If you are not mailed a notice of the recommendation of the other right, then the other right is recommended in another claimants name.
2. P06 Recommended as Right No. 67-192B.

Remarks:

Comments:

1. awarntje 8/6/2004 Water Use

Comment: Decree does not list a water use for this right

2. jdean 11/30/2006 Disallowed

Comment: From original claim map POU for 67-192 & 67-193 should be everything in the N1/2 of the SW1/4 that is east of the creek. It appears that the water master delivers the full amount for these decreed rights to Guy Amidon, so the acres for 67-192B & 67-193B were reduced to the property that he owns. 67-192C and 67-193C were claimed along the hillside west of the creek. It appears that the decreed water never covered the property that was claimed under these claims. These rights were disallowed.

RE: Claims to Water Right Nos. A67-00192C & A67-00193C

Ronald M. Lee
2707 Toney Lane
Cambridge, ID 83610

Dear Mr. Lee:

I met with Mr. Amidon this morning and we discussed the water rights that were filed on both of your properties. In looking at the orthophoto quad of these properties, I am uncertain that your land has received water from Pine Creek for quite some time, if ever. However, Mr. Amidon has no problem with you receiving the water rights that are referenced above. Please be advised that you may be required to submit evidence of use of water from Pine Creek on your land when we begin our work in that area.

Regarding the claims that I questioned in my letter of January 28, 1997, I offer the following. Claim No. A67-10112 was amended so none of that right is appurtenant to your property and Claim No. A67-10113 is for the Amidon's domestic well. We will not take any more action on those claims at this time.

I have enclosed an application for permit form, with instructions, that can be used to file on irrigation water from your well. We are not taking any action on new irrigation applications at this time. However, you can submit the application to initiate a date of priority and that will put your proposal in line for processing when we do begin taking action on these filings.

I have also enclosed a Notice of Claim form for your domestic and stockwater use if you wish to claim the date the well was completed. The enclosed brochure entitled "Idaho Water Rights - A Primer" is good information regarding Idaho water rights and some of the procedures we follow.

If you have any questions regarding your water rights, please feel free to contact me. If you feel you need to come into the office for assistance, please call ahead and make an appointment.

Sincerely,

RE: OWNERSHIP CHANGE COMPLETED 1/28/97

I received a phone call from Guy Amidon this morning concerning the portion of these water rights that had been split to the Lee's. Mr. Amidon stated that the Lee's property was on a rocky hillside that was not irrigated. He is coming into the office on February 4 to discuss the lands actually irrigated. He is going to bring a copy of an ASCS photo of the lands with him. I told Mr. Amidon that we changed the ownership on Lee's 7 acres because the entire 40 acre parcel was claimed as irrigated under both above referenced claims. Hopefully our meeting next week will resolve any errors that may have been made when these claims were submitted.

Ron Lee also called me this morning. He said that the ditch does go to his property but is in bad disrepair. He did not purchase the home under Claim A67-10113 but would like to file on the well for his home that was drilled in 1994. He would also like to file for irrigation of his land from this well. He requested an application for permit form be sent to him. None of the ponds under Claim A67-10113 are on the Lee property unless there is high water and then the water does get onto his property. I mentioned that only a portion of decreed Rts. 67-00192 and 67-00193 were filed on. I told Mr. Lee I would look at those decrees and see if I could figure out where the water from the original decrees was used.

Dear Claimants:

We have received and processed a Change of Ownership for a portion of the original claims to water rights as referenced above. This change of ownership required a split of the original claims resulting in renumbering the claims by adding alpha-suffixes to represent each split. The new notice of claims to water rights, for your portion, are referenced above and copies are enclosed.

Your portion of the claims have a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use or point of diversion under these rights, including adding a new point of diversion, then an Application for Transfer on your portion of these rights is required. Please contact this office for further information on the application for transfer form. If you do not plan on changing any items on your claims, then no further action is required at this time. You will be notified of any future action taken on these claims.

While checking your property description for any other water rights that may be appurtenant to your land, I found a couple of claims that I have questions on. I have included profile reports of the claims for your convenience. Claim A67-10112 covers irrigation of your 7 acres, along with the lands of the previous owners. However, I am uncertain how to split this claim. This claim covers some ponds that are located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10, Twp. 14N, Rge. 3W, with irrigation and stockwater use from the ponds. Are any of these ponds on the property you purchased? Please discuss this with the previous owners and let me know which portion of this claim should be changed to your names, besides the irrigation of your 7 acres. I also found Claim A67-10113 which claims the use of water from a well for one home and stockwater. Did you purchase the land where this well and home are located? If so, we need to change the ownership of that claim also. I will not take any

action on these claims until I hear from you. If I don't hear from you within 30 days of the date of this letter, I will split Claim A67-10112 to split off your 7 acres but not change any of the stockwater parameters of the claim. I will also assume the well and home are not yours and leave it as it is now recorded.

If you have any questions concerning this letter or the enclosed claims, please feel free to contact this office. If you feel you need to come into the office for assistance, please call ahead and make an appointment.

Sincerely,
