water used in a domestic setting could be increased while keeping the flow rate in the same amount, thus leading to an expansion of the water right.

Similarly, the quantity for stockwater in the director's report included the number of head of stock. This was included to prevent an expansion of the stockwater right in the future. It is IDWR's understanding that the issue of whether to include the number of head of stock is being addressed in Basin-Wide issue no. 12.

[X] Purpose of Use

The purpose of use for water right no. 36-11229 should be described as:

DOMESTIC - 1 HOUSE

The director's report includes the number and type of domestic uses to prevent expansion of the water right by adding on consumptive uses that were not historically in existence.

The director's report also included the number of head of stock as;

STOCKWATER - 35 CATTLE

The quantity for stockwater in the director's report included the number of head of cattle. This was done to prevent an expansion of the stockwater right in the future. It is IDWR's understanding that the issue of whether to include the number of head of stock is being addressed in Basin Wide issue no. 12.
