STANDARD FORM 1

OBJECTION

INSTRUCTIONS

96-07-0025

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. To object to more than one water right, you must file a separate objection form for each. The water right number you are objecting to must be indicated above in the blank space following "Case No." Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be **received** by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the SRBA Court no later than 14 days before the filing deadline to file their pleadings.

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

1. ☐ **Name and Address:** I object to the name and/or address of the owner of the water right.
2. ☐ **Source:** I object to the source of water.
3. **Quantity:** I object to:
 - ☐ a. the total quantity of water used in cubic feet per second; or
 - ☐ b. the total quantity of water stored in acre-feet per year; or
 - ☐ c. the total quantity of water reserved for each and every purpose, including all present and future uses.

The directors remarks on my recommended combined diversion rate.

REASONS SUPPORTING EACH BOX CHECKED

You **must** state the reason(s) by number for **each** box checked. You may use additional pages if necessary.

13) It is not adequate to allow my historical use of diverting 8.00 cfs
to flood irrigate my farm. My practice requires this large diversion rate
for 7-8 days in a 21 day rotation, which allows for rotation or storage
for the balance of 13-14 days until needed again for irrigation.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary. 13) I recommend 3 options:

1) increase the diversion rate which will still protect annual consumptive use.
2) recognize it is an "average daily rate" not the maximum rate allowed.
3) remove the combined diversion rate entirely, my water right decree will
still be enforced and so will the annual consumptive use..

Note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☐ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary.
