RE: 72-00004T

Dear Mr. and Mrs. Swindell,

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim listed above. Your NOE questioned the diversion rate, the acreage in your place of use, and the location of the point of diversion relative to other rights out of the same pipeline.

Based on information in the transfer file, I have re-calculated the diversion rates for the area and have been able to recommend the rates that were originally deeded. I have enclosed a proposed recommendation based on this new rate. Lots in the Subdivision were for 2.43 acres and 2.2 miner's inches (0.044 cfs). Your original claim was for 2 acres and that is what was recommended as irrigated.

I have also checked the point of diversion and all rights out of the pipeline should have the same legal description.

If you still do not agree with the proposed recommendation to the court, you may file an objection with the court after you receive the final recommendation of your water right. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent
