COMES NOW the claimant in the above subcase and under I.R.C.P. 16 and  
I.R.E. 706 moves the Court to enter an order which provides for the following:

1. The identification and appointment of any and all expert witnesses the Court may utilize in this subcase, including, but not limited to, any person employed by or associated with the Idaho Department of Water Resources;
2. The specification in writing of what the witnesses' duties shall be; and
3. Consistent with I.R.E. 701 through I.R.E. 705, the entry of an order requiring any expert witnesses so appointed to file and serve on the claimant by **5:00 p.m. on May 15, 1996**, a written report which states all opinions, conclusions, and findings of the expert in regard to his or her duties in this subcase and the legal, factual, technical, or other bases therefore. Expert testimony of the Court's expert shall be limited to the findings, opinions, conclusions and bases therefore, as disclosed in the report.

The grounds for this motion are as follows:

The Idaho Department of Water Resources filed a Director's Report recommending what it deemed to be the nature and extent of the water right claimed in this subcase. The claimant objected to the Director's recommendations and is the only party to this subcase. As a party to this subcase, the claimant is entitled to know and prepare to meet whatever evidence or testimony may be solicited or offered in this subcase.

Because there are no parties other than claimant, no hearing on this motion is requested. Claimant simply requests that the Court enter the proposed order being submitted in conjunction with this motion.

Dated this 26<sup>th</sup> day of March, 1996.
