RE: 92-10334

Dear Mr. Primer:

We reviewed your Claim to a Water Right. Your claim indicates a ground water source and a surface water source which appears to be a pond. Only one source is allowed per claim. In order to record both sources an additional claim or application needs to be filed. The use of the water from the groundwater source meets the requirement to develop a right.

When a new diversion of surface water is started after May 20, 1971, an appropriation permit had to be obtained first. The date of priority is the date the water was first used regardless of who owned the property. If the use of water was started after May 20, 1971, then an application for a permit to use the water needs to be filed.

If you have any questions, please contact us.

Sincerely,

Kenneth Knoblock
Water Resources Agent
