Subject: Seid, Kenneth B67 preliminary Recommendations

Good Morning Dave,

I am sending you the preliminary recommendations for Kenneth Seid a little ahead of time so you can review them. The preliminary mailing is actually going out on November 20th, but these recommendation are probably not what your claimant expected so I want you to have some time to look at them.

The main issue I can see is that as far as I can tell, Mr. Seid has enlarged his water use well over his decreed rights. I recommended as much acreage as I could base on the decreed rights. 67-14403 claims flood water on top of the decreed rights. I do not have any documentation supporting when the acres up an above those decreed were added so I recommended 67-14403 directly on top of the decreed acres for the standard 3/8 inches per acre that bring use of the flood water and the decreed water up to one inch per acre.

You will see that the shape on the layouts is larger than the 511.6 acres recommended. The shape is 667.3 acres. In order to recommend the additional acres under right 67-14403, I need some sort of evidence of when that additional ground first started being irrigated.

Anyway, you know how it goes. Take a look at the recommendations and let me know what you think. I can tell you that I am most likely not going to make changes before the preliminary mailing goes out, but hopefully, if Mr. Seid feels changes need to be made, we can get the information into me and change them before the directors report goes out so you don't have to file an objection.

67-7253B & C appear to be Mr. Seids water rights. We need a change of ownership for those.

Lastly, water master records show that 67-507, 67-509, 67-510, and 67-511 are delivered to Kennith Seid but are not claimed in the SRBA. I didn't know if there was a reason for that so I thought I would bring it to your attention.

Thanks,

Craig L. Saxton

Memorandum

Subject: Keithly Creek and Hopper Creek decrees

Muir vs. Allison included Keithly Creek as a source. However, in the decree, Keithly Creek is recognized as having two forks that were formerly known as **Big Creek** and **Little Creek** (This information can be found on pg 107 of *Muir vs. Allison* or at the end of the section that categorizes water rights by the source.) In *Muir vs. Allison* the Keithly Creek rights are designated as 67-149 thru 67-182 and Keithly Creek is decreed as the source.

Now, what was **Little Creek** is known as **Hopper Creek** and what was **Big Creek** is known as Keithly Creek.

Issue #1: *Muir vs. Allison* decreed some rights with a source as Keithly Creek but now we call that source **Hopper Creek**.

Proposed Solution: Recommend *Muir vs. Allison* rights decreed from what was known as Little Creek with a source of Hopper Creek. No accomplished change in source because the source never really changed.

.....
John Hopper v. Leonard Hopper et al. (Washington County, August 19, 1931) decree B67-F, described decreed rights 67-507 thru 67-511 with a source as Hopper Creek. However, *Muir vs. Allison* decreed rights on this stream that were not included in ***Hopper vs. Hopper***.

The parties in *Hopper vs. Hopper* were not party to *Muir vs. Allison* (or at least are not listed in *Muir vs. Allison*).

Decreed rights 67-507 thru 67-511 have priority dates that are mixed in with the *Muir vs. Allison* priority dates. Meaning the 1931 decree didn't decree rights, as a group, for better or worse priority dates than what was decreed in *Muir vs. Allison*. It looks as if 67-507 thru 67-511 were missed in *Muir vs. Allison* but were there, so when decreed in 1931, the priority dates could date back into *Muir vs. Allison*.

Issue #2: There are two separate decrees for the same source and it does not appear that one supercedes the other.

Proposed Solution: Actually, I don't see this as a big issue. I will just recommend the *Hopper vs. Hopper* rights as they were decreed, and the *Muir vs. Allison* rights from that source as they were decreed, except for changing the source to Hopper Creek.

Examination Date and Narrative: On July 20, 2006, Gene Gibson performed a field examination on the Points of Diversion and redirection, means of Conveyance, and the Places of Use on the above claim. GPS readings were taken and an examination of the claimed Points of Diversion and redirection. Examined the means of conveyance from claimed Points of diversion and redirection to the claimed Place of Use. Reviewed the claimed Place of Use in the file and compared it to the area that could be irrigated in the field.

The following is my findings:

- a. The Point of Diversion claimed was found and is operable.
- b. The means of conveyance from the Point of Diversion to the Place of Use was found and is operable.
- c. The claimed Places of Use can be irrigated from the claimed Point of Diversion.
- d. The number of irrigated acres in the field was not measured; therefore the number of acres claimed may or may not be accurate.
