The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

System description based upon diversion points to P/U.

Three P/Ds from Garden Creek were found.
(see map for numbering system) All three ditches supply water for the Shannon Claims with Garden Cr. as a source (A72-00124, A72-10297, & A72-04058)

Each Diversion also supplies water to another user or group of users.

P/D # 1 also supplies water to Bob Andrews
(claim not filed as of 6-22-93)

P/D # 2 supplies water to the following users in order of use:

Hurless - A72-00125C

King - A72-00125B

Armbruster - A72-10017

A72-04061A

Wood - A72-00126A

A72-04061B

P/D # 3 is the original source for waste water claimed & previously licensed for:

Armbruster A72-07041A

Wood A72-07041B

The system from P/D #3 that generated the waste water for A72-07041A & B is now being converted to sprinkler irrigation. **MICROFILMED**
waste water no longer available. **NOV 1 1994**
claim is being recommended as 5 years of non-use has

6-22-93
KKC Pg 2/3

not occurred. the ditch systems has the capacity to carry the combined total of each right, therefore, no capacity limitation is required. Some wastewater may be available from P/D #2 (end of ditch).

System Analysis for the Shannon Prop only:

Garden Cr. Claims A72-00124, A72-10297, & A72-04058.

John Gulch Claim A72-11763

As of commencement, all of the P/U covered by P/D #1 was under flood irrigation and the analysis for this ground was based upon flood irr. The ground east of the farmstead is currently being converted to gravity pressure, sprinkler irr with plans to add additional ground in the future to Gravity sprinkler. Spring water originating on the property west of the farmstead is also used for irrigation but was not claimed.

P/D #2 delivers water to a majority of the P/U South of Garden Creek. Approx 17 acres (see map) have historically been sprinkler irrigated (originally via a portable pump & now by gravity pressure) and has been recognized as such in the dil rate analysis. The balance has historically been flood irrigated.

The ground on the east side of the P/U & south of Armbruster/Wood is now irrigated via gravity flood from this P/D but does not cover a lot of ground. (Area not determined) Some of this water would be available to Wood/Armbruster as wastewater for their use.

MICROFILMED

NOV 8 1994

P/D #3 irrigates the ground furthest south and the pump system for sprinkler iri originated from this ditch. the end of this ditch has been converted to a pipeline (see map) in 1992 and the majority of the Ground (the 18 Acres in the NE SW Sec 31 is now sprinkler irrigated (gravity pressure).

Where the ditch crosses John Gulch is also the P/D for A72-11763. That system is that the ditch merely catches any water originating from John Gulch & carries the water east. Making the P/U for John Gulch water that Ground east of that point & South of Garden Creek. The Gulch ~~is~~ has several small seeps that generate water and reaches the ditch. As the ditch has the capacity to carry greater rate than claimed, the claimed rate is the limiting factor. Mike Shanna stated that the seeps go down by the end of the season.

Analysis of Unrecorded transfer & Preliminary Recommendations

Based upon warranty deed information Watson Perry transferred more 1910 decreed water (72-00125 & 72-00126) than was originally decreed. The recording dates are as follows.

County recording date

10-14-89 Perry to Robinson for .20 CFS (deed 127800)

now Armbruster A72-10017 Recommended at .10 CFS

Wood A72-00126 A " " .10 CFS

7-17-73 Perry to McKissie for .30 CFS
