The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

COMMUNICATION DOCUMENTATION

Claim No.: A72-00020M
& A72-10350

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent: S. Sherman

Date: October 24, 1995

Contact Person(s): Bob Baker, Claimant

Nature of Contact: Mr. Baker called IDWR at approximately 2:15 p.m. asking about the Notice of Filing Director's Report (U.S. and Tribal Non-consumptive rights) which he said he never received.

Substance of Communication: He began conversation by informing me he had eight acres in Challis, was a Californian, and already paid for his water rights when he filed on the Challis property. Because his paperwork was in California, he didn't remember his water right numbers; said he'd call me back next week, and had me repeat my name. He said a lot of people up there were angry and confused; he mentioned twice that now they'll have to "buy back their water" from the Indians and the U.S.--"that's what happened in Montana...."

I told Mr. Baker I had no knowledge of that; it was unfortunate there were so many angry and confused people. At that point I suggested he might wish to call our AG's office and gave him the number.

After we hung up, I found his water right numbers; the address and telephone number he gave me are the same as on his two w/r claims.

2:51p.m. I called Mr. Baker in Challis and informed him he could file a motion with the court to file a late objection. He informed me he'd just finished talking with David Barber of the AG's office and understood everything now. He thanked me for calling him back, and we hung up.
