RE: Recommendation of 67-10112

67-10112 claims three sources; Pine Creek, Springs, Wastewater.

The POU claimed under 67-10112 directly overlaps the POU for decreed rights 67-192B and 67-193B. Normally a beneficial use claim that directly overlaps the decreed water could be recommended with a priority of one day after Muir v. Allison was signed. However, the source claimed under 67-10112 are not the same sources as decreed to that "rule" does not apply. Evidence of priority for the use of waste water and springs needs to be submitted in addition to needing to know when the storage of spring water and waste water first took place.

The irrigation from Pine Creek does not need a storage component as the pond can be filled with the Pine Creek water rights in less than 24 hours.

The claimant submitted insufficient priority which dated back to 1995 when he purchased the property.

In the back ground, between 67-192B and 67-193B there is enough decreed water to irrigate the claimed POU with a full inch per acre so a flood water right is not needed.

Lastly, it is unclear if the waste water is actually waste water or if it is just water coming out of a second delivery ditch.

Based on the above information 67-10112 will be recommended as such:

- Irrigation, Irrigation Storage, and Irrigation From Storage will be dropped in the recommendation.
- Waste water will be dropped as a source as it appears Pine Creek water is what is irrigating that side of the field and will be recommended in 67-192B & 67-193B
- Stock water can then be recommended as a de-minimus use from the springs limited to 13,000 gpd.

Separate claims will need to be filed for irrigation from the springs with EOP. Waste water can be recommended on this right if we have EOP for waste use as it is the same system as the irrigation right.

RE: OWNERSHIP CHANGE COMPLETED 1/28/97

I received a phone call from Guy Amidon this morning concerning the portion of these water rights that had been split to the Lee's. Mr. Amidon stated that the Lee's property was on a rocky hillside that was not irrigated. He is coming into the office on February 4 to discuss the lands actually irrigated. He is going to bring a copy of an ASCS photo of the lands with him. I told Mr. Amidon that we changed the ownership on Lee's 7 acres because the entire 40 acre parcel was claimed as irrigated under both above referenced claims. Hopefully our meeting next week will resolve any errors that may have been made when these claims were submitted.

Ron Lee also called me this morning. He said that the ditch does go to his property but is in bad disrepair. He did not purchase the home under Claim A67-10113 but would like to file on the well for his home that was drilled in 1994. He would also like to file for irrigation of his land from this well. He requested an application for permit form be sent to him. None of the ponds under Claim A67-10113 are on the Lee property unless there is high water and then the water does get onto his property. I mentioned that only a portion of decreed Rts. 67-00192 and 67-00193 were filed on. I told Mr. Lee I would look at those decrees and see if I could figure out where the water from the original decrees was used.

Dear Claimants:

We have processed a Change of Ownership for portions of your original claims to water rights as referenced above. This change of ownership resulted in a split of your claims.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha-suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim numbers reflect your remaining portion of the original claims after the change of ownership. Enclosed is a copy of the new claims for your records. Please refer to your new claim numbers when corresponding with our office.

While reviewing our records for any water rights on the 7 acres now owned by the Lee's, I found two other claims that I have some questions on. I have included profile reports of these claims for your convenience. Under Claim No. A67-10112, I found the Lee's property is covered for irrigation. I am uncertain, however, if I should split any of the stockwater use to the Lee's. Are any of the ponds under this claim on the land they purchased? Please indicate on the profile report what portion of this claim should be split to the Lee's besides the irrigation of their 7 acres. I also have a question on Claim A67-10113, which is for domestic and stockwater use from a well. If this home and well were sold to the Lee's too, we will need to change the ownership on that claim. Please let me know within 30 days of the date of this letter how you want Claim A67-10112 split. If I don't hear from you within this 30 day period I will split A67-10112 to show the Lee's have

ownership of 7 acres under this claim. I will not take any action on the domestic well unless I hear otherwise from you or the Lee's.

If you have any questions concerning this ownership change, or the enclosed claim copies, please feel free to contact this office. If you would like to come into the office for assistance in this matter, please call first and make an appointment to meet with one of us.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name.
