Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW

Adjudication Bureau Chief

RE: SNAKE RIVER BASIN ADJUDICATION CLAIM: 72-00123

Dear Sir or Madam:

Enclosed is a layout for the irrigation right listed above. You should have received a preliminary director's report from the State Office concerning this right and other irrigation and municipal rights.

Please review this layout and compare it against the preliminary director's report for this right. If you have any questions a department representative will be available to meet with you during the meeting scheduled for December 8.

Sincerely

Kelly K Christensen

Department of Water Resources
Suzanne Taylor

October 19, 1999

Ms. Betty Horn, CMC
Certified City Clerk - Treasurer
P. O. Box 587
Challis, ID 83226

Dear Ms. Horn:

As we discussed when we met on Friday (October 15th), there was some confusion with the delivery of the City's water rights this past irrigation season and perhaps in the prior year(s). I was in Twin Falls yesterday and among other things, spent time at the Idaho Department of Water Resources. I met with Mr. Kelly Christensen and Mr. Allen Merritt specifically on the City's situation to be sure the explanation I am about to provide is as accurate as possible and would insure elimination of any future confusion with regard to these deliveries.

As we agreed on Friday, the City has four (4) water rights, 72-00047, 72-00110B, 72-00111B and 72-00123. As it stands at the present time, water rights 72-00047 and 72-00123 can be diverted only at Diversion No. A0003075 going to the municipal water ponds and water rights 72-00110B and 72-00111B can be diverted only at Diversion No. A0002509 for supply to, among others, the City Golf Course.

Since you indicated to me you thought it was the City's desire to divert any of these rights from either of these diversions, I inquired about that possibility. While the City can request from IDWR the necessary forms to file a request for changes in the present diversion provisions, I was informed by Mr. Merritt that the probability of this being approved was "at best questionable". Mr. Merritt advised 72-00047 and 72-00123 were established solely as municipal use rights and 72-00110B and 72-00111B are solely irrigation rights for such utilization at the golf course.

If the City would still like to pursue the possibility of having these rights changed, please contact IDWR accordingly for the necessary forms. If I can help in any further way, please let me know.

Sincerely,

J. R. Challis, Watermaster
Water District 72-B, Garden Creek

Christensen, Kelly

Subject: ELEMENTS CONCERNING THE CITY OF CHALLIS RIGHTS
Entry Type: Meeting
Contact: JACK CHALLIS

Start: Mon 10/18/99 10:30 AM
End: Mon 10/18/99 10:30 AM
Duration: 0 hours

He wanted to know the relationships of the city rights. I explained that 72-00074 and 72-00123 were diverted from the same point of diversion. 00123 is for the irrigation of the cemetery only.

72-00110B and 72-00111B are irrigation rights from a different point of diversion. They are delivered through the Upper Bradburry ditch and are for the irrigation of the golf course only. The water is not available for city municipal use when it is not being used on the golf course.

Allen Merritt came in and the three of us discussed the possibilities of a transfer from irrigation to municipal use. We indicated that both at the same time does not fit within the parameters of these rights.

Yacommella rights discussion.

I explained the recommendation of the two systems that I examined. The pump system can deliver water to the ground south of the Garden Creek road under 72-00080B or to the ground north of the road under 72-10257. Both areas cannot be irrigated at the same time. The shared diversion system using the Upper Bradburry Ditch is valid for 10257 only. If the pump system is delivering water to the ground north of Garden Creek Road and west of the Upper Bradburry Ditch then only the difference between the diversion rate for the pump and the right total can be delivered through the Upper Bradburry Ditch.

To: kchrste@idwr.state.id.us
Subject: Challis Golf Course

Kelly, thanks for your E-mail reply.

I am assuming the water rights to which you refer as that covered by the split you indicated are 72-00110A & B and 72-00111A & B. Since the golf course is supplied by Diversion No. A0002509 and the City of Challis by Diversion No. A0003075 is it not then necessary to show two possible points of diversion for 72-00110B & 72-00111B? City personnel advise in times of "short supply" the City's needs have preference over the golf course. If that is true, they have to be able to divert at A0003075 as well, right?

THE CITY RIGHTS 72-00110B AND 72-00111B ARE IRRIGATION RIGHTS FOR THE GOLF COURSE. THEY ARE NOT MUNICIPAL RIGHTS. IF THE CITY WISHES TO CHANGE THE NATURE OF USE FROM IRRIGATION TO MUNICIPAL AND THE PLACE OF USE FROM THE GOLF COURSE TO WITHIN THE CITY LIMITS THEY NEED TO FILE A TRANSFER.

Could 72-00123 also be directed to the golf course? My copies of 72-00110B and 72-00111B indicate the point of diversion to be the "Upper Bradbury Ditch" which is Diversion No. A0002509. 72-00123 shows the same "legal" but no mention of the "Upper Bradbury Ditch" so I assume it is indicating A0003075, right?

72-00123 IS FOR THE CEMETARY AND NO WHERE ELSE. IT HAS THE SAME POINT OF DIVERSION AS THE MUNICIPAL RIGHT 72-00047.

Your clarification would be appreciated.

Jack

Subject: City of Challis

Kelly, "the longer I'm on this horse the more it bucks!" Frankly, now I am really lost!

It should be safe to say we have established 72-00110B & 72-00111B are the "golf course" irrigation rights. Ms. Betty Horn, Certified City Clerk - Treasurer, tells me one of the main reasons the City agreed to accept ownership and responsibility for the golf course was the water rights they would in turn receive (72-00110B & 72-00111B) could be used either at the golf course (Diversion No. A0002509) OR at their municipal water supply diversion approximately 25 feet downstream (A0003075). Am I understanding you correctly that this is NOT correct and, **as it stands**, these two rights can only be diverted at A0002509?

Am I also understanding you correctly in that you are saying 72-00047 & 72-00123 MUST BOTH divert at A0002509, as well (the only way from either of these two diversions I know to get these flows to the Cemetery)? I can tell you this is **NOT** how this has been done in years (if ever) and, if it were, the City would not have a City water supply. A0003075 goes via pipeline directly to the Water Treatment Facility! A0002509 diverts to an open ditch which also carries/delivers (among others) the golf course rights and then goes on to and past the Cemetery. If I am understanding you correctly, **as it stands**, the City does not have any right(s) that serves the municipal Water Treatment System (from Diversion No. A0003075), right?

Kelly, I have to be in Twin Falls Monday. Though I know you may have other commitments and/or for some other reason not be available, I will plan to stop by anyway when I get to town. If possible we can thus have the opportunity to meet and discuss this and anything else necessary.

Jack

P.S. - We will probably be heading your way before you read this so I'll just hope you have some time available. I would estimate being there around 10:30 or 11:00 A.M.

CLAIMANT'S NAME: City of Challis
COUNTY: Custer Betty HornDATE: 3-8-94EMPLOYEE: Carter Fritschle A

Ms. Horn explained that the cemetery used to receive water directly from Garden Creek. However, the cemetery is now irrigated with the city's system, which still has Garden Creek as a source. She wants to turn this over to the cemetery board and have them determine when the change in the distribution of water to the cemetery occurred. She also said the P.O.D. for this right should be the same as for the city's rights. Therefore, it will probably be at least another week or two before they can get the info back to us.

CLAIMANT'S NAME: City of Challis DATE: 3-1-1994COUNTY: CusterEMPLOYEE: S.W. Keen

The Mayor of Challis, John ^{WALKER}, called today in response to my letter requesting evidence of the date of change of the point of diversion for A72-00123. He said that as far as anyone knows, the water for the cemetery has always come through the city mains. He does not think the P/D was ever changed.

I suggested that he respond to my letter with a letter or affidavit for the file. He said he would.

RE: Snake River Basin Adjudication (SRBA)
Custer County -- A72-00123

Dear Claimant:

IDWR has some indication that there may have been a change in point of diversion for water right A72-00123, which you claimed in the SRBA. Before IDWR may recommend your claim, you must provide IDWR with evidence that there has been no change, or you must provide IDWR with the date the change was made and some evidence tending to support that date.

I have enclosed an information sheet describing the types of evidence that can be submitted to show the date of the change. For your reference, I have also enclosed a printout of the claim.

Your response must be received by this office by March 11, 1994. If IDWR receives no response, your claim to water will not be recommended to be decreed.

If you have any questions, please contact me at 327-7934 in Boise.

Sincerely,

Shelley Walter Keen
Senior Water Resource Agent

C. FIELD EXAM REQUIRED?

DUE TO FOD DISCREPANCY?	(Y/N)	DATABASE	FIELD EXAMINER
DUE TO SOURCE DISCREPANCY? <td>(Y/N)</td> <td></td> <td></td>	(Y/N)		

MARKS:

- The decree, John A. Adams, et al. v. R.B. Vandewort, et al. (72-8) indicates no point of diversion.

- 9/7/1984 memo prepared by John Adams and filed in the decree file indicates that he visited the diversion at that time but it does not give the location.

- On the map included with the Beneficial Use Field Report for ~~72-07117~~ 72-07117, the F/D for this right is marked at NW1/4NW, S32, T14N, R19E. Exam note = 11/13/1984

- Kelly Christensen of FODR told me he thinks that long ago the F/D for this right was down to Jonathan Charles. He thinks it was moved long ago, but he has no proof. Kelly also said this right is delivered through the city water delivery system.

REVIEWED BY:

DATE:

Because the field exam for 72-07117 shows the P/O at the claimed location in 1984 which is prior to SRBA commencement but not prior to Nov. 19, 1982, additional evidence of the date of change should be requested from the claimant. (see CIM p. 60)

-1956 U.S.G.S. Orthophoto Quad shows the settling ponds into which the diversion runs the water.

C. FIELD EXAM REQUIRED?

DUE TO POU DISCREPANCY? (Y/N)

DATABASE Y FIELD EXAMINER

POU COUNTY: CUSTER

PRESUMPTION FLAG:

REMARKS:

All of the Challis Cemetery plus 2.32 acres. U.S.G.S. O.Q. "Challis SW, Idaho" (T75) puts the cemetery entirely within the claimed 40-acre tract. The 7.0 acre claim appears to be based on the survey of 7 inches of water. Also, on the O.Q. the area outlined as the cemetery appears to be about 7 acres.

RECOMMENDATIONS:

TOTAL ACRES: 5.0

REVIEWED BY: S.W. Kern

DATE: 2-22-94

- Kelly Christensen copied the BLM aerial photo of Challis at 170% enlargement to get an image of this cemetery. I calculated the scale of the enlarged image to be $\frac{1}{4800}$, or 1" = 400'. Using the planimeter, I got 5.33 acres for the irrigated cemetery. Subtracting waterways yields about 5 acres of irrigated land.

REMARKS:

IDWR standard for irrigation in this location is 4-15 to 10-15

This right falls under the category for which application Processing Memo # 17 was written. It allows up to 0.03 cfs/acre for average up to 5 acres.

$0.14 \text{ cfs} \div 5 \text{ acres} = 0.028 \text{ cfs/acre}$.
