Claims Number: A72-00176C and -00176F

Dear Mr. Loynd:

I am getting ready to do the final data entry on the above claims for our preliminary Director's Report, and find that we still do not have a Change of Ownership filed for you. Without official notice, and documentation in file, I am unable to change our records to reflect that you are current owner.

Consequently, all information concerning the above claims will be sent to William Cahill (00176C) and C.W. Investment (00176F), and ultimately, the water rights would be decreed in their names.

I assume that you got my earlier communication, but if not, if we misplaced your reply, or if you are in need of another Change of Ownership form, please let me know. I was hoping to get back up to the East Fork, but our schedule just didn't permit it. If you have any questions, please call.

Sincerely,

Lots 5 and 6, Block 1, East Fork Subdivision

Dear Lavon,

Thank you for the information and assistance you provided when Kelly and I were in your area last Wednesday. I have done some research here at the office, and can find no indication that we were notified of your purchase of lots 5 and 6; therefore, please find enclosed two Change of Ownership Notices. Instructions for completing the forms, and the documents required for proof of ownership, are included. As soon as I receive your reply, I can update our records to reflect that you are current owner, and insure that the two claims are decreed in your name. I am enclosing computer print outs of the claims, for your review.

Also, I am sending you a map of IDWR Administrative Basins and the Regional Offices that serve them, under separate cover. If I can be of any further assistance, please let me know. I anticipate being back on the East Fork sometime toward the end of September.

Sincerely,

Dear Mr. Worstell:

We do not have an existing well on our property.

At present we are not using water from Road Creek but wish to preserve our future rights to do so. The land is presently used as pasture. We are enclosing the "Notice of Claim" (Black form) per your direction completed to the best of our ability. You have in your possession our only copy of the filed maps on the property and to some extent we were unable to accurately complete the form. Please insert the appropriate information which we have omitted. We interpret the instructions to include our check for \$50.00 plus \$1.00 per acre x 10 (size of parcel) total \$60.00. I found some of the instructions confusing and perhaps ambiguous so a possibility exists that we have not complied properly. If so, please advise.

We very much appreciate your assistance, without which, we would have been hopelessly lost.

Very truly yours,

William C. Cahill

Dear Mr. Cahill;

I have received the copy of the East Fork Subdivision plot (Custer Co., Idaho) with your 10 acre property marked on Page 3.

I am sending you two claim forms & instructions so that you can submit 1 or more claims for any water that is being used on this property. If you have a domestic well or irrigate up to 1/2 acre from a stream or a spring, use Form 42-1409 (2) b -(with green printing). The fee for this type of claim is \$25. If you use water from Road Creek or the East Fork of the Salmon River to irrigate more than 1/2 acre of your property, use Form 42-1409 (2) a (with black printing). The fee for this type of claim is \$50 plus a variable fee of \$1 per acre of land irrigated.

You must submit any claims you wish to make before Jan. 12, 1990 to avoid a penalty fee of \$50 for each claim that is postmarked after Jan. 12. If you are pressed for time, fill out the form(s) to the best of your knowledge and submit the claim(s) with a check that covers the fees that you feel are correct. If we find corrections or additions are needed, we will return the claim and the check to you with a form letter requesting more information on specific items. You will be given 30 days to comply with this request without being subject to the penalty fee.

Please contact me if I can be of further help.

Dear Mr. Cahill;

I have received the copy of the East Fork Subdivision plot (Custer Co., Idaho) with your 10 acre property marked on Page 3.

I am sending you two claim forms & instructions so that you can submit 1 or more claims for any water that is being used on this property. If you have a domestic well or irrigate up to 1/2 acre from a stream or a spring, use Form 42-1409 (2) b -(with green printing). The fee for this type of claim is \$25. If you use water from Road Creek or the East Fork of the Salmon River to irrigate more than 1/2 acre of your property, use Form 42-1409 (2) a (with black printing). The fee for this type of claim is \$50 plus a variable fee of \$1 per acre of land irrigated.

You must submit any claims you wish to make before Jan. 12, 1990 to avoid a penalty fee of \$50 for each claim that is postmarked after Jan. 12. If you are pressed for time, fill out the form(s) to the best of your knowledge and submit the claim(s) with a check that covers the fees that you feel are correct. If we find corrections or additions are needed, we will return the claim and the check to you with a form letter requesting more information on specific items. You will be given 30 days to comply with this request without being subject to the penalty fee.

Please contact me if I can be of further help.

RE: Snake River Basin Adjudication (SRBA)
Claim Numbers: A72-00176C and A72-00176F

Dear Mr. Loynd:

I had meant to get this out to you in a more timely manner, but have been very busy since our meeting with claimants in Challis. Your Ownership Change form reached our office too late to update our records, therefore, all the information regarding our proposed recommendations for the above referenced claims went to the previous owners of record.

Enclosed please find copies of the proposed recommendations for your claims, and also a GIS computer image of the place of use for both lots. Please review the recommendations, and use our Notice of Error reply form if you disagree with any element of your claim as it now appears. Don't hesitate to call me, if you have any questions. Hope you are in the midst of a happy Holiday.

Sincerely,

Vikie Hancock

DECREE

MEMORANDUM

TO: Decree File No. 72-G -- James Bradshaw, et al., vs. Jacob Leuzinger, et al.
FROM: Roberta Garrett
THROUGH: Dave Tuthill *DT*
DATE: February 19, 1980
SUBJECT: Review of Fridolin Leuzinger's Decreed Rights on East Fork Salmon River

In the decree of 10-31-1921, James Bradshaw, et al., vs. Jacob Leuzinger and Fridolin Leuzinger, Fridolin Leuzinger was decreed 20 inches of the waters of Road Creek (4-1-1874) and 520 inches of East Fork Salmon River (4-1-1910) for lands identified in

T. 10 N., R. 18 E.

Section 13: NE4NW4, S2NW4, N2SW4, SW4SW4

24: NW4NE4, N2NW4

In the decree of 7-26-1933, Raymond Gossi, et al., vs. Phillip Gossi, Fridolin Leuzinger was decreed an additional 120 inches of the waters of East Fork Salmon River (5-1-1880) for lands not listed in the decree of 10-31-1921.

T. 10 N., R. 18 E.

Section 24: S2NW4, NE4SW4

The decree of 2-14-1938, Rosa A. Gossi, et al., vs. Paul Giampedraglia, et al. decreed rights on the East Fork Salmon River and named tributaries. Fridolin Leuzinger and his lands in the two prior decrees on East Fork Salmon River were enjoined in this decree:

T. 10 N., R. 18 E.

Section 13: NE4NW4 (11.36 ac.), S2NW4, N2SW4, SW4SW4

24: NW4, NW4NE4, NE4SW4

This decree supercedes all rights on the East Fork Salmon River leaving in effect all rights on Road Creek aka Marsh Creek in the decree of 10-31-1921 as this creek was not a named tributary in the decree.

MEMORANDUM

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

NOTES:

Although correspondence to & from former agent Frank Hitchcock produced no indication from the prior owner that he actually irrigated the property, indications are that this parcel was irrigated at the same time as other lots uphilled from it in the valley by Mas Bakke. There is no conclusive evidence in the form of pictures or narrative that this property was left dry for 5 consecutive years. Based on the current conditions of the pasture, I find no evidence, for instance,

Lot 5 Block 1 East Fork Subdivision.

The location of this lot was determined in the field by the presence of an electric fence stretched across the eastern boundary of lot 5, separating lots 4 and 5. The boundary between lots 5 and 6 was approximated by the equal size and shape of lots 2 through 5 in this subdivision.

Lot five is being actively irrigated for pasture by the owner of Lots 5 and 6, Lavon Loynd, who uses it to pasture his horses. He is also irrigating lot 6 and lots 2 through 4 from the point of diversion that is common for lots 2 through 6, and which is located on the south side of Road Creek, close to the boundary of lots 1 and 2. A ditch runs from the point of diversion south along the uppermost boundary of lot 2 and swings west along the hill to the south side of the valley. This ditch conveys water to the top of lot 5, where it is conveyed north along the boundary, and floods down to water lots 5 and 6. There were various canvas dams and small earthen dikes evident at the time of my visit.

Lot 5 consists of ten acres which encompasses the valley floor and extends up the side hills on either side of the valley. All but the area on the valley floor is impossible to irrigate from this source, and it is similar to the other lots in this part of the subdivision in that respect. The owner of Lot 5 lives in a white manufactured home on the hill to the north of the dirt road, overlooking the valley portion of the property which is Lots 5 and 6.

Mr Loynd also stated that there were various springs that surfaced in his pasture in both lot 5 and lot 6. He stated that he was interested in the possibility of constructing ponds for fish propagation in the future.

See claim numbers A72-00176A and A72-00176E for photos of the point of diversion and valley.

From: Vikie Hancock

[illegible]

In regard to a question of when the diversion used by Lots 2-6, Block 1, East Fork Subdivision was moved downstream on Road Creek from the original point of diversion NE NE NE Section 24 to a point in the NE NW NE section 24, I called Betty Baker who had accompanied Frank Hitchcock when he measured the diversion in 1993.

Mrs. Baker was aware of the original point of diversion that Kelly and I found in the trees, on BLM ground, several hundred feet upstream of Lot 1. She said that that diversion was used by Leuzinger, but was abandoned when Kimball and Comstock owned all the land, and remembered that the irrigator for them, Walt Mason, had created the new diversion works downstream. The new diversion that Mason put in is the one that she used in 1989 when she began irrigating the lots for pasture, and the one that Frank measured and photographed in 1993 and 1995. She was not sure what year the new diversion works were created.

Going on the information from Mrs. Baker that owners prior to Ollit (original AJ claimant for Lot 1 in 1989) moved the point of diversion, I called the Custer County courthouse. According to records there, the East Fork Subdivision was created in 1983. Ollit was listed as owner of lot 1 in 1985. The deed conveying the property to Ollit was not in the system, so it was determined that it was conveyed to him prior to 1985, and thus prior to commencement of the adjudication. Therefore, it can be concluded that the diversion works were moved prior to 1987, and prior to the adjudication.

I also asked Mrs. Baker if she thought at the time of the 1993 field exam that she was irrigating Ollit's property (as stated in her letter to him dated 1989). She said that the diversion was above the bottom boundary of Ollit's lot, so that she was irrigating the lower part of it. This would clear up a discrepancy regarding where the diversion works were actually located as placed on a map, and where Lot 1 was actually located in the field. I believe that agent Hitchcock assumed, as I did, that Mrs. Baker was referring to the *upper* boundary of Ollit's property when she wrote that the point of diversion was "150 feet above his lot boundary". From my phone conversation with her today, I realize that she was referring to the *lower* boundary line of lot 1, which is relatively close to the physical location of the current point of diversion.
