RE: Change in Notice of Appearance of Counsel on the Snake River Basin Adjudication Claims for Owen Ranches, Pioneer Irrigation District, Cyprus Thompson Creek Mining Company, Conversion Industries U.S.A., Inc. and Settlers Irrigation District

Dear Scott:

The five computer reports enclosed confirm the change in firm and address you requested in your letter dated February 13, 1992. By comparing these reports to the list you supplied with your letter, you will see not all of the water right claims listed in your attachments were changed. Those claim records not changed are filed by persons other than your client(s).

The possibility of questions I raised in our telephone conversation last week were resolved for my part. If you have any questions or need some points clarified, please feel free to contact me.

Thank you for supplying the claim lists in an orderly fashion.

Sincerely,

Donald V. Shaff

Dear Mr. Campbell,

This letter is in response to the Notice(s) of Error (NOE) you recently filed with IDWR regarding the Director's preliminary recommendation of the claim(s) listed above.

Your NOE indicates the preliminary recommendations are incorrect but fails to point out the specific errors made in each right you addressed. Therefore, I am unable to respond to your NOE reply with any corrections or revisions due to the vague generality of the errors described on such a variety of claims.

Since it appears you are objecting to the right being recommended, your complaints may be better addressed in the Objection phase of the process. If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Clelland', written over a horizontal line.

Re: Resumption of Use of Water

Dear ~~Mr. Saxton:~~ *G/Sax*

This letter is to inform the Department that Cyprus Thompson Creek has resumed the use of water for Water Right Nos. 72-0133, 72-0135, 72-0136, and 72-0137. Water was used during the 1992 season for irrigation of agriculture ground.

Sprinkler systems have been set up for Water Right Nos. 72-0136 and 72-0135. The points of diversions for these two water rights were changed but the changes were reflected in the adjudication forms. The remaining two rights are still flood irrigation, with the points of diversion remaining the same.

Our water right expert has informed us that the resumption date for the use of the water is April 1, 1993. He also stated that we were to fill out a required form reporting the resumption of use and submit it to the Department. If this letter does not suffice for the notification, could you please forward me the correct Department form.

If you need any further information, please don't hesitate to contact me. Thank you for your action on this matter.

Sincerely,

Bert Doughty
Supervisor, Environmental Affairs
