**Re: Notice of Change of Water Right Ownership for
Gerald and Kathryn Herrick**

Dear Judy:

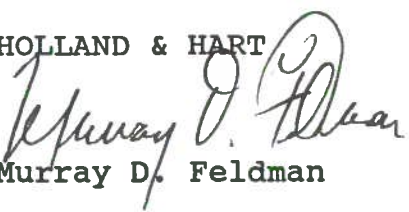

As discussed in our telephone conversation today, enclosed is a copy of a warranty deed documenting the transfer of the property currently owned by the Herricks from the Mildred M. Cowart Trust to Gerald and Sharon Martin, Barbara Curby, Doris Long, James Martin, and Monie and Robert Martin.

The Martins, et al., were the grantors listed on the warranty deed granting the Custer County property to the Herricks which was previously submitted to Water Resources as evidence of the change in water rights ownership for Water Right Nos. A72-02448, A72-0245, A72-00246, A72-00247, A72-02035, A72-04089, A72-04090, A72-07170, A72-10378, A72-10372, and A72-10367.

As we discussed, this should complete the documentation required to complete the change in ownership of the water rights for IDWR's records. Please let me know if you have any questions or need additional information.

Sincerely,

RE: Herrick Claims in Basin 72

Dear Mr. Feldman,

Enclosed are the documents we have discussed by telephone over the past week. Here is a brief recap of what is enclosed.

A72-04161B & A72-16497A Copies of the SRBA claims and parts of the change of ownership forms and letters.

A72-10367, A72-10372, A72-07071 & A72-10279 The first three have been partially decreed and the last is still listed as a preliminary report. I will follow-up on this last right to be sure it is submitted for the final Director's Report in late January 1999.

A72-00244A, A72-00145, A72-00246 & A72-00247 I have enclosed a draft map of the place of use review. It shows the actual acres as found by the GIS program and they are circled in pink.

A72-02035 This claim was disallowed and I have supplied you with a GIS overview map showing the claimed place of use. I have also included a copy from the file showing my field notes of the claim from 1993.

Finally, I have a question for you. I am processing another change of ownership request for the rights on Squaw Creek; A72-00134A, A72-16497A & A72-04157. The request comes from Paul & Sharon May and appears to be complete enough to finalize the actions. This will result in a split of all the rights previously listed and will be completed before the final Director's Report. Do you have the information on this action? I have sent copies of the basic forms. I

December 17, 1998

am planning on splitting the rights proportionately as they are reported in the preliminary report. Let me know if this is not correct.

Feel free to contact me if you have further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Clelland". The signature is fluid and cursive, with the first name "Steve" and last name "Clelland" clearly distinguishable.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

1. A Notice of Change of Water Right Ownership form and supporting documents. In accordance with this requested change, all of the following water right transfer applications have been prepared in the name of the High Mountain Ranches Limited Partnership.
2. Application for Transfer of Water Right concerning Water Right No. 72-04090.
3. Application for Transfer of Water Right concerning Water Rights Nos. 72-04018 and 72-04046.

RE: Herrick subcases 72-00246, 00247, 04018, 04046,
04090

Steve,

Here are some draft attempts at doing recalculations. Please help us out and work your magic on quantities and remarks. We have made a stab at quantities and remarks but I am sure they are not correct.

72-00246, 00247:

BLM is looking for a straight out deletion of all BLM POU's and associated acres. Please review to see if the 4.1 acre deletion will affect quantity.

72-04018, 04046:

For these two water rights BLM is willing to go one of two ways. Option #1 deletes all 4.1 acres on BLM. We would like you to review Option #2 because BLM is considering disposing of one place of use. Option #2 deletes 3 POU's on BLM land and splits off one POU into BLM's name.

72-04090:

BLM is also looking for a straight out deletion of the BLM POU. How will a 0.8 acre reduction affect quantity. It appears IDWR was using the standard duty of water per acre, so that is where our draft recalculation came from. Also, we have GPS'd the POD and we will get the coordinates to you as soon as I get them from the field.

Thanks - fax back what you think the answers are.

Subject: Herrick SRBA Claims on Lyon Creek

Dear Mr. Feldman,

It has been brought to my attention that the remarks on the four claims on Lyon Creek, 72-00244A, 72-00245, 72-00246 & 72-00247 all were recommended with the old remarks. This lists acre limits as they were before the last amendment.

I suggest you file an Objection against all four recommendations so the remarks can be corrected before the final decree is issued. If you have questions about this you can reply back or call by phone.

The Objection forms are available on-line through IDWR home page or the SRBA home page.
<http://www.idwr.state.id.us/idwr/idwrhome.htm>

Thanks for your prompt attention in this matter. I believe the deadline is around the first of June.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	* ACRES PER SOIL TYPE (field)	* RATE PER ACRE (chart)	= TOTAL DIVERSION RATE
