Re: SRBA Subcase No. 57-07153, Succor Creek District Improvement Co.

Dear Special Master Cushman:

I am submitting this Notice of Administrative Proceeding in lieu of an Amended Director's Report because there is some additional information regarding the acreage needed from the claimant before the license can be completed. As soon as this information is received, the license can be submitted to the administration for finalization. Once that is done, an SF5 can be completed to reflect that the permit has been licensed and the accurate acreage information. I am optimistic that this process can be completed within the next three months provided the claimant submits the requested information soon. There is a telephone status conference set in this matter November 6, 2000 at 1:30; at that time, an update can be provided to the court.

If you have any questions or concerns regarding this matter please call me.

Very Truly Yours,
