Re: Notice of Claim to a Water Right No. 67-96A, 67-101 & 67-435

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

If you have any questions concerning the enclosed claim, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Denise Buffington". The signature is written in dark ink and is positioned above the printed name and title.

MEMORANDUM

DATE: 7/27/2002

FROM: Lori Graves 

TO: Fall Creek SRBA Claim Files

RE: Source and Diversion Clarification

Fall Creek is actually tributary to the Weiser River drainage but has been historically diverted and decreed to lands in the Little Weiser River drainage.

The original ditch was built in 1883 and is still in use. A second ditch was attempted in the early 1900's but failed.

Bob Whitman once owned the majority of land that Fall Creek water is decreed to. He hired Bill Thomas many years ago to clean, maintain and regulate the original Fall Creek diversion dam and ditch. At 77 years old, Bill is still at it. On 7/25/02 Bill agreed to show Mike Bishop and myself the Fall Creek diversion and ditch site. From Bill's house, we drove up N Fk Grays Creek to the end of the road in the NESE S35 T15N R1EW. This is the beginning of N Fk Grays Creek and the end of the original man-made ditch used to divert Fall Creek water. From there, we hiked up the man-made ditch to the actual P/D, which consisted of a 4' rock dam used to block the water from flowing naturally into the Weiser River drainage. Instead, the water is diverted into the Little Weiser River drainage via the man-made ditch and N Fk Grays Creek.

The location of the P/D (beginning of the ditch) and end of the ditch were captured with a Garmen GPS unit and downloaded onto the King Hill Creek Topo map (T-58). Based on the GPS results, the actual source should be described as an unnamed stream tributary to Fall Creek. The unnamed stream is diverted into the ditch in the SWSWNW S36 T15N R1E. The ditch flows into the drainage for N Fk Grays Creek in the NESE S35 T15N R1E. Mystery solved.

Re: Notice of Claim to a Water Right No. 67-96A, 67-101, 67-102A, 67-433A & 67-435

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

In addition, please note that this ownership change information has also been sent to our State office for processing of water right number 67-10800, as it has already been decreed by the SRBA Court.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Denise Hatfield

Sally:

Regarding the change of water right ownership
which we discussed two plus weeks ago, you will
find enclosed:

1. The completed ownership change form
2. The Estate closing order, copy.
3. Deed of Distribution, copy
4. Quitclaim Deed, copy
5. Aerial maps.

Please advise if any further information is required
Thankyou.

Sincerely, Bob for.

RE: Snake River Basin Adjudication (SRBA)
Water Rights #67-96A, 67-101, 67-102A, 67-433A, 67-435, 67-10800

Dear Water Right Holders:

Mail sent to you by the SRBA Court was returned to the SRBA Court by the Postal Service. We received the returned mail on July 2. The Postal Service advised us your address has changed to the above address. We have enclosed the returned mail.

Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary before returning this letter, list any other water rights you have, and return this letter by July 31, 2001. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records. Be sure to list your water right numbers.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the water right records.

Sincerely,

Sally Sherman

Memo to file regarding 67-96 A
Dan Narsavage
01 June 2005

Hello File,

In a telephone conversation this afternoon with Roger Meyer, I discerned that, despite his note included with the field exam about water being taken out of Fall Creek and brought down N. Grays Creek to this POD, no Fall Creek water is used on this land.

Here is what I gleaned from today's phone conversation: Roger learned from Tom Grossen (previous water right owner) that this never happened. Local history has it that, in or around 1907, Cornett and others attempted to construct a ditch that would convey water from somewhere on Fall Creek into the North Fork of Grays Creek. From the North Fork of Grays Creek, the water would be diverted via the Woods Cornett Ditch (aka Northside ditch, aka Stewart Ditch) onto T15N R1W Sec35 and surrounding area. These people recorded a document [somewhere] saying as much. During construction, it was discovered that the ditch would have to run across fractured and/or vesicular basalt (rock that's full of holes and able to take in a large amount of water). At this point, the ditch was abandoned because it could not be sealed.

In the Muir v Alison decree, Roger said, the court in many cases simply decreed what was previously recorded when no other information was readily available. The existing record of the aforementioned abandoned ditch was presumably never updated, and so the abandoned ditch was included in the decree erroneously.

In reality, water has been diverted from the North Fork of Grays Creek via the Woods Cornett Ditch when it has been available since the construction of the Woods Cornett ditch. As of June 30, 2005, water is currently being diverted today due to recent rainfall. However in a normal year, the North Fork of Grays Creek is dry after the spring snowmelt, so in practice these rights are of little value.

The available evidence indicates that the right as described in the Muir vs Alison decree never existed. There is, however, evidence of beneficial use from North Grays Creek for flood water on the claimed POU dating back into the decree.

Sincerely,

Dan Narsavage

Reviewer: Date: 6-17-05

This is a transcribed copy of the hand written letter from Robert Whiteman to IDWR on 7-6-2002.

To whom it may concern
Idaho Water Resources

This is to state from first hand knowledge the way the Fall Cr./Grays Cr. Water had always been handled.

My wife and I owned the Sam Woods, Bill Woods and Jacob Cornett places all allocated water from Fall Cr. dated 1883 June or July.

These places had been acquired by purchase by my in-laws- Ross and Elsie Cornett and all became part of their place.

My wife acquired this upon the death of her parents.

We subsequently purchased the Ware place owned at that time by Harold Westfall.

The prior right of July 1883 was owned by Jacob Cornett and is presently owned by my wife and this was retained when we sold the bulk of the place to Gene Fisher of Jordan Valley, Ore.

Following the original filing by the above named parties several others made claim to the Fall Creek water. These claims are now part of what has precipitated the current trouble.

The George Ware filing was for Grays Cr. Water (N. fork) the others were on Fall cr.

An accompanying map will explain in better detail.

The diversion from Fall Cr. Was by a short ditch from a minor tributary of Fall Cr. This merged with Grays Cr. after about a mile - the actual ditch of diversion is only app. 100 yds and only dumps water from Fall Cr side to Gray CR.

At some time Homer Bott started cutting our ditch for stock water and on a later filing claimed it was from the Bill Woods claim.

I know for a fact that my in-laws nor I never consented to this theft and it was contested both by them and me for many years. This is the water currently claimed by the Holmes Bros. This so called right by Bott is completely fraudulent.

Regarding the claim by the Grays Cr. Ranch they assert that the Fall Cr. Water they claim is from a later filing. Now this may have been legitimate had the ditch carrying the water ever been constructed. It never was. There was an attempt in fact two, to build it but it lacked $\frac{1}{2}$ mile to divert the Fall Cr to Grays Cr. A rocky ridge made the ditch impossible to carry water. The original ditch went about $\frac{1}{2}$ mile and a later construction effort extended only 100+ yds before they realized the terrain made finishing it impossible or futile.

There was and is a world of water where they tried to start. Many times more than the upper site.

The current situation is as follows-

1) The Homer Bott right was fraudulently acquired (how I don't know) from the Bill Woods right.

2) The right of Grays Cr ranch is based on a diversion that never existed as the map explains. If they wish to complete the ditch neither I nor the current right holder would object and they would have a lot of water rather than robbing us of the small amount that is currently diverted.

Yours Truly

R. Whiteman

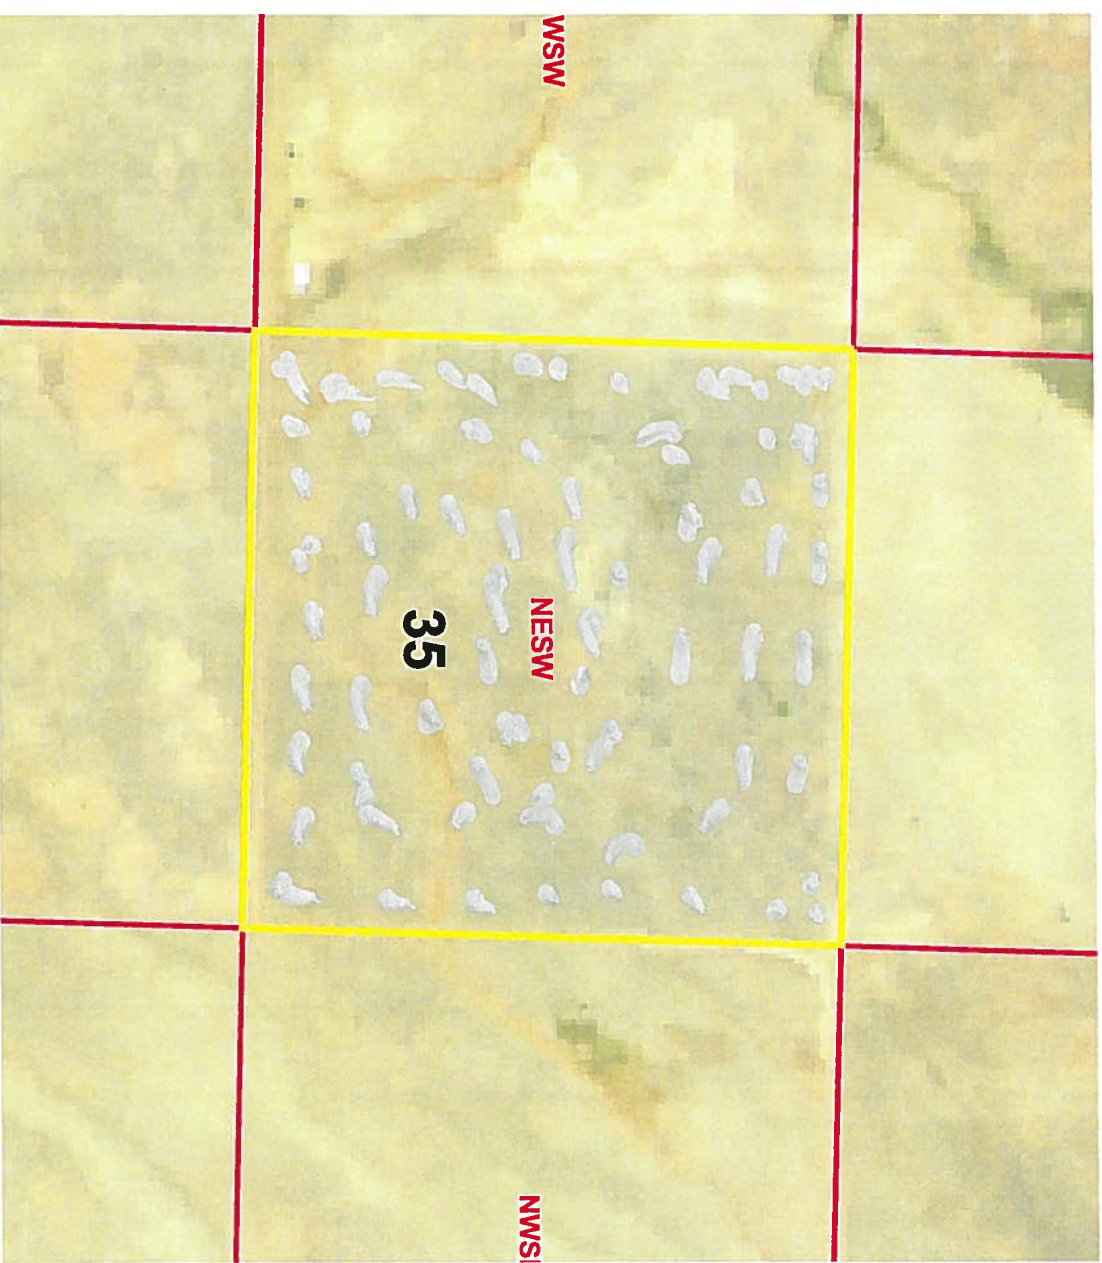

The reason Bott wanted the water is because the ditch ran across a corner of his property- he allegedly needs it for stock water but that does not make it a legal right.

The unnamed stream is part of Fall Creek head waters that feeds into North Grays Creek. At T15N01E35NESE and T15N01E36NWSW and approximately 100 feet due East of section corner marker 35-36. POD #A0016767 is a dam that completely blocks the unnamed stream sending all water down a manmade ditch to injection point (#A0016768) at the crest of the ridge that drops the water over the ridge into the North Grays Creek Drainage system. At POD #A0016769 water is diverted into North Grays Creek Ditch (Woods Cornet ditch, North side ditch and the Stewart Ditch. Take your pick the POD is #A0016769) It is approximately 200 yards due East of Grays Creek Ranch house. The ditch runs just north of the Grays Creek Ranch house.
