WARRANTY DEED

For Value Received CHARLES W. WUNSCH AND SHIRLEY M. WUNSCH, CO-TRUSTEES OF THE CHARLES W. AND SHIRLEY M. WUNSCH FAMILY TRUST DATED JUNE 30, 1995, the Grantors, do hereby grant, bargain, sell and convey unto MERYL PETHAN AND ALDEAN PETHAN, husband and wife, the Grantees, whose current address is 20176 San Miguel Avenue, Castor Valley, California 94577 the following described premises, in Custer County, Idaho, to-wit:

A parcel of land located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 7, Township 14 North, Range 19 East, Boise Meridian, Custer County, Idaho, more particularly described as follows:

Beginning at the NE corner of said SW $\frac{1}{4}$ NE $\frac{1}{4}$ run thence South 00°03'00" East along the Easterly boundary of said SW $\frac{1}{4}$ NE $\frac{1}{4}$ a distance of 1101.36 feet to a point on the centerline of Challis Creek Road; thence the following courses and distances along said centerline; North 72°41'07" West, 292.66 feet, 149.22 feet along a curve to the right having a chord of 148.84 bearing North 65°36'14" West, a delta of 14°09'46", a radius of 603.65; North 58°31'22" West, 36.59 feet; 186.20 feet along a curve to the left having a chord of 185.68 feet bearing North 65°58'40" West, a delta of 14°54'39", a radius of 715.49 feet; North 73°25'59" West, 431.65 feet; 270.94 feet along a curve to the right having a chord of 266.45 bearing North 55°19'20" West, a delta of 36°13'20", a radius of 428.57 feet; North 37°12'45" West, 14.95 feet to a point on the centerline of Challis Creek; thence the following courses and distances of said centerline; North 72°43'30" East, 245.12 feet; North 33°13'42" East, 76.35 feet; North 20°57'34" East, 58.40 feet; North 33°52'54" East, 103.10 feet; North 45°58'13" East, 100.78 feet; North 71°11'40" East, 170.99 feet; North 45°21'06" East, 130.17 feet; North 30°23'38" East, 79.15 feet to a point on the Northerly boundary of said SW $\frac{1}{4}$ NE $\frac{1}{4}$, thence North 88°57'03" East, along said boundary a distance of 535.53 feet to the POINT OF BEGINNING.

TOGETHER with an easement for an existing pipeline and headgate to be used for irrigation purposes benefiting the above lands. The burdened lands are those lands lying across the Custer County road to the South of the burdened lands owned by the Grantors. The easement shall be perpetual and shall run with the lands as necessary for the proper maintenance, repair and replacement of the pipeline as it runs from the canal or ditch way on the burdened lands to the lands of Grantee lying to the North of the easement.

RE: SRBA CLAIM A72-00024C AND A72-04231C
(A72-00032A)
WUNSCH/PETHAN

Dear Mr. and Mrs. Pethan:

Pursuant to the notification that you purchased a portion of the property to which the above referenced adjudication claims are appurtenant, the Department has split the original claims into parts E and F. Your portions have been renumbered to A72-00024F and A72-04231F. (I have also transferred the whole of A72-00032A, which was not a split right, into your name.) Please find enclosed a copy of the computer generated claims noting the changes.

Please review the records and if you have any corrections or questions, feel free to give me a call at the office.

Sincerely,

A handwritten signature in cursive script that reads 'Jeanie'.

1341 Fillmore - Suite 200
Twin Falls, ID 83301-3380

Dear Jim:

A local rancher has contacted me regarding his lease of a piece of property for the upcoming season to pasture his cattle. He informs me the applicable water rights are A72-00024C, A72-00032A and A72-04231C. I show these owned by Charles and Shirley Wunsch. Bill Knox (the lessee) informs me that a Merrill Pethan from California has purchased this land and .42 CFS of A72-00024A (Wunsch's retained .11 CFS); all of A72-00032A; and 1.26 CFS of A72-04231C (Wunsch's retained .31 CFS). Do you have anything on this?

Bill says Pethan is supposed to have transferred these rights already but if you cannot find anything I'll try and get his address from Bill and send him the necessary forms.

Let me know, please.

Sincerely,
Water District 72-C

• Comments:

Dear Mr. Brown:

I appreciate your input and efforts on our behalf.

Ms. Robertson made a concession and increased the amount of irrigable acres and I left some water on the table in the 1911 rights.

This is substantially how we purchased the land.

As we would eventually build on this property, it would reduce the irrigable acres, however, I still will have the water.

Ms. Robertson suggested my presence will no longer be required at the November 30th hearing.

RE: 72-00024F, 72-00032A, 72-04231F

Dear Mr. Pethan,

Enclosed are the revised reports, which recommend a total of 17 irrigated acres. My calculations have also been revised as follows:

17 acres X .07 cfs/ac = 1.19 cfs (59.5 inches) total

.42 cfs (21 inches) as claimed in 72-00024F. (1879 priority)

.06 cfs (3 inches) as claimed in 72-00032A. (1910 priority)

.71 cfs (35.5 inches) left for 72-04231F. (1911 priority)

These proposals will resolve the objections by Zollinger and BLM. Look them over carefully and if you agree with the new recommendations, sign on the space provided at the bottom of this letter and Fax a copy back to me. Sign the bottom of the Recommendations also and forward a FAXED copy to the BLM.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent

(I agree with the revised recommendations)

L. Jeanie
This is what you requested
would please make clear
copy of the 2nd right to
Pg. 2 & I will rid my
files of the old ones.
Actually, only the
1911 right would have to
be changed.

THANK

Merrill

RE: 72-00024F, 72-00032A, 72-04231F

Dear Mr. Pethan,

Enclosed are the revised reports, which recommend a total of 17 irrigated acres. My calculations have also been revised as follows:

17 acres X .07 cfs/ac = 1.19 cfs (59.5 inches) total

.42 cfs (21 inches) as claimed in 72-00024F. (1879 priority)

.06 cfs (3 inches) as claimed in 72-00032A. (1910 priority)

.71 cfs (35.5 inches) left for 72-04231F. (1911 priority)

These proposals will resolve the objections by Zollinger and BLM. Look them over carefully and if you agree with the new recommendations, sign on the space provided at the bottom of this letter and Fax a copy back to me. Sign the bottom of the Recommendations also and forward a FAXED copy to the BLM.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
(I agree with the revised recommendations)

RE: 72-00024F, 72-00032A, 72-04231F

Dear Mr. Pethan,

Enclosed are reports which show how I propose to recommend these rights, resolving both Zollinger's and the BLM Objections. (The parts with **strikeouts** show how the rights were originally recommended.)

Basically you now have 16 acres of irrigated land. A soil analysis of the area shows a need for .07 cfs (3.5 inches) per acre. (16 acres X .07 cfs/ac = 1.12 cfs total, or 56 inches)

I gave you the .42 cfs (21 inches) as claimed under 72-00024F. (1879 priority)

I gave you the .06 cfs (3 inches) as claimed under 72-00032A. (1910 priority)

This left .64 cfs (32 inches) for 72-04231F. (1911 priority)

If this acceptable to you, you can sign and initial the forms and we can forward (by FAX) copies of these to the BLM. This should resolve any need for you to appear at the hearings next week in Challis.

Please let me know if this is acceptable or if we need to make any corrections.

Sincerely,

A handwritten signature in blue ink that reads "Jeanie Robertson". The signature is fluid and cursive, with the first name "Jeanie" and last name "Robertson" clearly legible.

Okay, sounds good...Pethan said something about that but I don't think they'd reached any agreements yet, so maybe this will help them! I'll hold off...

Well, that depends on whether the claimants are going to agree to just deleting the BLM acres and not adding any others. That's why I wanted to wait until Fred worked something out with them. In the past you had mentioned that Pethan was discussing a land swap with the BLM, so we should find out what's going on with that before we do anything.

Let's hold off on making any changes to the R record until we hear from Fred.

Well, why don't I just craft another one getting rid of those acres and re-doing the diversion rates for all those rights? They could update tonight and you could show them to Fred tomorrow? I'd sure like to settle as many as possible before those hearings in Challis...

You are correct. That was the other problem the BLM had with our proposed settlement, we were gonna add BLM acres onto Zollinger's rights.

I don't think the BLM has objected to Zollinger's rights but they will probably want to based on our proposed SF5 because we have simply removed some of the acres from Pethan and given them to Zollinger...which they may not be aware of yet. I'm thinking they probably will want the acres removed from the NWNE on both sets of rights, which will likely result in reduced diversion rates. If this is the case, I can do some figuring...

Jeanie,

Yes, the BLM objected to Pethan's rights. Fred Price from the BLM said that our original proposed SF5 would only reduce the BLM recommended in the POU, not eliminate it, so he wouldn't sign off on it. I asked him to figure it out between him and the claimant how they would resolve this. I have not heard back from Fred yet. I just left another message with him asking him to let me know what's up. I'll let you know as soon as I hear.

Hi Sara,

I had done some preliminary work on these rights in the "R" records to resolve Zollinger's objection where I'd recommended part of her property mistakenly to Pethan...anyway, has the BLM also objected to these rights? I have no copies of Objections in the files and wondered what they were objecting to? Perhaps I can refigure things to please them also and we can do an SF5. Mr. Pethan in California wants to know what's going on and I'm not sure...Thanks, Jeanie

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

RE: 72-00024F, 72-04231F, 72-00032A

Dear Mr. And Mrs. Pethan,

It has come to our attention that the "Place of Use" in the recommendations of the above mentioned water rights were reported incorrectly in the Director's Report. Due to discrepancies in the survey maps with parcel sizes, which were provided during the ownership change process, part of the land purchased by your neighbor, Linda Zollinger, was recommended to you.

In order to stop the recommendations from going forward and being decreed in error, objections must be filed with the court. I have sent copies of STANDARD FORM 1, OBJECTON (SF1) to Ms. Zollinger. The deadline is quickly approaching, so I am also enclosing SF1's for your use, as Objections must also be filed on your rights in order to correct this error. Please follow the instructions with the forms (one for each right), sign and have notarized. In the interest of saving time, if you return the completed forms to my attention in the enclosed pre-addressed envelope, I will take care of forwarding copies to the other parties.

I have also enclosed a copy of the map I sent to Ms. Zollinger to help you "see" the problem.

If you have any questions, or I can be of further assistance, please contact me at the office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jeanie', written over a horizontal line.

RE: 72-00024F, 72-04231F, 72-00032A (PETHAN)

Dear Linda,

Jack Challis, the watermaster for Challis Creek, told me that you thought your high water right (72-04231E) was now taken care of and no longer recommended for disallowal. I see where you have filed OBJECTIONS on both of your rights to correct the legal description of the place of use. OBJECTIONS also need to be filed on the Pethan's three rights (their place of use is also wrong - part of your property recommended to them), before the problem can be resolved.

I believe I sent you forms to object to their rights, but as yet the objections don't seem to have been filed. The deadline is quickly approaching, so if you would like to fill out the SF1-Objection forms, sign and have notarized, and return them to my attention, I will send the required copies to the other parties. I am also contacting the Pethans to let them know of the problem.

If you have any questions, or I can be of further assistance, please contact me at the office.

Sincerely,

Jeanie Robertson

RE: 72-00024F, 72-04231F, 72-00032A (Pethan)

Dear Linda,

As a follow-up to the letter I sent you last month regarding the need to file Objections on the recommendations to your right numbers 72-00024E and 72-04231E, I realized that you will also need to file OBJECTIONS to the "Place of Use" on the Pethan's rights. The old survey map I used caused me to recommend part of the property you own to them. I have enclosed three more objection forms (SF1) for your use.

As before, you must file a separate objection to each right and follow the instructions for mailing on the last page.

If you have any questions, feel free to give me a call at the office or you can reach the court at (208) 736-3011.

Sincerely,

Jeanie Robertson

RE: 72-04231F

Dear Mr. and Mrs. Pethan,

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim listed above. Your NOE questioned the diversion rate recommended for this right.

The information provided to you at the time of purchase was a "claim" to a water right, not necessarily the water right itself. The department performed an investigation of these "claims" to make its recommendation of the actual right.

This right had the priority date of 10/10/1911 and was for high water. I performed a soil-analysis computer program of the soil types on your property and determined the types of soil require 1.536 cfs. to irrigate the 20.8 acres I recommended.

You also had two earlier priority date claims (72-00024F - 1879, and 72-00032A - 1910) for this property, claiming .42 cfs and .06 cfs respectively. Subtracting those two amounts from the total required left only 1.06 cfs for this right, which is what I recommended.

If you still disagree with the proposed IDWR recommendation to the court, you may file an objection with the court after you receive the final recommendation of your water right. They are due to be mailed next week and you should be receiving yours the first part of February. The objection process will be explained when you receive your final recommendation of your water right.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

The rate per acre is based on the actual rotation used. Individual grade and rotation requirement work sheets are prepared and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE / (field)	RATE PER ACRE / (chart)	TOTAL DIVERSION RATE

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
BB1	6.09	?	4	.09	= .36 CFS
WV1	11.24	?	14.8	.07	= 1.036 CFS
WC1	11.24	?	2	.07	= .14 CFS
					= 1.536 CFS

TOTAL ACRES 20.8

DECREED RATE =

CLAIMED DIVERSION RATE = 1.26

MEASURED DIVERSION RATE =
