STANDARD FORM 2

RESPONSE TO OBJECTION

96-04-0051

INSTRUCTIONS

This form must be used to file a response to any objection filed against a water right recommended in a Director's Report. You may respond to objections filed against one water right, using one response form. The water right number listed as the "Case No." on the Objection you are responding to must be inserted above as the "Case No." If you choose to file one form to respond to all objections filed against the same water right, your response should cover every issue raised in the objections.

To respond to objections filed against more than one water right, you must file a separate response form for each water right. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your response by the deadline shown in the notice that IDWR mailed to you. The response must be received by the court on or before the deadline specified. Instructions for mailing this response are found at Page 5, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more responses must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

By filing a response form, you are certifying that the response is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

RESPONSE - EXHIBIT "A"
Claim No. 36-04074

Reasons Supporting Each Box Checked:

- Box 3(a): Respondent concurs with Objector that IDWR recommends a quantity less than actually appropriated and used. In addition to Objector's use of the water on its golf course, Respondent asserts that a portion of the water may be used on Respondent's residential development, in conjunction with other rights.
- Box 8: Respondent concurs with Objector that IDWR recommends a period of use shorter than the actual period of use. This applies to any portion of the right used on Respondent's residential development.
- Box 9(a) and (b): Respondent concurs with Objector that IDWR's recommended place of use is not accurate. In addition to Objector's use of the water right on its golf course, Respondent asserts that a portion of the right may be used on Respondent's residential development in conjunction with other rights. A portion of IDWR's recommended place of use is owned by Respondent.
- Box 13: Respondent concurs with Objector that the general provisions are unnecessary. This applies to any portion of the right used on Respondent's residential development.

RESPONSE - EXHIBIT "B"

2. The period of use should be February 1 to November 15.
