RE:

QUESTIONS ON CLAIM

He is preparing to sign the SF5 sent to him by his brother Pete. He is concerned about the listing of both names on the right and thinks it represents a 50% ownership of the right... I told him we do not view the joint listing as any type of split until we receive the deeds showing what the split would truly be. The real ownership of the rights is best described by the deeds to the property and that is what IDWR uses to determine correct ownership if necessary. He said he understands and will sign and return the SF5.

RE: Revised recommendations for SRBA Claim Nos. 72-02021A & 72-02021B

Dear Mr. Bradshaw,

Enclosed are the revised records as we discussed earlier this week. I have also included a revised copy of the GIS layout showing the GPS outline we walked on December 2, 1999 at 4:00 PM. As you may recall, I have recommended the claim to the full extent of the claimed acreage; 21 acres.

You will be receiving another copy of this record along with the SF5 from our office in Boise with instructions on how to resolve the current objection.

You had questions on the other water right from the spring for the house etc., this right is still in the Permit process and is not part of the SRBA action. It should not be at issue when the hearing is held on Friday, December 17th.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

RE: Notice of Error for SRBA Claim Nos. 72-02021A & 72-02021B

Dear Mr. Bradshaw,

This letter is to acknowledge your response to the Notice of Error (NOE) for the above-mentioned claims. Enclosed are the revised records as we discussed in Challis last month.

If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

Dear Water Right Claimant,

To help you with your water right claim(s) in the Snake River Basin Adjudication, this information is sent to you by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* conclusion about your water right and how it should be reported to the SRBA Court. It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your *time* reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Daniel C. Hurlbutt, Jr.", is written over the typed name.

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Tuesday, December 8th at 7:00 p.m. in the Challis Middle School auditorium.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

I disagree on all of it. the water right was used up to 1990, for irrigation on pasture land, the yrs between 1990 + 94 the creek didn't run enough

2. Describe the changes you wish to make in the proposed recommendation: water to use.

the water right be renewed.
plan on using this coming summer 99

3. Give a brief explanation as to why you disagree with these portions:

the water right was used for Hay land + pasture up to 1990, the Cr. had little or no water up to 94, it hasn't been used for the last 4 yrs because
I got them on it to about 1986
pipe line need to be fixed.

I AGREE with this proposed recommendation; no changes need to be made.

FROM: Georgia Satterlee
DATE: 24 August 1998
RE: 72-07437

On 24 July 1998, I met with Mr. Pete Bradshaw to conduct a field examination. In addition to the permit, Mr. Bradshaw has two irrigation claims, A72-02021A and A72-02021B.

The point of diversion for 72-07437 and A72-02021A (one of the p/d's) is a spring located in the NWNE $\frac{1}{4}$ of Section 20, T13N, R19E. From the collection box at the spring, the water is diverted into a junction box and then into a 1 $\frac{1}{4}$ " pipe. The pipe runs easterly about a mile to the Bradshaw home and troughs for the stock.

The place of use for the permit is in Lot 7 of the SESE $\frac{1}{4}$ of Section 21, T13N, R19E. The place of use for the irrigation claims are in the quarter-quarter west of the place of use on the permit.

The field examination verified that the spring serves one home and stockwater for horses. The recommendation for domestic and stockwater will be the permitted rate.
