Dear Bonnie and Don:

As I explained to Bonnie in our telephone conversation earlier today, I was in Twin Falls yesterday and among other things, spent time at the Idaho Department of Water Resources. I was advised by Mr. Kelly Christensen, Senior Water Resource Agent, that the water right you claimed to be yours, Water Right No. 72-00060, is, in fact, still in the names of and thus owned by Robert L. and Judy Lisonbee. I have enclosed a copy herewith.

Also enclosed is an IDWR Notice Of Change Of Water Right Ownership form. Again as I explained, this form needs to be completed (all instructions are on the reverse side) and submitted to IDWR to have this right put in your names. Once done this should clear up the matter and end any further confusion.

If you have any questions and/or I can be of further assistance, please let me know.

Sincerely,

J. R. Challis

The claim was originally for domestic (0.04 cfs) and 0.2 acres of irrigation. Per recommendation from field inspection, on April 30, 1997 the right was cut to 0.02 cfs for domestic only.

Mr. DG Rowles would like to petition the court to get the right back to the originally claimed rate. I will send him the court's address:

RE: Recommended Water Rights Acquired Under State Law
Snake River Basin Adjudication (SRBA)
Domestic and/or Stockwater Rights in Reporting Area 4, Basins 71 and 72

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your domestic and/or stockwater water right(s) in basins 71 or 72 (the Upper Salmon River Drainage Basin). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended domestic and stockwater right(s) in your area. Water rights for irrigation and other purposes in basins 71 and 72 will be recommended in a later process.

Note that you have 120 days in which to file any objection to our recommendation and to review the domestic and stockwater water rights of other claimants, including those of the United States. Information on the other water rights can be found at the Custer County courthouse in Challis, the Blaine County courthouse in Hailey, and all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the Court does not receive an objection from you about our recommendation, and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions that you have about your water right(s) or this adjudication process.

Sincerely,

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', written over a horizontal line.

Mr. Jack B. Furey
Attorney at Law
Challis, Idaho

Dear Jack:

I am returning your Affidavit for Change of Point of Diversion of Decreed Water Right for 25 inches of water with a May 15, 1880 priority from Garden Creek.

In checking over Certificate of Transferred Water Right No. 358, we find that said Certificate does not designate place of diversion to which the water was transferred. However, the application for the transfer, signed by W. W. Adamson, states that the water was transferred to the head of the pipe line which delivers water to the Village of Challis and stated that the diversion point was in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 32, Township 14 North, Range 19 East, B.M.

Transferred Right No. 561, which transferred 2.4 cubic feet per second with reservations, to the head of the pipe line, in said Certificate of Transfer, the point of diversion is stated as being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 32, Township 14 North, Range 19 East, B.M.

I do not know whether there is a mistake in giving the point of diversion (head of the pipe line); whether it should be in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32 or whether it is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32. It may be that the head of the pipe line was extended between the two intervals of time.

Transferred Right No. 358 states that the place of use to which the water was transferred is the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 33, Township 14 North, Range 19 East, B.M. We think that the legality of the point of diversion, however, being not mentioned in the Certificate of Transfer issued by this Department, is valid, as the intent of the applicant in the application clearly states that the point of diversion to which the water was to be transferred was at the head of the pipe line supplying water to the Village of Challis and was stated as being in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32. Therefore, we think that as far as the legal status of the transfer is concerned, the present point of diversion is now at the head of the pipe line.

In this case, providing the head of the pipe line has not been changed and the location of same has always been in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, and in case it wasn't necessary to make said 25 inches of water appurtenant to all the lands in the town site, but only to the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of said

Section 32 and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 33, that it would not be necessary to have you to make any further application in regard to this water right.

However, if you wish this 25 inches appurtenant to all the lands in the town site, including the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32 and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 33, it will be necessary for you to make Application for Transfer of Water Right on Form 20 which we are enclosing herewith, and provides for a change in place of use as well as a change of point of diversion. For reference, see Section 42-222 Idaho Code Annotated, as amended.

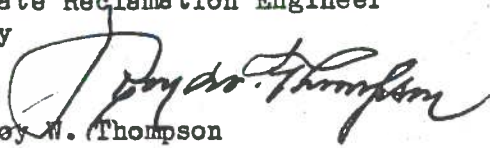

We regret that it becomes necessary to request you to change application forms after the work you have put in preparing the Affidavit. We are enclosing herewith, copies of Transfer No. 358 and Transfer No. 561 which may be of some help to you and which you may keep for your own files.

We also enclose a little sketch map showing the heading of the pipe line, with point of diversion located as given in Transfer No. 561.

With kindest regards, we are

Very truly yours,
