Case No. 39576

Subcase No. 63-07879

STANDARD FORM 5

By
STIPULATED ELEMENTS OF A
WATER RIGHT

DISTRICT COURT - SRBA
Fifth Judicial District
County of Twin Falls - State of Idaho

NOV 12 2013

Clerk

Deputy Clerk

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

~~Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.~~

The facility volume is 101,356 cubic feet.

The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.

Right Nos. 63-9194, 63-32695A and 63-32695B are also diverted through the points of diversion described above.

Measuring devices of a type approved by this Department shall be maintained at the point of diversion and point of effluent discharge.

~~This water right is appurtenant to the described place of use.~~

~~Use of water under this right is subject to policies set forth in the State of Idaho Water Plan, including Policy No. 5G.~~

~~The facility volume is 101,356 cubic feet~~

The issuance of this right does not grant any right-of-way or easement across the land of another.

AN

Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards.

~~This right is subject to all prior water rights and may be forfeited by five years of non-use.~~

Right No. 63-32695B is an enlargement of this right pursuant to Section 42-1426 Idaho Code.
