ORDER RE: CONTESTED CLAIMS
FOR AMOUNTS CLAIMED IN
EXCESS OF .02 CFS

36-3A

To fairly and accurately resolve contested claims for irrigation in excess of .02 cfs in the subcases listed on the attached Exhibits A and B, the following order shall govern their resolution. This process has become necessary to avoid confusion stemming from the resolution of Basin-Wide Issue 10, partial forfeiture, the admission of IDWR that none of the rights subject to this order were recommended on the basis of partial forfeiture, and the interplay of the doctrines of beneficial use and forfeiture. This order is intended to clarify the basis of the Director's recommendations in order to fully and fairly inform the claimants, to accurately explicate the basis of the Director's recommendations and with this information, to facilitate the settlement of these contested cases. Where settlement is not accomplished, the record then to be presented at hearing will be more complete; helping to insure the fairness, accuracy and integrity of the decrees entered.

IT IS ORDERED THAT:

1. On or before July 1, 1996, the Director shall file *Amended Director's Reports* for any of the rights in subcases listed in Exhibits A and B, where the best current facts relating to reasonable beneficial use require a recommendation different than originally presented.

2. On or before July 1, 1996, the Director shall file a report(s) of expert under I.R.E. 706 (706 Report) setting forth the factual basis of the recommendation covering each contested element of the rights for the subcases listed in Exhibit A.
3. On or before September 1, 1996, the Director shall file a report of expert under I.R.E. 706 (706 Report) setting forth the factual basis of the recommendation covering each contested element of the rights for the subcases listed in Exhibit B.

These 706 Reports shall be consistent with the Idaho Rules of Evidence in all respects, including but not limited to: foundational matters, qualifications of expert(s), if any, and shall disclose all reviews, comments, or opinions (favorable or unfavorable) received by IDWR on all studies and opinions used or relied upon in the 706 Report. This shall further include the names and addresses of the person(s) who performed the review and a brief summary of the review, comment, or opinion. All reports shall be served on the parties to the individual subcases.

IT IS SO ORDERED.

DATED June 6, 1996.

Fritz X Haemmerle
Special Master
Snake River Basin Adjudication

CERTIFICATE OF MAILING
