RE: Snake River Basin Adjudication (SRBA)
Custer County - #A72-02073
Identification Number Change

Dear Mr. and Mrs. Godfrey:

The Identification Number of your Notice of Claim to a Water Right has been changed from A72-02073 to A71-02073A. The suffix has been added in order to distinguish your claim from other claims that may claim a portion of the same original water right. This change does not affect your claim in any other way.

Enclosed is a computer-generated copy of your claim with the new Identification Number. Refer to this record number in any future inquiries or correspondence.

Sincerely,

Jeanie Robertson
Records Clerk

License and Certificate of Water Right

Water License No. 17409

Water District No.

Amount .88 Sec. Ft.

Priority 12-12-30

THIS IS TO CERTIFY that FRANK SNYDER of Clayton, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated December 12, 1930; that Permit No. 17409 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1.8 second feet, was issued thereunder on June 2, 1931, showing that said works were completed on the 27th day of May, 1931; and that on the 7th day of July, 1931,

FRANK SNYDER

of Clayton, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of the right to use the waters of Gardner Creek, a tributary of Salmon River, for the purpose of irrigation and domestic use, under Use Permit No. 17409 of the Commissioner of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7 of Licenses, at page 3754, on the 18th day of January, 1934; The right hereby confirmed dates from December 12, 1930; The Point of Diversion is located 8900' Nthly from where Gardner Creek empties into Salmon River approx. 12 Sec. 30, Tp. 11 N., R. 16 E., B. M. on unsurveyed land, County of Custer.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed .88 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
11 N	16 E	30	Unsurveyed land, beginning at corner #1, from which U. S. location monument #5 bears S. 81° 12' W. 186.17 chains distant, and U. S. location monument #126 bears S. 71° 56' W. 57.37 chains; thence north 49° 8' E. 10.26 chains to corner #8; thence south 78° 41' E. 37.21 chains, to corner #3; thence south 14° 23' E. 8.84 chains to corner #4; thence meandering the left bank of the Salmon River upstream S. 45° 3' E. 5.32 chains S. 55° 27' W. 12.1 chains, N. 61° 50' W. 10.78 chains, N. 77° 10' W. 11.15 chains to corner #5; thence north 31° 49' W. 12.35 chains to corner #1, the place of beginning, containing 83.29 acres.	83.29	44

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho, this 18th day of January, 1934.

R. E. FARIS
Commissioner of Reclamation

OBJ. QUESTIONS

He wanted to get clarification of the use of objections is the SRBA. I told him he would be contacted directly if an Obj. were to be filed against his right. I told him time ran out to get this issue resolved before the final report was due to the court. He also pointed out my address letters are being sent to 'Challis' instead of correctly to Clayton.

RE: Recommendations for SRBA claims 72-02073A, 72-02073B & 72-02073C

Dear Claimants,

This letter is in response to the Notice(s) of Error (NOE) filed with IDWR and the recently filed Director's Report for the above claims. Due to the short time allowed for the NOE process, we were unable to resolve the questions on the split of this water right to everyone's satisfaction. Now the report has been filed with the SRBA court.

If anyone still disagrees with the recommendations as filed you will need to file an objection against the water rights you believe are recommended incorrectly by the Department. This procedure is described in the information you received with your final recommendation. If you need the proper Objection form it is available on the Internet or through our offices or the SRBA court.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

STEVE CLELLAND

Sr. Water Resource Agent

COMMUNICATION DOCUMENTATION

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

□ 

MINOR CORRECTIONS

He called to tell me of POD details; the lower POD is the one Boren uses. The Boren right should not list the change in POD from the original license. I told him I could make these clarifications. I pointed out the EXP remarks are not a part of the Decree. 72-02073A & C

RE: Notice of Error for SRBA claim 72-02073A; affecting 72-02073C

Dear Claimants,

This letter is in response to the Notice(s) of Error (NOE) recently filed with IDWR regarding the Director's preliminary recommendation of the claim(s) listed above. This NOE questions the recommendation for the flow rate of these claims.

Under Idaho law, a water right is limited to the amount of water beneficially used for the purposes for which the water right was established. The amount of water beneficially used under this previous license has been fully allocated and recommended as 72-02073A & 72-02073C, Godfrey & Boren respectively, and therefore no portion has been forfeited.

Mr. Godfrey has shown documentation and deeds to me, at the Challis public meeting on 12/9/98, which support his claim to the diversion rate of 0.77 cfs as he has claimed. Since the license is fully recommended, an adjustment must be made to the other portion of the right, 72-02073C. Mr. Boren's right will be corrected to show 0.11 cfs instead of the 0.15 cfs as initially shown. Copies of the Department's recommendations for both rights are enclosed for your review.

If you dispute the changes shown, please provide me with the supporting documentation as soon as possible. **This evidence must be submitted before December 31, 1998** to enable IDWR to review the evidence prior to finalizing the Director's Report later in January 1999.

December 15, 1998

If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please keep in mind some recommendations in the Basin 72 report may be subject to change during the NOE process and possibly during the Objection process as the record and evidence is provided to IDWR and the SRBA court.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Clelland", with a stylized, cursive script.

WILL GODFREY

RE:

ERROR IN 2073 A & C

He pointed out his claim of 0.77 cfs is reduced to 0.73 cfs while his neighbor, Boren part C, was allowed 0.15 instead of the correct 0.11 cfs. I told him there was not sufficient information in the files to indicate how the balance should be made to arrive at the licensed limit of 0.88 cfs. It sounds like Mr. Godfrey has the documentation to support his claim as filed that will reduce the part C to 0.11 cfs. He will attend the public meeting to resolve this issue.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

PLANIMETER MEAS. NOTES

2/3/93

STEVE CLELLAND

Based on revised ASCS map, $2\frac{1}{4}" = 1320'$;
or $1" = 587'$ scale.

$$CA = \frac{Sc^2 \times u}{43560} = \frac{587^2 \times 0.009699}{43560}$$

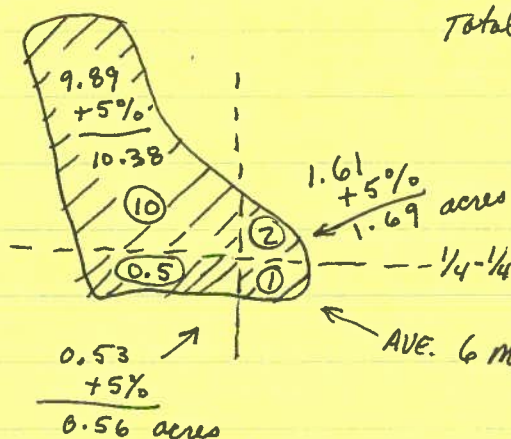

POOR ORIGINAL

CA = 0.07672

w/ short arm

adjustment: at this setting with the short arm
a 40 acre $\frac{1}{4}$ - $\frac{1}{4}$ measures at 38 acres
therefore I will add 5% to all field
measurements made due to variation
of the map scale.

Large West field claimed as 25 Acres:

Total measured 12.65
+ 5%
13.28 acres

sum of parts = 13.33

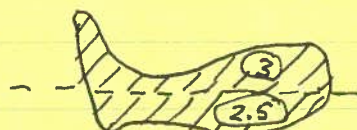

REC: 13.5 ac.

MICROFILMED
NOV 01 1994

Small East Field claimed 15 Acres:

Total meas. = 5.21
+ 5%
5.47

RECOMMEND = 5.5 acres

meas. 2.65
+ 5%
2.79 ac.

2.53 + 5% = 2.65

sum = 5.44
acres
