RE: 72-07272, 72-00012D, 72-00025B, 72-04162

Dear Mr. Gammache,

This letter is in response to the Notices of Error (NOEs) you recently filed with IDWR regarding the Director's proposed recommendation of the claims listed above. Your NOEs questioned the place of use location for the well in 72-07272.

I have made the changes that we talked about and have enclosed a new map showing the corrected location. This also resulted in some changes to the other rights mentioned above, namely increasing the total acreage recommended from 128 to 130.6 acres. I have made the changes to all of the rights and enclosed new maps and proposed recommendations.

If you still do not agree with the proposed IDWR recommendation to the court, you may file an objection with the court after you receive the final recommendation of your water right. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

IONS TO PROPERTY / REMARKS:

Mr Gammache went with me to show me his points of diversion and his ^{diversion} ~~estion~~ and measurement structures (weirs).

He emphasized the value of building up a hi "sub" level during the spring hi flow period so that it could help maintain the flow of the creeks and drains later in the season. He discussed the soil profiles found in the area and their low water holding capacity.

When the water is under hi-flow conditions he can irrigate the entire ranch in 3 days and return again in about 7 days, when water flow is down to only 1875 priority water he covers the ranch in 7 or 8 days and returns again in 2 or 3 days - a 10 day cycle in either case. He changes his sets 2 times/day.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding made and entered into this day of 1977, by and between JILLIAM THOMAS GAMMACHE, an unmarried man, and ANTHONY D. GAMMACHE, an unmarried man, of Custer County, Idaho, hereinafter referred to as Gammaches and KENNETH BRADBURY and ELMA BRADBURY, husband and wife, of Custer County, Idaho, hereinafter referred to as Bradburys.

WITNESSETH:

Whereas, the parties hereto wish and desire to reach certain understandings pertaining to their Challis Creek water rights with priority date of May 1, 1879, as evidenced by a certain Court Decree within the District Court, Custer County, Idaho, dated 10-9-11, and recorded in Book 13 of Book of Decrees at Page 2223, and

Whereas, by the terms of such decree, their predecessor in interest, a certain William Millick, was decreed 3.92 C.F.S. for the lands described as follows:

S 1/2 SW 1/4, Section 3, NE 1/4, N.1. NW, Section 10, 1 1/2 NE, Section 9, S 1/2 SE, Section 4, Township 14 North, Range 19 East, Boise Meridian, Custer County, Idaho, and

Whereas, subsequent to such decree, 20 miners inches of water was transferred by Transfer #863, Department of Water Resources, State of Idaho, to certain lands within the S 1/2 of the SW 1/4, Section 8, Township 14 N, Range 19, East Boise Meridian, Custer County, Idaho, and

Whereas, the above described lands were divided in ownership and are now being held by Gammaches and Bradburys.

Now, therefore, for and in consideration of \$5.00 paid each party to the other and in consideration of the following covenants and agreements, it is understood and agreed as follows, to-wit:

- 1) That this agreement pertains only to the interests and ownership of the parties in and to the Challis Creek water rights with priority date of May 1, 1879. This agreement shall not determine or be used to determine the precise land boundaries of the parties hereto to the benefit or detriment of either party.
- 2) That Gammaches are the owners of that certain parcel of land described on Exhibit "A" attached hereto and made a part hereof. The rest, residue, and remainder of the property described first above as the William Millick property, presently belongs to Bradburys.
- 3) That in respect to the 3.52 C.F.S. remaining appurtenant to said lands, (after the 20 inch transfer above), Gammaches are entitled to 106 miners inches of May 1, 1879, water for their properties, and Bradburys are entitled to 70 miners inches of May 1, 1879, water for their properties.

MEMORANDUM

TO: File

December 12, 1978

FROM: Jim Johnson JS

RE: Application for Transfer #2242 on #72-0012

Pursuant to an agreement reached between the applicant and the protestants, no more than 30 inches (0.6 cfs) shall be diverted into the Highline Canal under Water Right No. 72-0012. The remaining amount (2.06 cfs) under said right shall be diverted at the original point of diversion located in NE1/4NW1/4, Sec. 9, Twp. 14N, Rge. 19E, B. M.

The transferred amount in Sec. 9a should be the total amount owned by the application because all of the applicant's points of diversion are listed.

One of the conditions of approval should be allowing only 30" (0.6 cfs) to be diverted into the Highline Canal.
