In Re SRBA	)	
	)	ORDER OF AMENDED PARTIAL DECREE
Case No. 39576	)	
	)	For Water Right 72-00020H

On November 17, 2000, a *Partial Decree* was issued for the above-captioned water right. On July 22, 2005, this Court received correspondence from the Idaho Department of Water Resources regarding an error in the place of use element of the *Partial Decree* and also a change in ownership. This matter was referred to the Special Master on July 28, 2005. The Special Master issued a *Special Master's Report and Recommendation* on September 8, 2005, recommending setting aside and amending the *Partial Decree*. This Court has reviewed the findings of fact and conclusions of law contained in the *Special Master's Report and Recommendation* and adopts them wholly as its own.

THEREFORE, IT IS ORDERED that the *Partial Decree* for water right 72-00020H be set aside and an *Amended Partial Decree* be decreed as set forth in the attached *Amended Partial Decree Pursuant to I.R.C.P. 54(b)*. The previously issued *Partial Decree* is replaced and superseded thereby.

DATED November 3, 2005.

Don,

This image should be helpful. The redirection point DOES NOT CHANGE. The Highline Canal was established to be a run-of-the-creek source and redirections have been tracked through history.

Good luck to all involved.

Hi Jeanie,
This tar baby just won't let you go. The SM raised a good question. If the POU should be in the NENE, S17, does the redirection POD also move to the NENE, S17? Looking at ArcView, does the redirection POD even apply is my question. (I used Info Search, Launch ArcView to get to the location and have the themes quickly.)

Thanks,

Hi Danni,

I'll admit I did screw-up on the 0.3 acres in the **NWNE** that should have been in the **NENE** and **I really hate it when that happens**, but I think the total pou is right. Bob's notes indicated that during his field exam he found only 0.71 acres being irrigated at the time, but mentioned an additional 1.4 acres from about three years previous that he would allow, and 0.9 acres as not irrigated of the three acres owned. He said there were several outbuildings, abandoned structures, and storage areas and he was ready to recommend 2.1 acres, all in the SESE of Section 8. When I did the GIS, I found part of it in Section 17 also and with the rounding and all, the total came out to 2.2 acres. The owners at the time said they agreed with the recommendation and they did get the full diversion rate of 0.06 cfs that they claimed. I guess it's up to us to fix this as a typo or something, huh? Let me know if you have any questions...Jeanie
