SOURCE: BOISE RIVER

TRIBUTARY: SNAKE RIVER

QUANTITY: 0.970 CFS

This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.

PRIORITY DATE: 04/01/1909

Pursuant to a call in times of scarcity, this right is junior to water right nos. 63-253, 63-292, 63-293 and 63-382B and any future splits of these rights.

Re: SRBA Subcase Nos. 63-251, *et al.*

Dear Nick:

I enclose twenty (20) original signed Standard Form 5's for the above-referenced subcases that I previously received from Bryce Farris. As we discussed, I will withdraw Ray Obendorf's Objections in these subcases so that his signature on these Standard Form 5's will not be necessary. I understand that you will arrange to have the Standard Form 5's filed with the SRBA Court.

Please let me know if you need anything further in connection with this matter.
Thank you for your assistance.

Sincerely,

Place of Use is within the Settlers Irrigation District.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

This right is renumbered from former right 63-373.

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

An aerial photograph of a coastal area, likely a beach or dune region, overlaid with a grid of numbered cells. A prominent yellow boundary line runs vertically through the center of the image, separating the land from the ocean. The grid cells are numbered from 1 to 35, with some cells containing multiple numbers. The numbers are arranged in a roughly vertical column, with some cells containing multiple numbers. The background is a dark, textured aerial view of the landscape, showing vegetation, sand, and possibly some structures or roads. The overall image has a grainy, high-contrast appearance typical of older aerial photography.
