	)	
	)	WATER RIGHT 34-00163

An objection to the *Director's Report* for water right 34-00163 was filed on February 26, 1993, by the United States Bureau of Land Management. A response was filed on May 28, 1993, by the Idaho Department of Water Resources. On June 21, 1993, a *Notice of Withdrawal of Objection* was filed seeking to withdraw the objection filed by the United States. On February 7, 1995, this court issued its *Order Dismissing United States' Objection and Dismissing United States as a Party to Subcase; and Requiring Submission of Standard Form 5*. On June 15, 1995, a *Standard Form 3 - Consent to Substitution of Party* was filed establishing that the claimant is now Jean H. McAfee. Subsequently, a settlement was reached as to how the elements of this water right could be decreed. An *Amended Standard Form 5 - Stipulated Elements of a Water Right* was filed reflecting the agreement of the parties that the water right is correctly described

in the *Director's Report*. The signatories to the *Amended Standard Form 5* are the claimant, Jean McAfee; and the Idaho Department of Water Resources. Thus it appears that all parties to this subcase, and IDWR, are signatories to the *Amended Standard Form 5*.

All elements of the water right as stipulated to in the *Amended Standard Form 5*, remain **unchanged** from the original *Director's Report* **except** that the name element has changed pursuant to the *Standard Form 3* and shall reflect the claimant name of Jean McAfee. The court gives *prima facie* weight to the *Amended Standard Form 5* to which IDWR is a signatory.

CONCLUSIONS OF LAW

Under *SRBA Administrative Order 1*, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

The *Amended Standard Form 5* is *prima facie* evidence of this water right. The record on file for this subcase, including the *Amended Standard Form 5* and the *Standard Form 3* clearly establishes the intent of the parties that this water right be decreed with the elements as set forth in the *Amended Standard Form 5* as described in the Findings of Fact above.

Therefore, based on the file and record herein, and good cause appearing, IT IS RECOMMENDED that water right 34-00163 be decreed with the elements as set forth in the *Preliminary Special Master's Recommendation for Partial Decree* attached hereto.

DATED July 18, 1996.
