RE: Change in ownership of SRBA Claims

Dear Mr. & Mrs. DuBois:

Our office recently received a letter from Roberta Green regarding water right records on the old Corrigan Place. Roberta indicated that you purchased the property this spring. Since the ownership records of the SRBA Claims must be kept up to date I have enclosed a form for your use to change the ownership record. As the form indicates you will either have to have Mr. Corrigan sign the ownership change form or you will have to attach a copy of your deed. Since Mr. Corrigan has several SRBA Claims filed for various properties you will need to identify which claims go with the land you have purchased. From Roberta's letter I think A72-00032E, A72-02149H and A72-02147B may be the claims involved but I am not certain.

If you have questions please feel free to contact our office.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
