DIRECTIONS TO PROPERTY / NOTES:

field exam conducted prior to transfer ~~apparent~~. Transfer was filed because of the irrigation practices of ~~found~~. This night was originally investigated as an system from Morgan Co (72-00151 & 72-00152) and an system from the Salmon River 72-07055. See A72-00151 for photo and system analysis. The transfer was filed to change the P/D for a portion of the Morgan Creek water to the pumping system from the Salmon River, the pump system was enlarged at the beginning of the 1993 season to include ground previously irrigated from Morgan Creek only. This split is based upon that transfer and the only change made to the transfer data was to correct the P/D and to update the remarks to add standard the P/D change is considered to be a correction of the deeded legal description no one I talked to could remember the P/D being in a different location and the physical characteristics of the ground support that the P/D hasn't been changed Flag C and CFS
