendment). You can see by looking at the amended claims as well as the enclosed map, I have changed the acreage to 132.8 acres.

Note that 132.8 acres is the maximum acreage I can recommend under the three Muir vs. Allison rights. Muir vs. Allison defined the duty of water as 5/8 inches per acre. The three rights you claimed are:

67-70	decreed for 0.70 cfs	or	35 inches	acres @ 5/8" per acre = 56.0
67-72	decreed for 0.76 cfs	or	38 inches	acres @ 5/8" per acre = 60.8
67-376	decreed for 0.20 cfs	or	10 inches	acres @ 5/8" per acre = 16.0
Total	1.66 cfs	or	83 inches	acres @ 5/8" per ac = 132.8

Re: Snake River Basin Adjudication (SRBA) claims 67-70, 67-72, 67-375C, 67-376, and 67-11304C.

Dear Mr. and Ms. Shumway,

Per my conversation with Mr. Shumway earlier this month, I have changed the amended claims I sent you a month ago.

67-70, 67-72, and 67-376:

To review, we originally were discussing three rights: 67-70 and 67-72 are from Roberson Sevey Ditch (Weiser River) and 67-376 is from Fort Hall Creek.

It was determined from our conversations that the water filed for under claims 67-70, 67-72, and 67-346 is used in a permissible place of use. This is where the water is commingled and used on all the property irrigated.

I originally amended the claims to show irrigation of 123.1 acres. You contacted me a couple of weeks ago and said that there was additional acreage not included in the amended claims. Since that conversation, I have amended claims 67-70 and 67-72 to reflect a permissible place of use (67-376 does not require amendment). You can see by looking at the amended claims as well as the enclosed map, I have changed the acreage to 132.8 acres.

Note that 132.8 acres is the maximum acreage I can recommend under the three Muir vs. Allison rights. Muir vs. Allison defined the duty of water as 5/8 inches per acre. The three rights you claimed are:

67-70	decreed for 0.70 cfs	or	35 inches	acres @ 5/8" per acre = 56.0
67-72	decreed for 0.76 cfs	or	38 inches	acres @ 5/8" per acre = 60.8
67-376	decreed for 0.20 cfs	or	10 inches	acres @ 5/8" per acre = 16.0
Total	1.66 cfs	or	83 inches	acres @ 5/8" per ac = 132.8

If additional acreage is irrigated from live flow water (not storage), this would be a separate water right based on beneficial use and would have to be filed on as a separate claim.

The reason my original findings did not include the acreage you spoke about on the phone, is because in 1998 when you filed the claims, **you did not include that acreage as irrigated on your original map** (enclosed).

Despite the amended claims showing the acreage to the east, in order for me to recommend that ground as irrigated ground under these rights and not forfeited due to non use, please include a written statement stating the historical and current irrigation practices that support a valid water right on this ground and return it with the signed amended claims.

Please look over the amended claims and initial any changes you wish to make. When satisfied, sign the claim in front of a notary and return it to this office along with the requested written statement **ASAP**.

67-375C and 67-11304C:

These two rights were split into three part for yourself, McAlvain, and Scism. You mentioned in our conversation that McAlvain bought his property without water so that should increase your and Scisms proportionate share.

After thinking about that, I do not have an issue with what you are saying, but I will need documentation from you showing that McAlvain doesn't have any of the right, or McAlvain will need to either withdraw his claim, or contact me to tell me he has no interest in it.

I appreciate you working with me regarding your water rights so I can make an accurate recommendation to the SRBA court. Please feel free to contact me with any questions.

Respectfully submitted,

Re: Snake River Basin Adjudication (SRBA) claims 67-70, 67-72, and 67-376.

Dear Mr. and Ms. Shumway,

As you probably know, the Idaho Department of Water Resources (IDWR) is currently in the process of reviewing SRBA claims filed in Basin 67. After my initial review of your claims I had some questions. On December 29, 2005, I called and spoke with Mr. Shumway about the irrigation system on your property. After thinking about it, I thought I would not only address the rights we spoke about on the phone, but do a quick review with other claims that we did not discuss.

67-70, 67-72, and 67-376 (Exhibit A):

These were the main three rights that we spoke about on the phone. 67-70 and 67-72 are from Roberson Sevey Ditch (Weiser River) and 67-376 is from Fort Hall Creek.

It sounds like the water filed for under claims 67-70, 67-72, and 67-346 are used in a permissible place of use. This is where the water is commingled and used on all the property irrigated.

Based on this, I have amended claims 67-70 and 67-72 to reflect a permissible place of use (67-376 does not require amendment). You can see by looking at the amended claims as well as the enclosed map, I have found 123.1 acres of irrigated ground. Based on my conversation with Mr. Shumway, my initial plan is to recommend all three rights to be used on the entire 123.1 acres as that is my understanding of how the property is irrigated.

Please look over the amended claims and initial any changes you wish to make. When satisfied, sign them in front of a notary and return them to this office to my attention **ASAP**.

Please do not hesitate to call me if you have any questions about the amended claims or disagree with how they are written up.

67-45 (Exhibit B):

We spoke about claim 67-45 briefly. This is the claim in which you claimed the place of use on property owned by Kelly Anderson. When this right was originally decreed, it was decreed to George Gould which is now property owned by Mr. Anderson. However, the water master records show delivery to you. It is not uncommon to have a decreed right that has been transferred from the original place of use to a new one. Since the water delivery records show this right being delivered to you, it looks like a transfer might have taken place and the water right should be applicable to your property now.

If the above is true, then I think when you filed the claim, there was simply a data entry error in the legal description because the map you included with the claim puts the place of use on your property.

Thus, I am sending an amended claim that defines the place of use as it is on the map you filed with the claim. Please look over the amended claim, and if you do use water right 67-45 on the property identified on the amended claim and the map, sign the amended claim in front of a notary and return it to this office to my attention. Please include with the amended claim an affidavit (form enclosed) that explains how decreed water 67-45 was moved from what was historically George Gould's property (now Kelly Anderson) to your property.

If an amended claim is not returned, I will assume that the claim was filed in error and will not be able to recommend the water right on your property.

67-375C & 67-11304C (Exhibit C):

These two water rights are splits off of a right originally claimed by Doug Scism. I have made recommendations on these rights and have included them in this mailing. Note however, that the total water recommended under these two rights totals 15.6 acres. Looking at the aerial photography it appears that more than 15.6 acres is irrigated. However, there are no other "live flow" water right claims for this piece of property.

Note: storage water has not been taken into account. I only am looking at live flow.

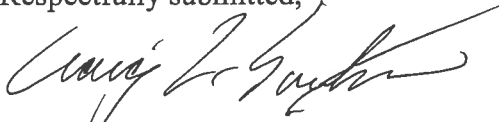

67-2117 (Exhibit D):

This claim is based on an old license for 100 acres of irrigation. I do not see any problems with this claim and will recommend it for the most part as it was claimed. I am enclosing a map that shows you what ground this water right covers.

Conclusion:

I know this is a lot of information to try to convey in writing through the mail. Please take a look at it and feel free to call if you have any questions.

Respectfully submitted,
