Re: Name Change for Adjudication Claims #A72-00012H, A72-00012J,
A72-10199
MOYE/CULLINANE

Dear Mr. and Mrs. Cullinane:

I have changed the name on the above mentioned adjudication claims into both of your names, as you requested. Please find enclosed a copy of the computer records of the claims noting the name changes. Please review them and if you have any corrections or questions, feel free to call this office.

I checked our records and found only the one domestic claim (A72-10199) and no claim was found on the artesian well you mentioned. There is part of an old licensed right (72-02104A) which appears to be appurtenant to your property and remains unclaimed at this time. I have enclosed a proof report of it and if you feel it is a right you still use and wish to make a claim, the first step is filing the enclosed REQUEST FOR EXTENSION OF TIME TO FILE ADJUDICATION CLAIMS with the State Office in Boise. Upon approval and the decision of whether or not to charge late fees, I can forward claim forms to you along with instructions.

Sincerely,

Jeanie Robertson
Sr. Water Right Agent

RE: Applic. for Permit or SRBA Claim

Dear Ms. Duke:

Please find enclosed your check # 239 for \$30.00 and the Application for Permit along with the attachments which you recently submitted to our office. After reviewing your application it is unclear as to the intent of your filing the application.

If it is your intent to claim an existing water use on your property in response to the Snake River Basin Adjudication then you have completed the wrong form. Please find enclosed a Notice of Claim form with instructions for your use. Please also find enclosed copies of proof reports of existing water rights of which you may have a portion. The proof report may help in completing the claim form. PLEASE NOTE THAT THE DEADLINE FOR FILING TIMELY CLAIMS WITHOUT PENALTY IS JANUARY 12, 1990 IN CUSTER COUNTY. HOWEVER, IF YOU RESUBMIT A NOTICE OF CLAIM WITH A COPY OF THIS LETTER WITHIN 30 DAYS OF THE DATE OF THIS LETTER THEN IT WILL BE CONSIDERED TIMELY AND NOT SUBJECT TO LATE FEES.

If it is your intent to establish a new water use on your property then the filing of an Application for Permit is the proper form to complete. Before returning the Application please complete items #7 and #10 and also identify the number of acres in each checked box in item #9.

If you have any questions please feel free to contact our office.

Sincerely,

Allen Merritt, P.E.

RE: 72-00012H, 72-00012J

Dear Mr. and Mrs. Cullinane,

This letter is in response to the Notices of Error (NOEs) you recently filed with IDWR regarding the Director's proposed recommendations of the claims listed above. Your NOEs questioned the sizes of the Place of Use.

I have re-drawn the areas on the GIS map. This allowed me to change my recommendation to 7.5 acres from 6.2 acres on 72-00012H, and to 4.9 acres from 4.4 acres on 72-00012J.

I have enclosed copies of the new Preliminary Recommendations and new GIS print-outs for your records. You should be receiving the actual Director's Reports by the end of the month which will reflect these corrections.

Sincerely,

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

RE: Adjudication Claims
A72-00021B & A72-10198

Dear Ms Moye;

In reply to the note we received from you on April 6, concerning the landowners who have claims for water use from the same ditch that supplies your irrigation water; our records show that Gammaches have claimed a 30 acre area that is irrigated from that ditch and Bradburys (now owned by Bauchmans) claimed an 85 acre area that is irrigated from that ditch. The ditch also runs through part of the Cox property and 10 acres lie near the ditch but they have not claimed any irrigation from that ditch. Mr. Hourihan (now owned by Dungan) also claimed water use from that ditch. This 50 acres lies at the end of the ditch - northeast of your place and across Challis Creek from you.

I am just completing the review of your 2 adjudication claims which I field-examined last August 11 with you. When I compared these 2 properties to aerial photos of the area I found that only part of the areas are being irrigated. Claim A72-00021B (made by Rina Sue Duke) was for 10 acres- the total property- but only 4.9 acres are below the ditch and are actually irrigated. Robert Surgeon (Claim A72-10198) also claimed his total 10 acres of property but only 7.3 acres are actually being irrigated. The balances of these properties lies on the hillside slopes above the ditch that brings the irrigation water by gravity flow. The total irrigated area for your two properties will be recommended as 12.2 acres.

Claim A72-00021B is based on decreed right 72-00021 as referred to in item 14(Remarks) on that claim. My research showed that this was an error. This Decreed right did not apply to the tract of land that covers your properties. Our records show that all of the flow of water right 72-00021 was moved by transfer #2167 (on Sept. 6, 1977) and combined with 3 other rights for application to another place of use under adjudication claim A72-10263. The decreed right that relates to both your properties is 72-00012E -the same as is referred to in your claim A72-10198 (by Surgeon). Both of your claims will be recommended with new numbers that will show them as further splits from decreed right 72-00012E.

I will retire May 1, 1994, but I have conferred with Allen Merritt, of this office, regarding these changes and I will still be living in Twin Falls to confer with if needed.

Respectfully,

Robert V. Worstall

Re: Ident # A72-000213
A72-10198

Last year I discussed the status of the irrigation ditch which feeds my property. I am trying to find out if the 3 landowners above me have water rights on this ditch. All three have told me that they do not, yet all use water from the ditch and do nothing to maintain it. Last year we measured that I was receiving 14 of my 35 inches.

Could I find out if anyone else, specifically Eugene Cox, Anthony or William Gammache and Lester or Earl Bradbury have water rights on the ditch?

The point of diversion is

T14N R19E Sec 8 $\frac{1}{4}$ of $\frac{1}{4}$ of $\frac{1}{4}$
NW NE

In addition, has anything come of your investigation of last year? Could I please get a copy of your report?

Thanks

Sincerely,

Falma Moya

MOYE/CULLINANE

Dear Mr. and Mrs. Cullinane:

I have changed the name on the above mentioned adjudication claims into both of your names, as you requested. Please find enclosed a copy of the computer records of the claims noting the name changes. Please review them and if you have any corrections or questions, feel free to call this office.

I checked our records and found only the one domestic claim (A72-10199) and no claim was found on the artesian well you mentioned. There is part of an old licensed right (72-02104A) which appears to be appurtenant to your property and remains unclaimed at this time. I have enclosed a proof report of it and if you feel it is a right you still use and wish to make a claim, the first step is filing the enclosed REQUEST FOR EXTENSION OF TIME TO FILE ADJUDICATION CLAIMS with the State Office in Boise. Upon approval and the decision of whether or not to charge late fees, I can forward claim forms to you along with instructions.

Sincerely,

Jeanie Robertson

FALMA MOYE A72-00012H, A72-00012J

SUBJECT: QUESTIONS ON BOB'S RECOMMENDATIONS??

phone call (X) walk-in (.)

Had some questions on the acres and diversion amounts Bob has recommended for her claims. On 72-00012H he found 7.3 acres irrigated out of 10 claimed and cut the diversion from .5 cfs to .35 cfs. On 72-00012J he found 4.9 acres irrigated out of 10 claimed, but recommended the .2 cfs as claimed. She feels he may have considered a 3 acre field that she does irrigate to be part of the area he described as sub-irrigated. This field lies beyond the "sub" area. She doesn't mind the recommended "acres" as much as the fact that she still wants her 35" of decreed water, because the P/D is way up the ditch. I told her that I planned to be in Challis in the near future and I would be happy to meet with her and she could show me her place and we could go over her irrigation practices. She said they are building a house out there and I could reach her @ 838-2473 (temporarily) or her new husband, Ray Cullinane, could be reached at work @ 879-5204 (Middle Fork Ranger District).

RE: Field Exam - Adjudication

I met with Ms. Moyer to examine her 2 claims. She showed me the flood irrigation system she uses. She is ^{near} the end of a long ditch (Bradbury Ditch) that serves part of the Bradbury property and ~~the~~ part of the Gammache property. One claim "below" her (A72-10073 - Hourihan) also lists this ditch as part of their water supply. Ms. Moyer has difficulty in receiving enough water to irrigate her pasture on these 2 claims.

Much of these pastures are in a "sub" area that is affected by run-off and seepage from the fields that are west of Moyer's property. A small pond just east and south of her buildings is filled by run-off from these areas. Ms. Moyer pastures her horses on these pasture and occasionally has other animals use them.

She showed me an "artesian well" near her buildings that "sometimes flows 4 to 5 gal/min". A large 12" steel pipe can be used to take water from this well south thru the pond and across the pasture to the south edge of the pasture to discharge into the main diversion ditch. There was no pump on the well and no record of any water right, permit, or Adjudication claim for this well.

Ms. Moyer said that she covers the pasture irrigation in about 5 days with 2 sets/day.

The head gate near the south west corner of this property is a wood gate with a 13 1/2" x 9" opening.
