Dear Mrs. Green,

This letter is in response to the Notices of Error (NOEs) you recently filed with IDWR regarding the Director's proposed recommendations of the claims listed above. Your NOEs questioned the size of the Places of Use, and being able to use your storage rights at either location (Section 17 or 28).

I have re-drawn the areas on the GIS maps as we discussed. This allowed me to change my recommendations and include some additional acreage.

As for your storage rights, they were not claimed showing both properties so could not be recommended that way. After the Director's Report is issued, you can file a motion with the court (SF4 enclosed) to amend the claims and we may be able to change our recommendations after the amendments are filed. (If this will be a new use and hasn't been used this way before, you may be able to accomplish the same thing by filing a transfer.)

I have enclosed new GIS print-outs for your records and also copies of profile reports showing the changes. You should be receiving the actual Director's Reports around the first part of February, which will reflect these corrections.

The two springs up at Mosquito Flat (72-10249 and 72-10252) are still being recommended for disallowal. If you disagree with any of our recommendations to the court, you may file an objection. The process will be explained with your Final Recommendation.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Dear Roberta,

I've enclosed a map I made showing your three different properties (excluding those up at Mosquito Flat). I hope it will help answer some questions we both have. I've also enclosed copies of your original claims showing how they were filed and the maps that were included. It appears there may be some problems which could explain why the watermaster thinks you should be getting "1879" rights out of the Highline.

A72-00013A, A72-04088, A72-10069 (Boys' Place)

I believe the Point of Diversion is wrong for the first two of these claims. They each show it as the Highline, but I believe they should have shown it in Section 3, from the ditch that comes right out of Challis Creek and eventually goes to Philps. (Even the maps show the Highline, but it is actually the HIGHWAY it is pointing to.) If you agree and the water does not come from the Highline for those two rights, perhaps amending the claim to correct this would be the best way to go. A72-00013A is the 1879 water, so that may explain the watermaster's records' confusion. There are affidavits from your sister, Laura Bishop, regarding the priority dates for A72-04088 and A72-10069.

A72-00020E, A72-02147A, A72-04024 (Home Place)

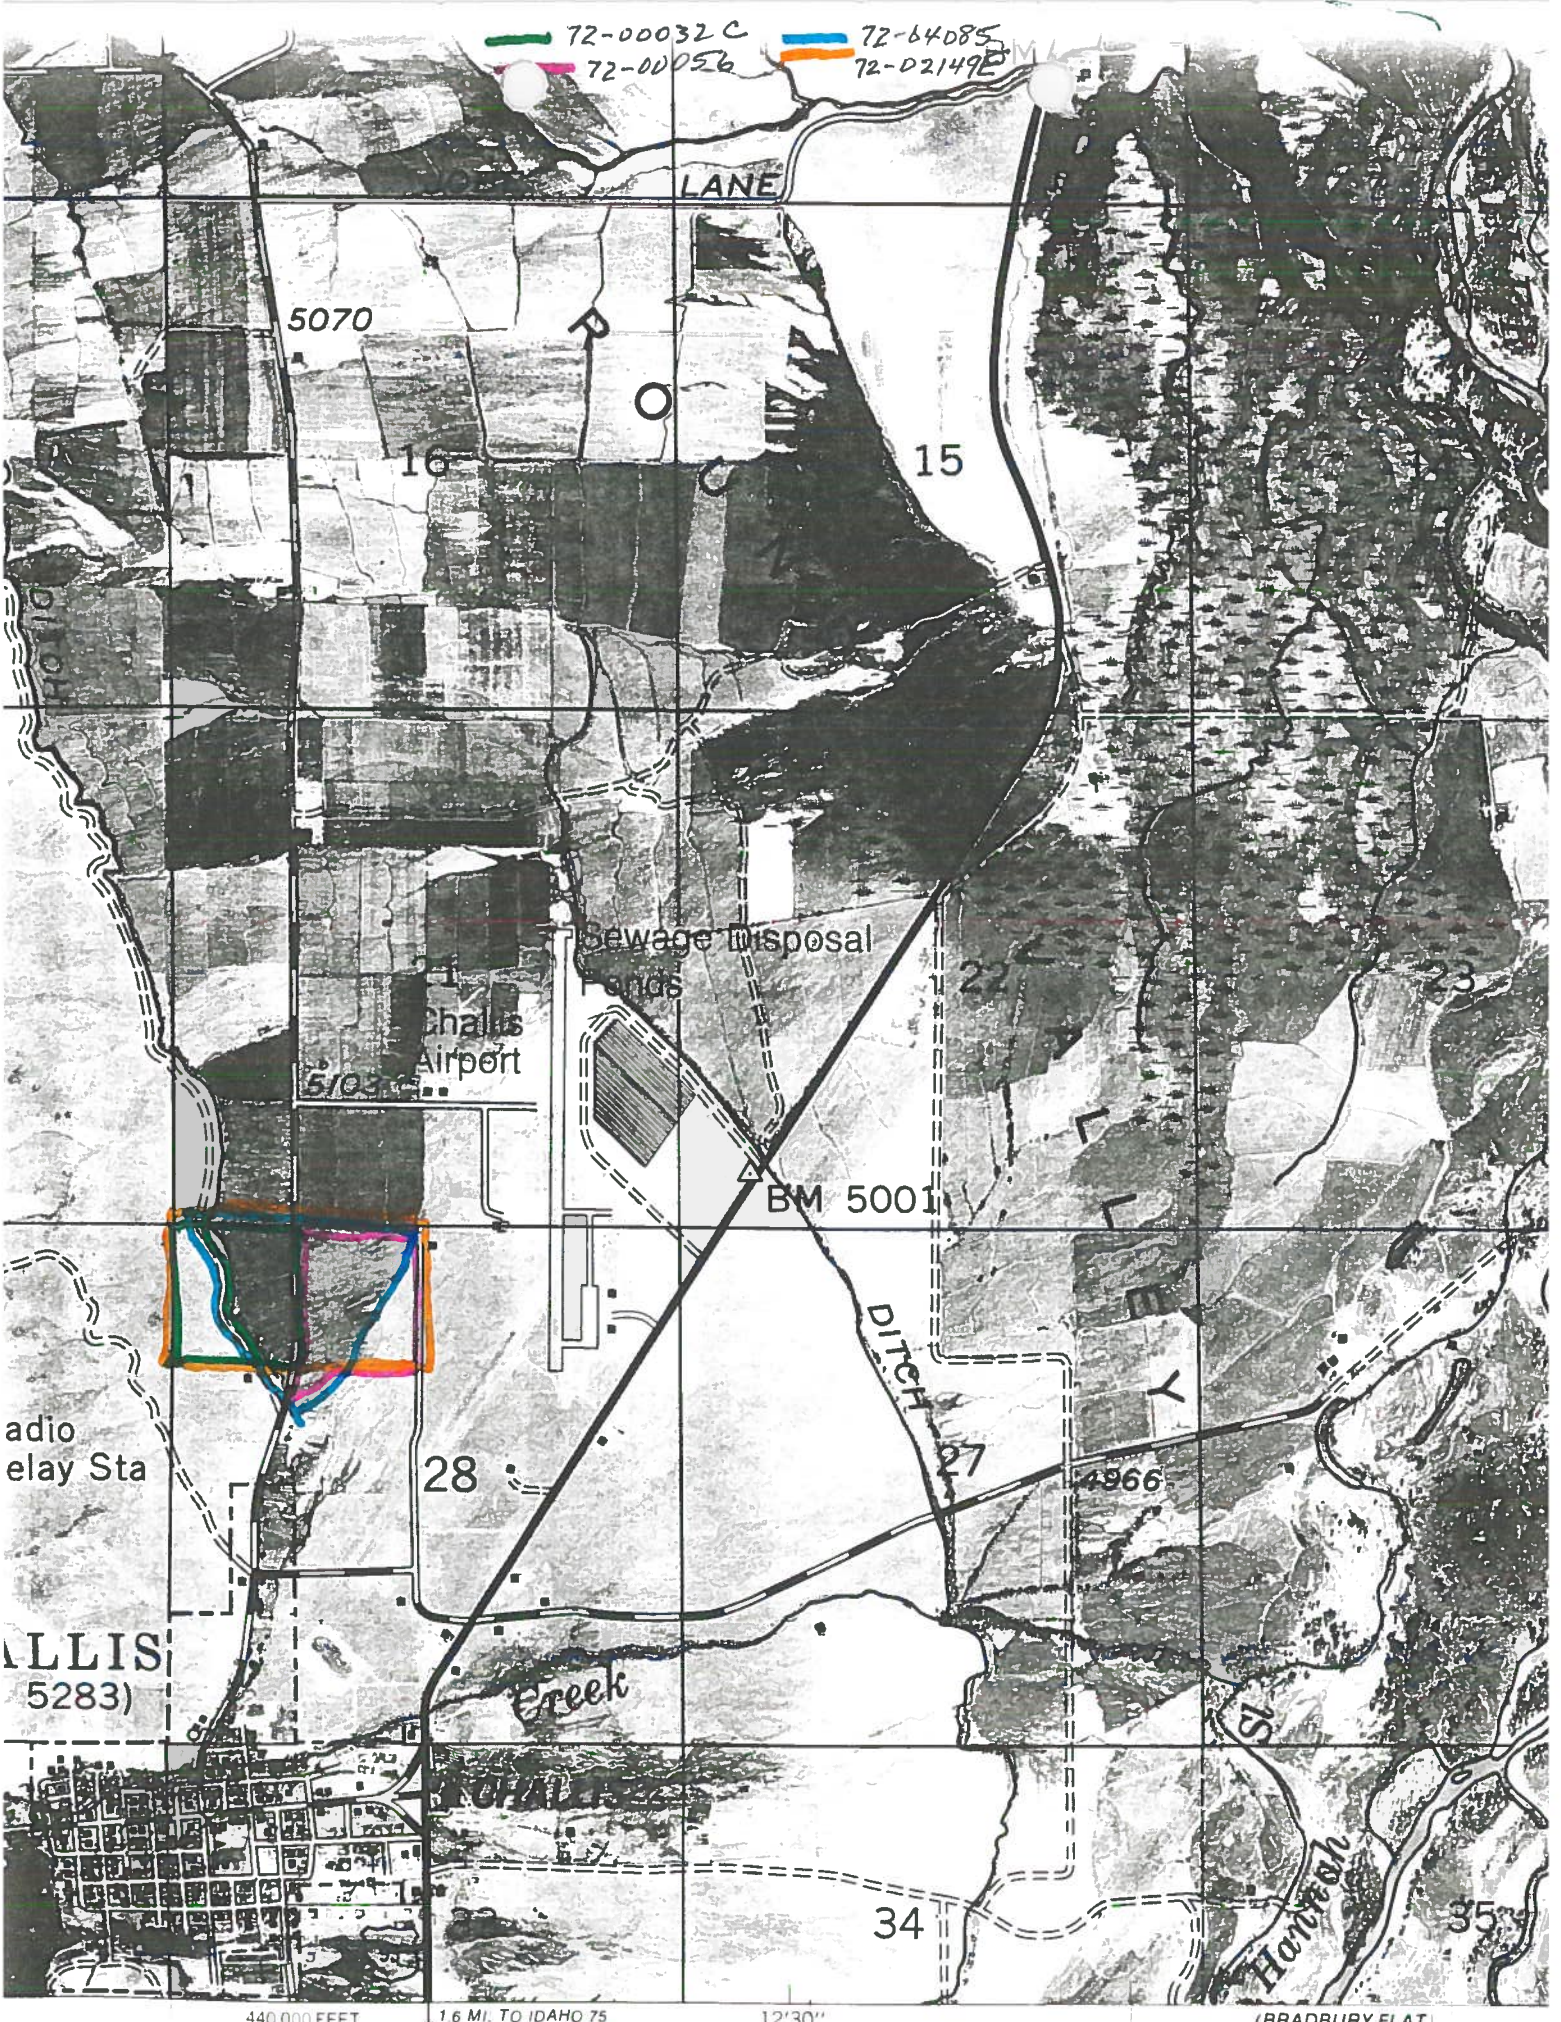

These seem to be okay and there is a letter from you stating when the well was first put to use for A72-04024.

A72-00032C, A72-00056, A72-02149E, A72-04085 (Gossi Place)

For A72-00056, the remarks say affidavits are available which show the water was used from Challis Creek instead of Garden Creek as the Decree states. I can't find any copies in our records so if you can find them in yours and would send me a copy, that would sure help. There is an affidavit from your sister, Laura Bishop, regarding the priority date for A72-04085.

If you can find any other affidavits or information which might be useful, I would appreciate copies for our files. Please look this information over when you have time (after the Holidays is fine) and let me know in the return envelope when I could call you and we could discuss any questions or concerns you may have. Merry Christmas!

Sincerely,
