Re: New Ownership, Split, and Re-numbering of Adjudication Claims
A72-00013D, A72-04088B & A72-10069B.

Dear Mr Green;

The above referenced claims have been split from the original claims and entered in the Department of Water Resources records as under your ownership pursuant to your request for Change of Water Right Ownership for these claims which apply to the property which you now own. A copy of each of the re-numbered claims is enclosed. Please examine these claims carefully and contact our office if you find changes of corrections.

Please use a claim number whenever you wish to contact the Department of Water Resources regarding any claim.

Respectfully,

A handwritten signature in cursive script that reads "Robert V. Worstell".

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

OFFICE OF STATE ENGINEER

STATE OF IDAHO,
County of Cassia ss.

Robert W. Phelps being first duly sworn, upon his oath deposes and says:

That he is the owner of a deeded water right appurtenant to the following described land to-wit:
S¹S¹ Sec. 9 and E¹E¹ Sec. 10, T.14N., R.19E., B.M.

as evidenced by the decree dated day of
in the cause entitled John McWhirter et al. Plaintiff,
vs. C. C. Shaw et al. Defendant, brought
in the District Court of the Judicial District of the State of Idaho; or,

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No.

That he intends to change the point of diversion, as described in said decree or permit, to the following described point:

N. 66° W. 2 1/4 Ch. more or less, from the S.E. Co. of sec. 8
T.14N., R.19E., B.M.

That such change will be made for the following reasons, to-wit:
If the water for Sec. 10 be changed and brought through Sec. 8
the entire body is concentrated and carried through one good ditch to
destination, avoiding considerable evaporation and seepage losses.
Ditch maintenance is cut in half and expense of irrigation reduced.
Water is in better rotation between the two ranches, will save crops, and
rotation of water is feasible only through the proposed change of taking
all water out at one point. The land in Sec. 9 is about 100 ft. higher than
the land in Sec. 10, making rapid transfer feasible.

That no one will be injured by such change and that deponent will make such change at his own risk.

And further deponent saith not.

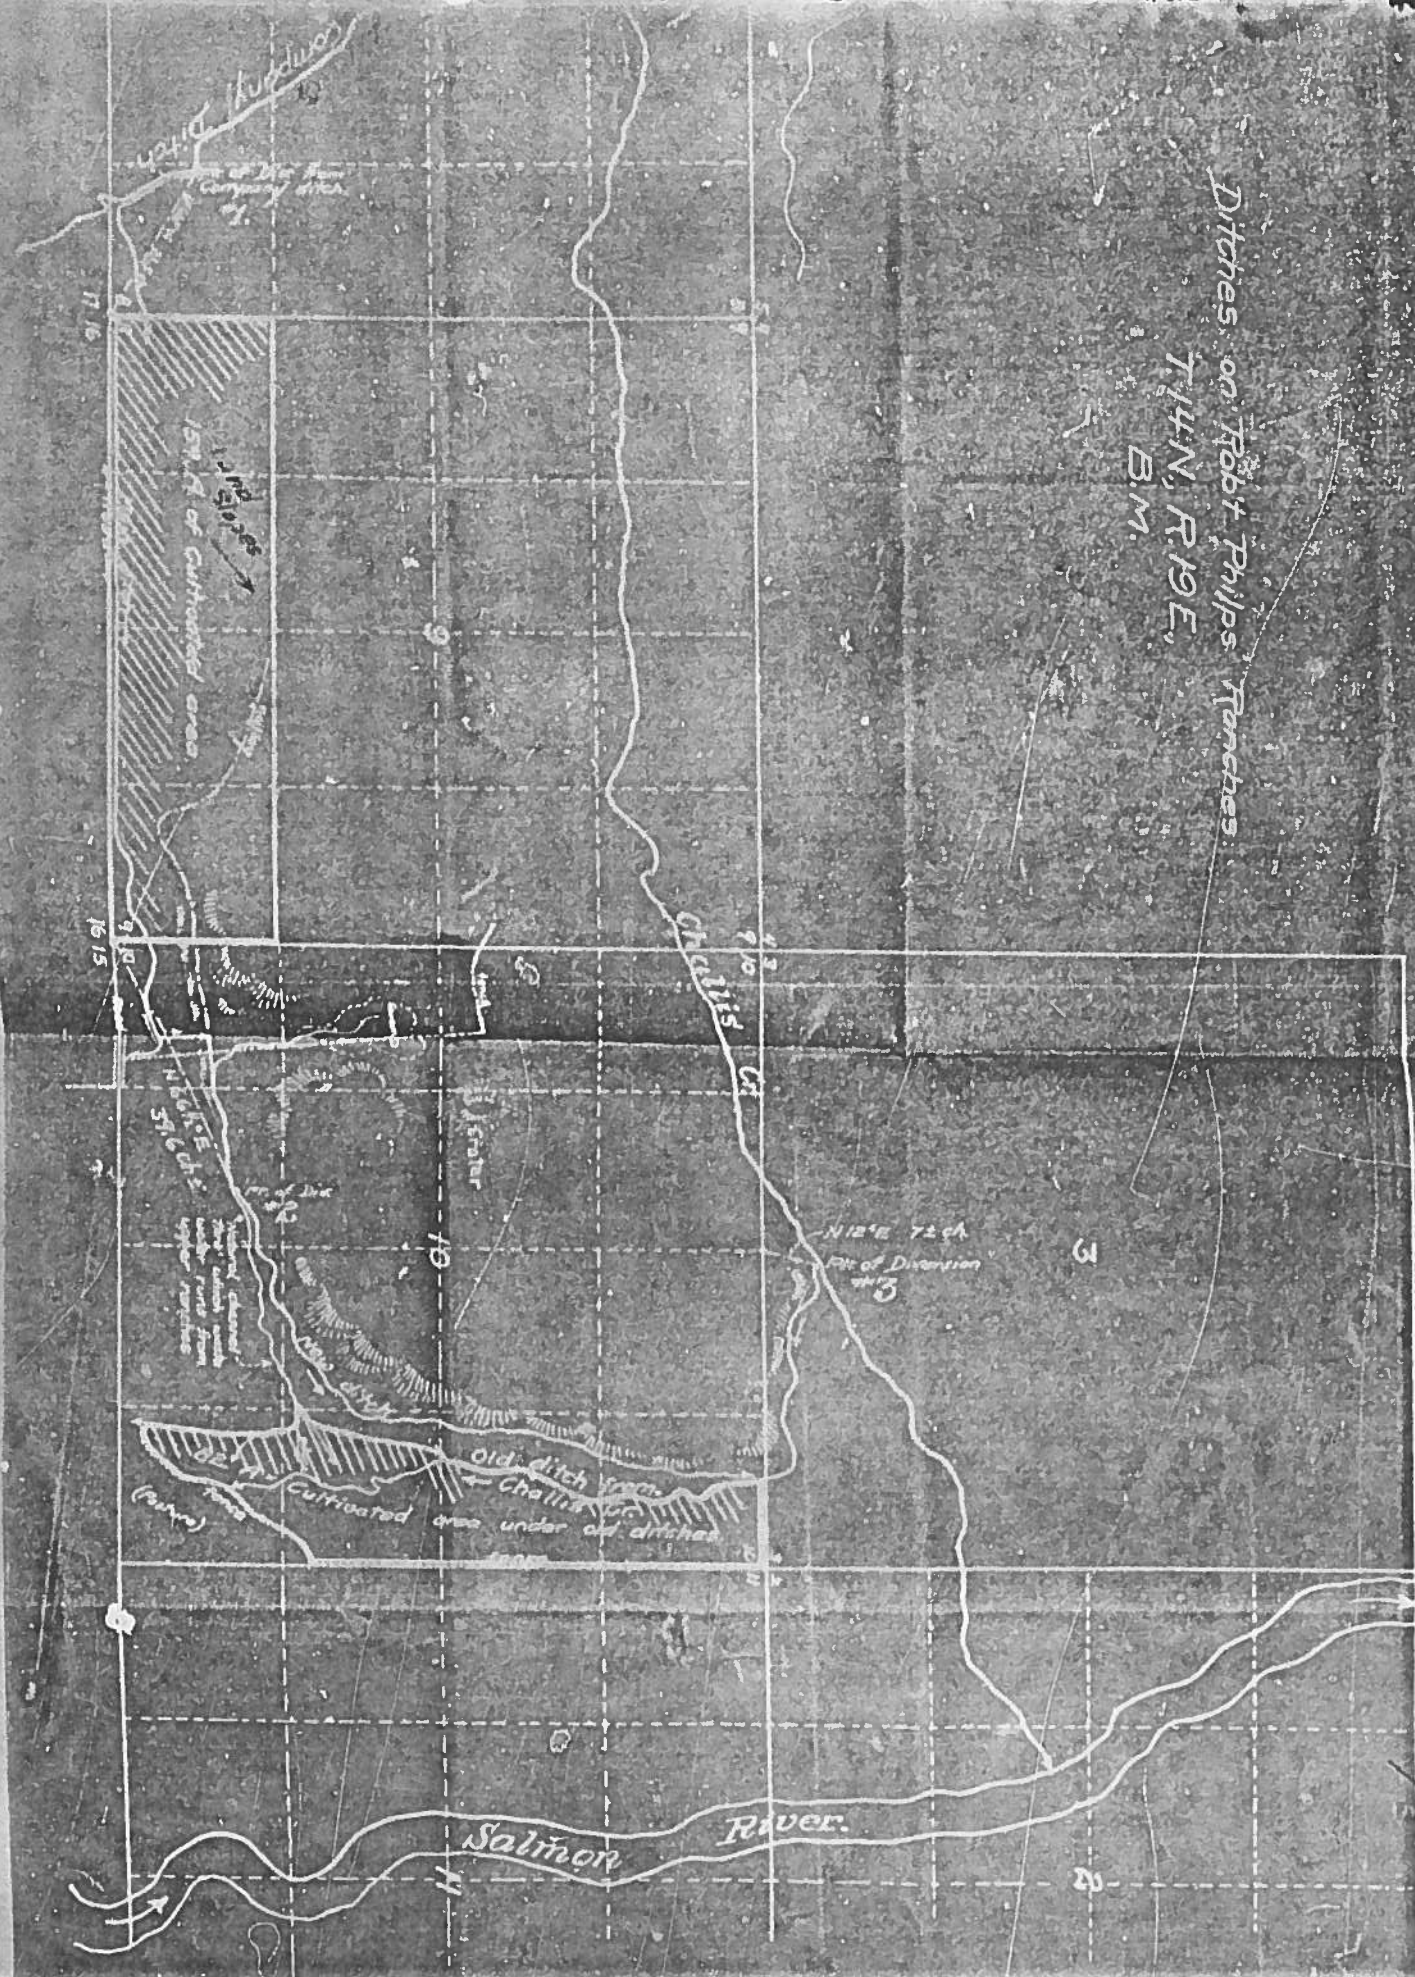

Subscribed and sworn to before me this 18th day of August

That such change will be made for the following reasons, to-wit:

If the water for Sec. 10 be changed and brought through the entire body is concentrated and carried through one good destination, avoiding considerable evaporation and seepage. Ditch maintenance is cut in half and expense of irrigation when water is low rotation between the two ranches will save crops, and rotation of water is feasible only through the proposed change of taking all water out at one point. The land in Sec. 9 is about 100 ft. higher than the land in Sec. 10, making rapid transfer possible.

That no one will be injured by such change and that deponent will make such change at his own risk.

And further deponent saith not.

SUBJECT

File 72-0001, 72-0013

RECEIVED

MAR 22 1984

Department of Water Resources
Southern District Office

- 1) No file exists for 72-0001 (it is listed in 72A).
- 2) Transfer #24 changes the point of diversion for right #72-0013 but it does not change the point of diversion for 72-0001. It should be noted that the decree (John Stephens et al vs C.C. Shaw et al) does not list a point of diversion for either right.
- 3) By including a copy of this transfer it would clarify the point of diversion for right 72-0001.

Action needed:

- 1) A copy of original decree in file 72-0013
- 2) A copy of transfer #24 placed in 72A
- 3) Check that computer records are updated. It should be noted that the point of diversion listed on the transfer is from the "Company Ditch" and not from Challis Creek itself.
A check of the 15 minute USGS Quad Map shows an intermittent channel with a point of diversion NW 1/4 Sec. 8. The map with the transfer indicated the actual point of diversion for the Company Ditch is somewhere in the NW 1/4 Sec. 8 - should be verified using local survey information.
- 4) I do not think it is absolutely necessary to start a file for 72-0001 but I do feel a computer update is mandatory.
