Hi Vicki,

I've been dealing with Vicky Music on these but I think she told me she was going to be gone the rest of the month...You can forward this message to the appropriate person, if you'd like!

Anyway, Amended Director's Reports are due by the end of this month for 72-00020E, 72-04204, 72-02147A, and 72-04087 (actually a new late claim). I prepared the recommendations and told Vicky last week or the week before. I see on the Subcase Summary Report that nothing has happened yet. Do you know **when** they will be filed or can you find out from someone? The reason is that Mrs. Green says that her water will be cut back soon and she needs to be able to divert from these other two pods, which the amended recommendations provide for. **How soon can she do this once they have been filed?** Is there a waiting period? The WM (Jack Challis) will need to be informed or he won't deliver there...(She is represented by Pat Brown, but has contacted us cause he charges her everytime she calls him! Imagine that!) Could you or someone let me know? Thanks, Jeanie

I don't think it will be a problem to get it done also, it has the same POU but a different source and PoD. I'd probably rather be DONE with it so I can shelve them all instead of having to revisit this and think it all up again later anyway!

I have no idea why, but it appears from the website that the mtn for late claim on 4087 was filed back in 12/99, and is not on the same timeline as these 3. However, Nick says that if it looks like it is not a complex situation, let's go ahead and recommend it with the other Roberta green claims and dispose of them at the same time. Let me know what you think. thanks!!

Hi Vicky,

Been out for awhile so I'm glad these weren't due any sooner! Anyway, I'll try to get them done ASAP and then let you know, far as I know I just need to add a couple of PoD's to each of them...thanks for sending me the copies of the SF4's ect...twas the first I'd seen of anything. One more thing, Mrs. Green also filed a late "highwater" claim (72-04087) for this same property and I was wondering if IT is also due or will IT be due at a later time??

Thanks, Jeanie

That would be me again, Vicky! Oh, joy! I wasn't aware that she had amended her claims although I think I know why she needed to. I'm sure it won't take too much to re-recommend them. As I recall, she has some agreements with two of her neighbors and needs to add their PoD's to her claim. I'm not sure if there are any other issues because I haven't seen any objections, amendments ,etc...

Subject: RE: 72-00020E & 72-02147A

On the Roberta Green matter, Watermasters are not asked for comments on adjudication claims and recommendations, only on transfers. She was not changing or adding a point of diversion as a "new use", she was merely correcting the claim to show how it had historically been used, but had been claimed incorrectly.

YOU have claims in the adjudication, so you have the option of filing an objection if you want to and feel the recommendations are impacting your water rights.

On the Van Kampen matter, we have the paperwork to complete the ownership change, but there are a couple of issues I'm looking for guidance on from our attorneys. Go ahead and deliver water to them in the meantime. They will get all of the White Valley Right (72-00029B) and probably a proportionate share of the other right (72-10044A). Mr. Van Kampen mentioned asking you to walk his place of use to see if the existing ditches could also irrigate the middle portion of his land, which was excluded from the recommended place of use. Rankin never objected and now the new owner is wondering if the place of use is wrong. That's probably what he needs from you. If he does decide to object, he would have your opinion to include. Hope this helps.

Jeanie, Roberta Green has filed for additional points of diversion to be added to these two rights. Why was the Watermaster NOT asked for comments on these filings as I normally am? Frankly, one of the two diversion points I oppose. Can/should I, as Watermaster, file an Objection? The objection period is Friday so I need an answer fast, please.

Also, are you sending me something on Van Kampen (bought part of the Rankin place)? He says he talked to you and you need some written input from me.
What?

Re: Recommendations

I met with Mrs. Green while in Challis last summer. We went over her Director's Report Recommendations and she told me that the Points of Diversion were incorrect. We drew a little map and she explained that she gets her Highwater (72-04087 – filed as a late claim) out of a diversion which she shares with several neighbors, represented by GPS tag A0002714 and located in the NWNWNE of Section 17. When the highwater has been cut off, she then uses two additional points of diversion through agreements she has with Mr. Piva for a diversion in the SWNWNE of Section 17 and represented by GPS tag #A0002713, and with Mr. Gammache for a diversion in the NENWSE of Section 17, represented by GPS tag # A0002716. I made my new Recommendations based on this information. She had also requested adding pods to 72-04024. It is for a well so I didn't add the surface water diversions to that right, just changed the Remarks a little.

Had some questions as to whether I should show the Piva and Gammache diversions on 72-00020E because it seemed Mrs. Green said these were mostly used for the Challis Creek Lake Right (72-02147A) **after** her decreed water had been shut off. I was also not sure if the diversion in the NWNWNE of Section 17 (tag # A0002714) should be included in the recommendation for 72-02147A. I made my recommendations to include them because it seemed she intended that by her amendments **and** it gives greater flexibility in water delivery...

STANDARD FORM 4

**MOTION TO FILE AMENDED
NOTICE OF CLAIM**

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase". You must use a **separate form for each** late or amended Notice of Claim.

By filing a *Motion to File Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

X I have read SRBA Administrative Order 1, Rules of Procedure (amended Sept. 30, 1996).

My name is: Roberta H. Green

My address is: P.O. Box 213, Challis, ID 83226

My phone number is: (208) 644-1967

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A Motion to File an Amended Notice of Claim may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires:

X I must amend my Notice of Claim to the use of water in the SRBA because:

As originally claimed and described, the right accurately reflects my prior decreed right, but when the total amount of water is low, I conserve water by sharing points of diversion with my neighbors. That way we can rotate, and each of us ends up getting better use of the water. This is the way we have always watered our property. IDWR told me in November of 1999 that in order to continue this practice, we should get our decree(s) changed so that it reflects that we use those alternate points of diversion when the water is low.

X I am providing legal and factual documentation to support my amended Notice of Claim. (You must describe these documents and attach a readable copy.)

1. IDWR Recommended Water Rights Acquired Under State Law.

I have attached:

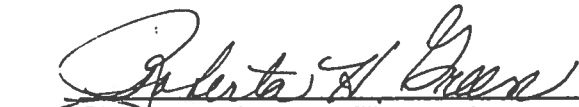

1. An amended Notice of Claim (available from IDWR).
2. IDWR Recommended Place of Use Map for 72-00020E and 72-02147A which has in red the two new points of diversion and my property outlined in white.

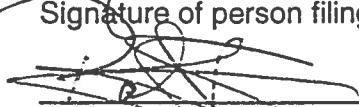

VERIFICATION (Must be completed)

Subject: Challis Creek right questions...

In answer to your questions:

72-00004D

I found no ownership change records from Don and Cori Henderson to Don Odom

72-00020E, 72-02147A

I found a letter I had sent to Mrs. Green last September telling her she needed to file a late objection in order for me to be able to make any changes to the point of diversion. I guess she never did...

72-00029B

I sent a letter to Mr. Rankin last September telling him he needed to file a transfer to reduce the place of use to 32.5 acres, which would match right 72-10044A. Apparently he has not done so. This right was originally recommended with 43 acres in the place of use. The 'R' record in this case is how it should look IF and WHEN a transfer is filed. We filed a Notice of Administrative Proceeding on 12-27-1999 with the court in hopes Mr. Rankin would contact us...

72-02104B

I found no ownership change records showing Jolley has sold this...

Hope this helps...Jeanie

RE: 72-02147A

Dear Roberta,

I did some checking on the Points of Diversion for this right, from Challis Creek Lakes, in my recommendation. I also reviewed the documents you provided regarding easements and agreements with Gammache and Dobbs. According to the Pipeline Agreement with Mr. Dobbs (now the Bob Piva property), it appears you have the right for delivery of 10 ½ inches of water from the pipeline.

The other Grant of Easement with the Gammaches, however, appears to be an easement allowing their pipeline to cross your property. I saw no mention of an agreement, which gave you the right to convey the 7 inches of water you talked about. Is there another agreement for that?

In order to make any changes to the Director's Report, an Objection must be filed with the SRBA Court. I have enclosed an (SF1) Standard Form 1, for this purpose. As the deadline for filing Objections in Basin 72 has already passed, a MOTION to file a LATE OBJECTION should be included. This can be in the form of a letter to the court, attached to your Objection, asking permission to file a late objection. It should mention the Water Right Number (72-02147A), explaining WHY it is late, and ASKING the court to accept your late objection. You may or may not wish to include any evidence to help persuade the court to accept your motion. Follow the instructions with the form and be sure to mail copies of everything to all those listed on page 4. (I have included some pre-addressed labels for your convenience.)

I am not an attorney and can't give you legal advice. I'm merely trying to give some direction as to what the court generally requires in these instances. You may wish to contact your attorney in this matter.

(As for right number 72-00032N, formerly Udy and now owned by Enzenauer, which you questioned me about; our records show there was an approved transfer in 1985 which moved the place of use for this 1910 water and allowed water to be pumped to the location above the Highline Canal.)

If you have any questions, feel free to contact me at the office or call the SRBA court at 736-3011.

Sincerely,

Jeanie Robertson

RE: 72-04087

Dear Roberta,

You had questioned whether there was a "High Water Right" for your property in Township 14N, Range 19E, Section 17 (the Home Place).

I found no claim in the adjudication filings but I did find this statutory claim (72-04087) in our water right files. It appears to be the usage you were referring to. In order for this type of water right or claim to be included in the adjudication, it was required to be "reclaimed" in the adjudication. Evidently this one was somehow overlooked.

It is not too late to file a claim, but because a Director's Report has already been filed for your area, the process becomes a little more complicated and involves the SRBA court. A Standard Form 4 (SF4), MOTION TO FILE A LATE CLAIM, must be filed with the court along with a completed claim form and check for \$50.00 (filing fee) made out to IDWR (Idaho Department of Water Resources). Note the mailing requirements for copies on page 6 of the SF4.

I have included the necessary forms. Assuming you agree with the other recommendations for this property (72-00020E and 72-02147A), you may wish to use some of the information from those recommendations in completing your claim form, such as location of the Point of Diversion and acres in the Place of Use. Please remember to sign the claim and have your signature notarized.

If I can be of further assistance, please feel free to give me a call at the office.

Sincerely,

72-10253, 72-10254

Dear Mrs. Green,

This letter is in response to the Notices of Error (NOEs) you recently filed with IDWR regarding the Director's proposed recommendations of the claims listed above. Your NOEs questioned the size of the Places of Use, and being able to use your storage rights at either location (Section 17 or 28).

I have re-drawn the areas on the GIS maps as we discussed. This allowed me to change my recommendations and include some additional acreage.

As for your storage rights, they were not claimed showing both properties so could not be recommended that way. After the Director's Report is issued, you can file a motion with the court (SF4 enclosed) to amend the claims and we may be able to change our recommendations after the amendments are filed. (If this will be a new use and hasn't been used this way before, you may be able to accomplish the same thing by filing a transfer.)

I have enclosed new GIS print-outs for your records and also copies of profile reports showing the changes. You should be receiving the actual Director's Reports around the first part of February, which will reflect these corrections.

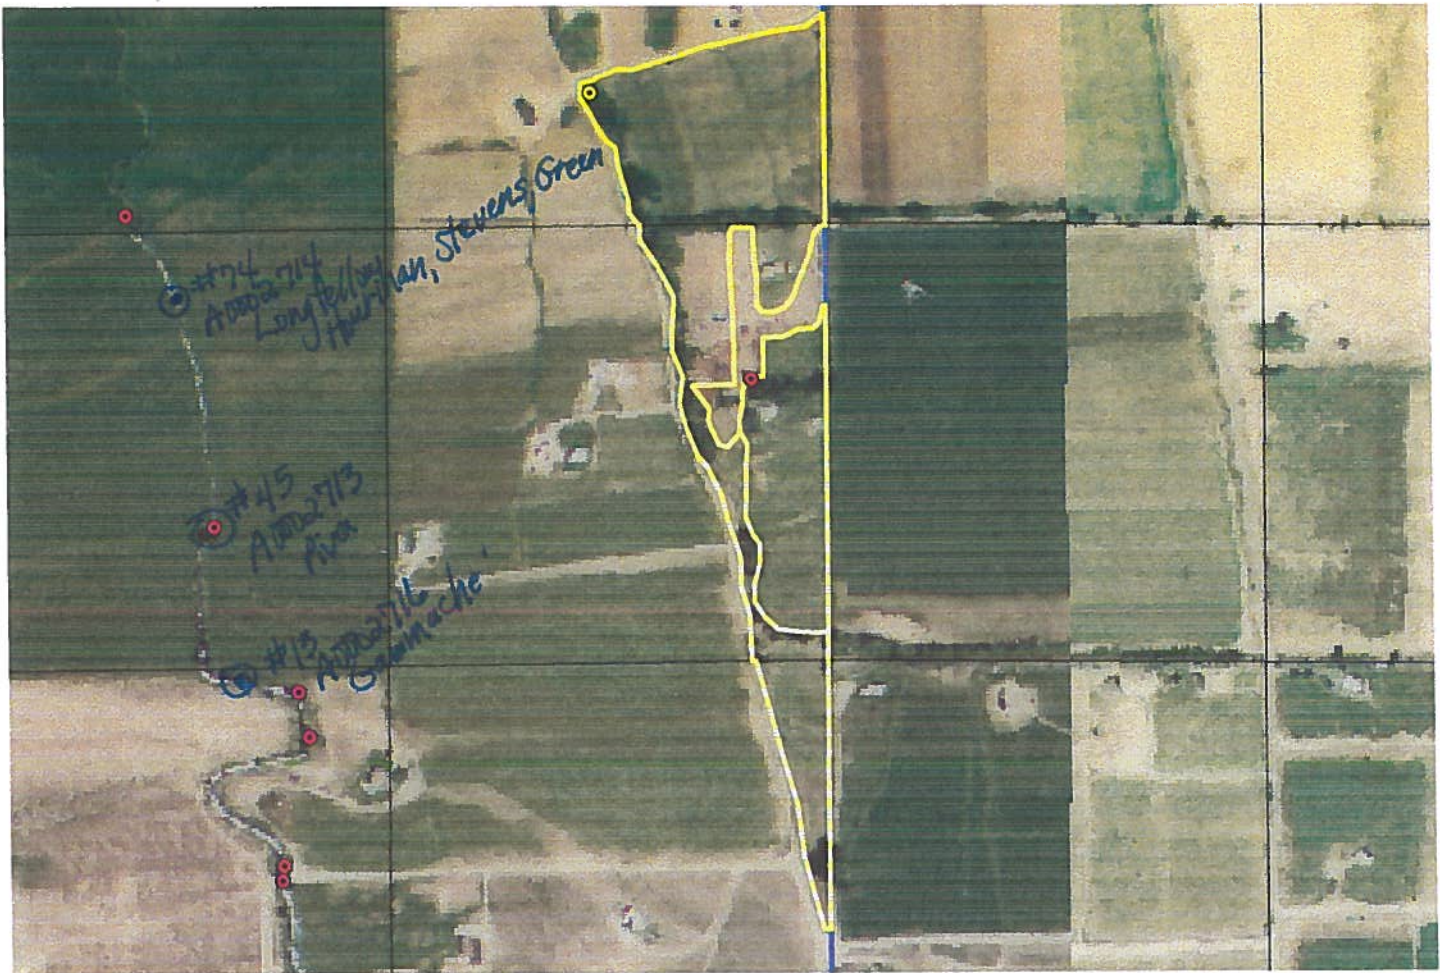

The two springs up at Mosquito Flat (72-10249 and 72-10252) are still being recommended for disallowal. If you disagree with any of our recommendations to the court, you may file an objection. The process will be explained with your Final Recommendation.

Sincerely,

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
