DEC 20 1993

Dear Mr. Worstell;

I have marked the area which I irrigate under the adjudication claim #A72-00007B by outlining this area in red. This area is all privately owned property which belongs to my wife and I. The 3.6 acres you refer to as BLM land was formerly 3.36 acres which we acquired through the Noncompetitive Sale (Realty Action I-27114) from the BLM on October 16, 1991. This 3.36 parcel has been consolidated with our prior property to comprise 22.36 acres in Sec. 2 T14N R18E.

I have marked with a red dotted line the former boundary line between our property and what was once BLM land. The 3.36 acres we acquired is a triangular parcel which I have marked with an arrow indicating the additional 3.36 acres.

I am also enclosing a copy of the Realty Action referred to in the previous paragraphs and a copy of our tax assessment notice which indicates the 22.36 acres as previously mentioned.

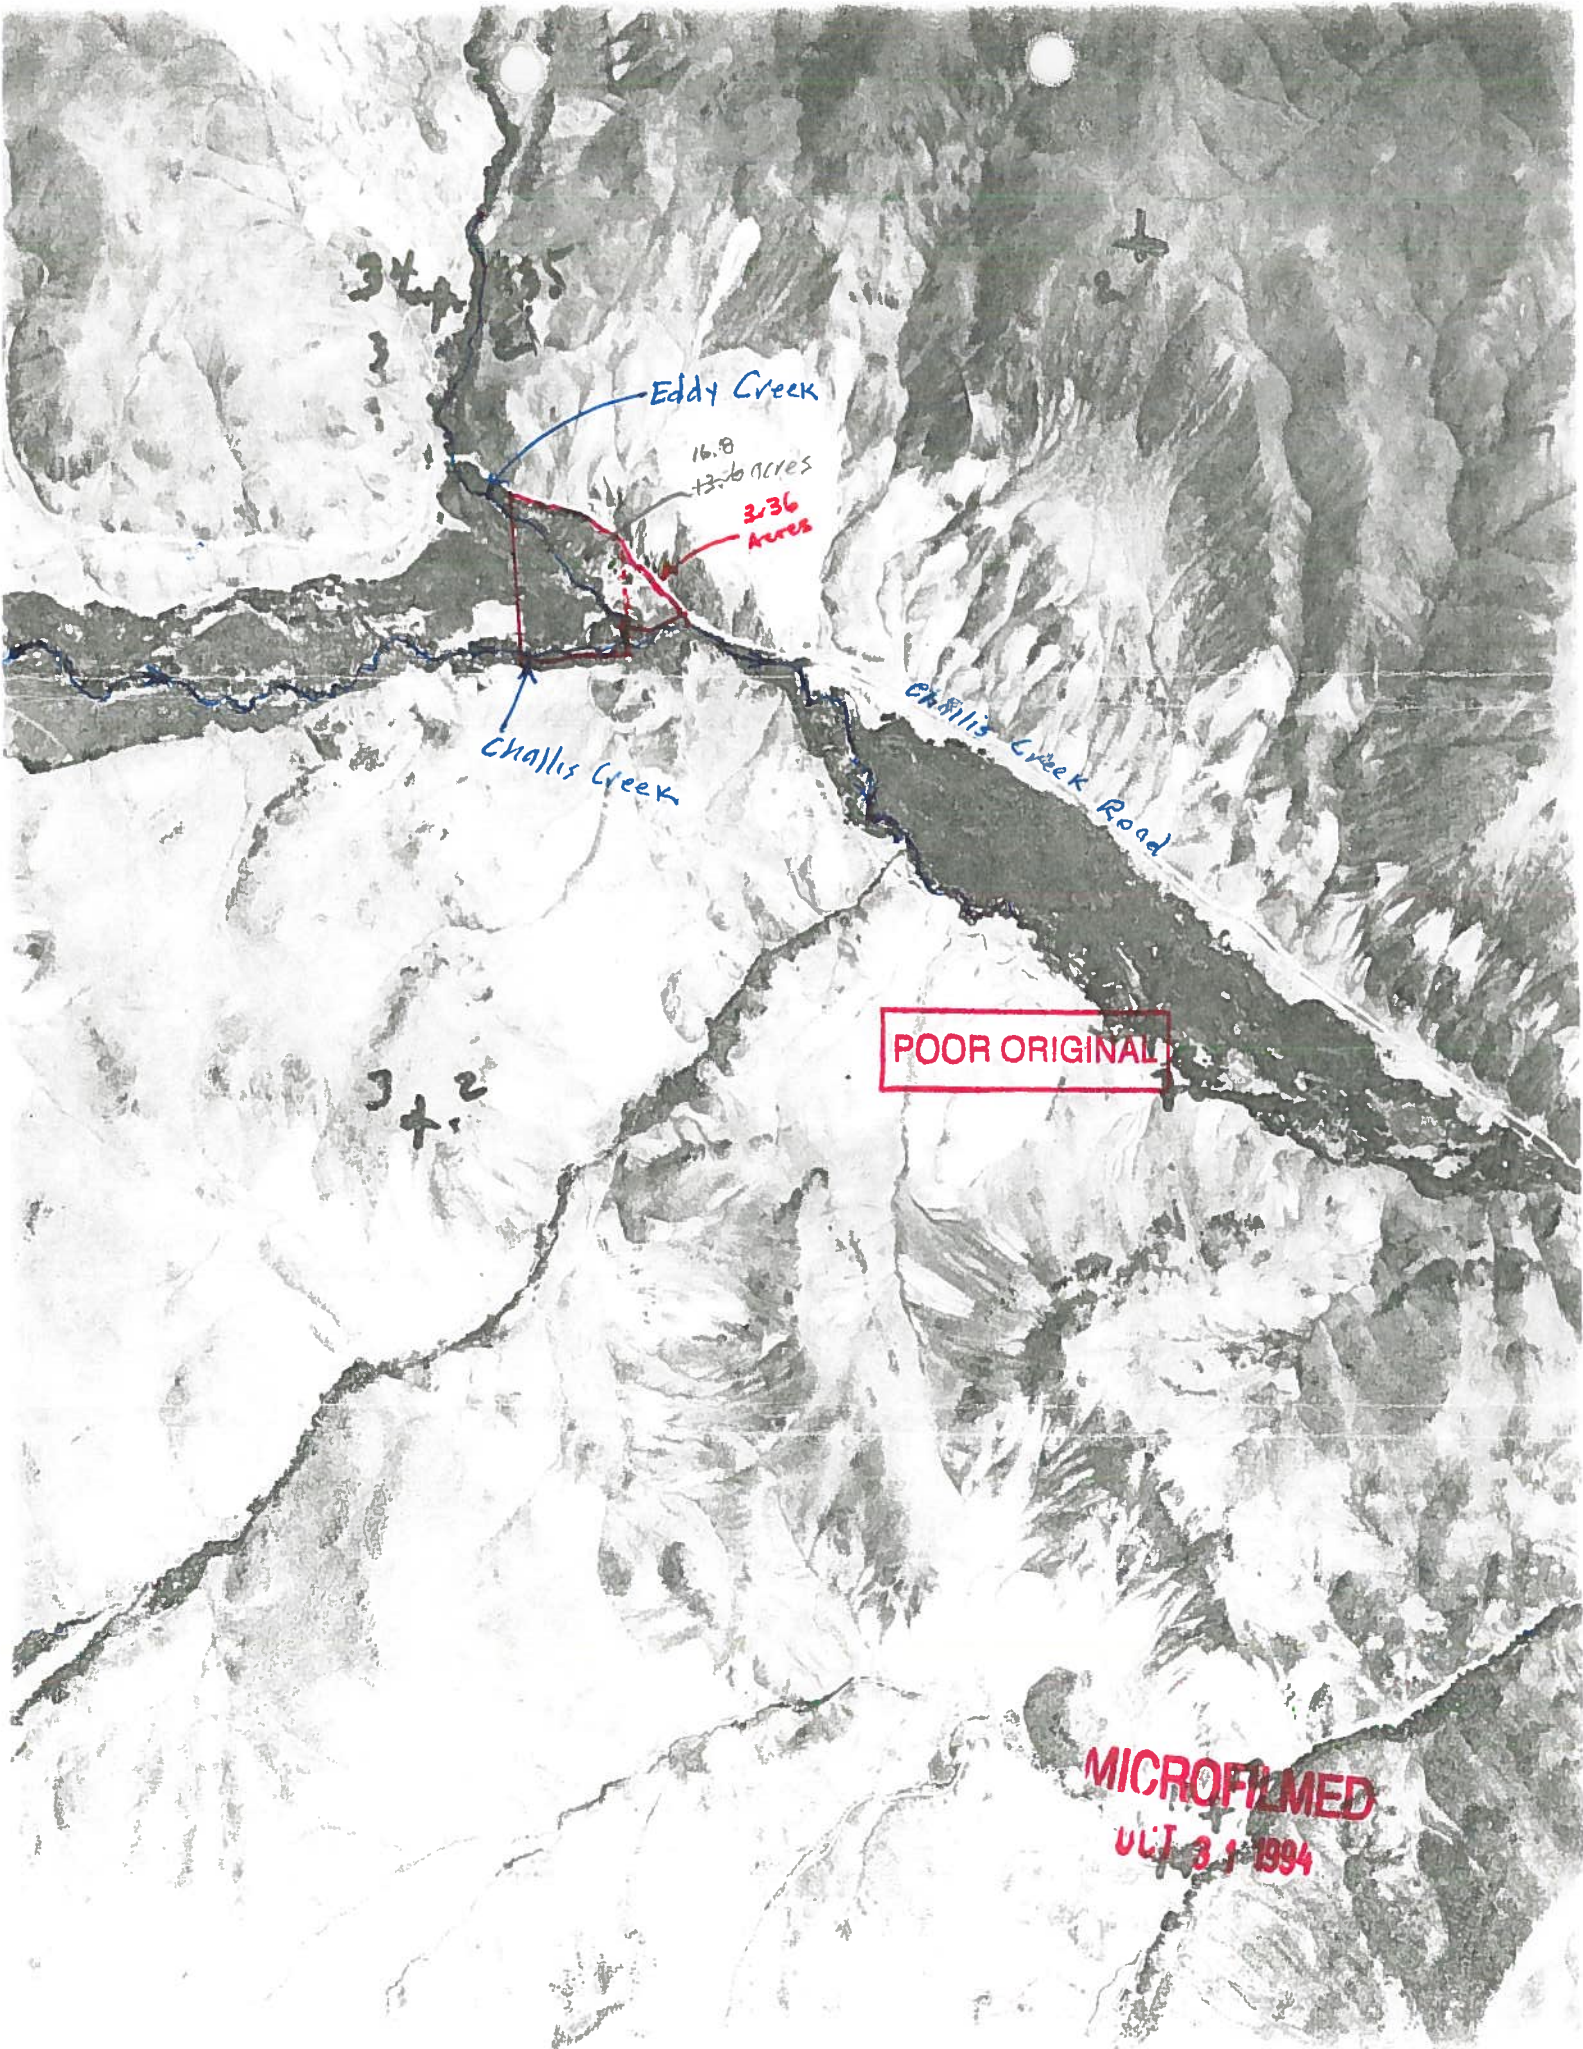

I hope this clarifys any questions you have. Please contact me if you require any further information.

Sincerely,

Larry G. Sidlo

Re: Adjudication Claim A72-00007B - AMENDMENT

Dear Mr Sidlo:

I have amended your adjudication claim to show the inclusion of the additional acres that you have been able to buy from the Bureau of Land Management. Thank you for sending the record of that transaction. I am enclosing copies of the amended claim for your review. If you have minor corrections or additions you may make them by pen and then initial them nearby. If you have large corrections, please indicate them and I will re-type this amended claim. Note the "Remarks" section of the claim. Can you give the year when this area was first included as part of the ranch operation by you or by former owners? A reasonable estimate is usually enough.

Please sign one copy of your amended claim and return it to me promptly in the enclosed stamped and addressed envelope. The other copy is for your files.

Contact me if you have questions.

RECEIVED

Dear Mr. Worstell;

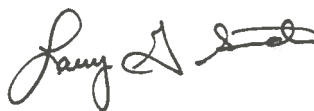

In reference to your letter of 12-23-93 regarding Adjudication Claim A72-00007B-AMENDMENT, I can not give you an exact year when the former BLM land was first included as part of the ranch operation. The most reliable source I have located in Challis is a Mrs. Ione Clark who is presently in her 90's. She stated that the current ranch house and barn which were located inadvertently on the former BLM land were there at the time she was a teenager. She also recalled the house and apple orchard being there at least as early as 1914.

An old postcard vehicle registration form in the name of Wilkerson and dated in 1917 was also found in the attic of the old house. This would appear to indicate that the house was at least present prior to that time.

My wife and I purchased the property in 1977 and all buildings presently on the former BLM acreage were there at that time. All irrigation ditches presently on the former BLM land were also there in 1977 and appeared to have been there for many years.

I am sorry I can not give you a more specific answer, but we have been unable to locate any documentation or anyone who can give us a more specific date as to when the old ranch house and barn were originally constructed. Please contact me if you have any additional questions or require any additional information.

Sincerely,

Larry G. Sidlo

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Jeanie,

I talked to the claimant on Wednesday and he agreed with adding "lot 5" I had Carter make the change to the R record so I could get the SF5 out the door quickly. While he was making the change he also added "lot 4" to the POD on 72-16555 so it would be the same as the description of the POD for 72-00007B.

With these BLM objections, just because BLM says it should be one way does not mean IDWR or the claimant necessarily agrees with that. So we always need to confirm that the claimant agrees with BLM's suggested changes before we do them. I have left a message with the Sidlos to determine whether they agree with the objection. I will let you know when I hear back from them.

Thanks

An aerial photograph of a landscape, possibly a wetland or forested area, with a green boundary line drawn over it. The boundary line is irregular and follows a path through the terrain. The background is a mix of green and brownish-yellow, suggesting vegetation and bare ground or water. Two white circular marks are visible at the top of the image, likely punch holes in the paper. Handwritten text in black ink indicates area measurements in acres.
