RE: OWNERSHIP CHANGE 72-10044A (split see 72-16603)

Dear Mr. Rankin,

I have completed the ownership change process on the property you sold to the Van Kampens. Right 72-10044A was split into two parts; the portion you retained has been renumbered to 72-16603.

I have enclosed copies of the recommendation and a color copy of the map. Notice that all the original sources and points of diversion are still listed, even though there are no longer any diversions from these sources to your parcel. You must file a transfer with the department to correct this. Please call soon for an appointment with an agent to help you get the process started.

Feel free to call the office if you have any questions or would like to schedule an appointment to file a transfer.

Sincerely,

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Comment: This is a split of 72-10044A. The property has been split several times and the new owners have filed transfers to correct the points of diversion for their parcels, but this portion still needs a transfer to straighten out its PoDs.

RE: Ownership Change on part of Water Right #72-10044

Dear Claimants,

Mr. and Mrs. Richard Burchill recently informed us that they had purchased a parcel of land from you, along with 10 inches of high water from your Pat's Creek diversion. This resulted in a split of right #72-10044 into parts A and B.

A problem has now arisen with 72-00029B, which covered the same acres as 72-10044. We understand that you did not wish to convey any of right 72-00029B to the Burchill's, but a "transfer" is required to be filed with the department in order to move the water under 72-00029B to only the land you retained and not the Burchill's portion.

Please contact this office at your earliest convenience to start this process. You may wish to make an appointment to meet with one of our agents the next time you plan to be in Twin Falls, as the process can be complicated.

If you have any questions or would like to set up an appointment, please give me a call at the office.

Sincerely,

I found no ownership change records from Don and Cori Henderson to Don Odom

72-00020E, 72-02147A

I found a letter I had sent to Mrs. Green last September telling her she needed to file a late objection in order for me to be able to make any changes to the point of diversion. I guess she never did...

72-00029B

I sent a letter to Mr. Rankin last September telling him he needed to file a transfer to reduce the place of use to 32.5 acres, which would match right 72-10044A. Apparently he has not done so. This right was originally recommended with 43 acres in the place of use. The 'R' record in this case is how it should look IF and WHEN a transfer is filed. We filed a Notice of Administrative Proceeding on 12-27-1999 with the court in hopes Mr. Rankin would contact us...

I found no ownership change records showing Jolley has sold this...

Hope this helps...Jeanie

Dear Mr. Burchill;

I have reached several conclusions regarding your situation on Challis Creek and its tributaries. Your claim #72-00029C lists the diversion as being in the SE/NE/NE Sec. 5, but Jeannie and I both agree that it is probably in the SW/NE/NE Sec. 5. The recommendation says that White Valley Creek is tributary to Challis Creek, but it is tributary to Bear Creek as you stated.

Claim 72-10044B does not list White Valley Creek as a source of high water, but this is the only stream that could historically water the land you bought from Rankin. I found another 1/2 acre of irrigated land in the NE/NW Sec. 5, making this tract 3.3 acres instead of the 2.8 acres recommended. We have never heard from Mr. Rankin regarding our recommendations, so had no way of knowing that there was a problem.

Without trying to give you ANY legal advice, I suggest that you petition the SRBA Court (PO Box 2707, Twin Falls, ID, 83303) to amend our recommendations to change the data described above. A simple letter from you should suffice, and I have been told that the Court is usually sympathetic to claimants in these situations. This is different from an objection, which the Court would probably not allow at this late date, although both procedures apparently accomplish the same thing.

I think that adding White Valley Creek as a source of flood water is especially important here, as this will remove a potential problem with your transfer. These claims could be decreed at any time, so it is important that you act as quickly as possible. Once the decrees are issued, the only way to change the claims will be through the transfer process. Land that was left out of the decree cannot be added back in with a transfer, so the SRBA process is more flexible in some ways. Let me know what happens so that I can proceed with reviewing your transfer at the appropriate time.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

See second sentence of evidence of priority letter request (3/2/92) 2/18/93 A.V.K.
I reminded Jess Rankin of this priority request when I
met with him on July 16, but he was in failing health (at
89 years of age) and no evidence of priority was sent.
He died on Sept 2, 1993.
A priority date of 5/1/1897 is a "high water use" on Challis
Creek so the ^{first} claimed date will be recommended as there
is plenty of water available during high flow periods
