RE: Evidence of Priority

RESPONSE DEADLINE
MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: CHANGE OF OWNERSHIP SRBA CLAIM NO. A72-02073C

Dear Mr. & Mr. Boren,

Pursuant to a request for a change in ownership and the notification that you agree to the split the place of use to which the above-referenced adjudication claim is appurtenant, the department has changed the record of the current owners as requested. Please find enclosed a copy of your adjudication claims, as they now appear in our records as 72-02073D. Please refer to these new SRBA claim numbers in future correspondence: 72-02073D & 72-02073E (Beale).

I have also enclosed an updated GIS layout showing the place of use as mapped by IDWR based upon your deed.

If you have any further corrections or questions please contact our office.

Re: RECOMMENDATIONS

This right was disallowed as Part B and the owners, Beale, filed the Objection. It was found during a GIS review of the POU that the property had been recommended a water right but under the right number 72-02073C, which belonged to Boren. The simplest way to correct the error appears to be the filing of a change of ownership of the water right and show the 1-acre of the C-part to belong to Beales instead of Boren. Beales agreed to this and they sought approval from Boren who has faxed me confirmation of his agreement to the split of a portion of his right. After the split is processed, Beales will notify the court of their wish to withdraw the Objection to their original right -- Part B. Part C is split into Parts D & E.

Re: Water Right 72-020738

I have reviewed the map of the properties involved with this claim provided me by Ross C. Beale on November 22, 1999. They appear to me to be reasonably consistent with the use of irrigation water as I described it to you in my letter sent last spring. If you have further questions, please contact me at

COMMUNICATION DOCUMENTATION

He and his wife came in to meet with me and try to resolve the issues around their Obj. on right 72-02073B. We were unable to settle everything back in January of 1999 when the Dir. Rept. was filed and it appeared a beneficial use may be best to describe the claimed right in use. Today we plotted in the deed over the GIS shape files of the recommended POU and found that part of the Boren recommendation is actually owned by the Beale's. I suggested the best and easiest way to "fix" the discrepancy is to file a change of ownership. This would split the part C into D & E and the part B would still remain disallowed but the Beale's would now have the 1 acre of irrigation they have shown proof for. I called to our Attorney, Sara D. and she would like to discuss this with Dave T. before committing. She thought we may have to get an objection on the Boren right to "fix" the POU error properly; since no change of ownership actually occurred.

Subject: Use of change of ownership

Steve,

I have not been able to talk to Dave about your proposed use of a change of ownership form in the Beale case because he has been out in meetings and has now taken off for vacation.

In the meantime, regardless of what Dave says, I stand by my opinion that a change of ownership is not the proper way to correct mistakenly recommending a portion of one person's place of use to another person. I'd say as long as Beale claimed the entire place of use, we can sign an SF5 giving Beale his entire POU. The person who accidentally got a portion of Beale's POU can't establish a valid water right on Beale's land since they don't own it or have permission to irrigate it. Does the other person have an objection on their right? If not, we can get Beale to file a motion for late objection on the other person's water right.

RE: Recommendations for SRBA claims 72-02073A, 72-02073B & 72-02073C

Dear Claimants,

This letter is in response to the Notice(s) of Error (NOE) filed with IDWR and the recently filed Director's Report for the above claims. Due to the short time allowed for the NOE process, we were unable to resolve the questions on the split of this water right to everyone's satisfaction. Now the report has been filed with the SRBA court.

If anyone still disagrees with the recommendations as filed you will need to file an objection against the water rights you believe are recommended incorrectly by the Department. This procedure is described in the information you received with your final recommendation. If you need the proper Objection form it is available on the Internet or through our offices or the SRBA court.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

STEVE CLELLAND

RE: Notice of Error for SRBA claim 72-02073A; affecting 72-02073C

Dear Claimants,

This letter is in response to the Notice(s) of Error (NOE) recently filed with IDWR regarding the Director's preliminary recommendation of the claim(s) listed above. This NOE questions the recommendation for the flow rate of these claims.

Under Idaho law, a water right is limited to the amount of water beneficially used for the purposes for which the water right was established. The amount of water beneficially used under this previous license has been fully allocated and recommended as 72-02073A & 72-02073C, Godfrey & Boren respectively, and therefore no portion has been forfeited.

Mr. Godfrey has shown documentation and deeds to me, at the Challis public meeting on 12/9/98, which support his claim to the diversion rate of 0.77 cfs as he has claimed. Since the license is fully recommended, an adjustment must be made to the other portion of the right, 72-02073C. Mr. Boren's right will be corrected to show 0.11 cfs instead of the 0.15 cfs as initially shown. Copies of the Department's recommendations for both rights are enclosed for your review.

If you dispute the changes shown, please provide me with the supporting documentation as soon as possible. **This evidence must be submitted before December 31, 1998** to enable IDWR to review the evidence prior to finalizing the Director's Report later in January 1999.

December 15, 1998

If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please keep in mind some recommendations in the Basin 72 report may be subject to change during the NOE process and possibly during the Objection process as the record and evidence is provided to IDWR and the SRBA court.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Clelland", with a long horizontal line extending to the right.

STEVE CLELLAND
Sr. Water Resource Agent

Enc:

He pointed out his claim of 0.77 cfs is reduced to 0.73 cfs while his neighbor, Boren part C, was allowed 0.15 instead of the correct 0.11 cfs. I told him there was not sufficient information in the files to indicate how the balance should be made to arrive at the licensed limit of 0.88 cfs. It sounds like Mr. Godfrey has the documentation to support his claim as filed that will reduce the part C to 0.11 cfs. He will attend the public meeting to resolve this issue.
