RE: 72-00004S

Dear Mr. and Mrs. Long,

This letter is in response to the Notices of Error (NOEs) recently filed with IDWR by many of your neighbors in the 3SI Subdivision regarding the Director's proposed recommendation of the claims against Water Right 72-00004B, of which yours is 72-00004S, as listed above. The NOEs generally questioned the diversion rates and the location of the point of diversion relative to other rights out of the same pipeline.

Based on information in the transfer file, I have re-calculated the diversion rates for the area and have been able to recommend the rates that were originally deeded. I have enclosed a proposed recommendation based on this new rate.

I have also checked the point of diversion and all rights out of the pipeline should have the same legal description.

If you still do not agree with the proposed recommendation to the court, you may file an objection with the court after you receive the final recommendation of your water right. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent
