Case No. 39576	)	
	)	FINDINGS OF FACT AND
	)	CONCLUSIONS OF LAW FOR
	)	
	)	WATER RIGHT 34-02379A

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 1 (Basin 34), which includes portions of Custer, Butte, Bonneville and Jefferson Counties, State of Idaho. The *Director's Report for Reporting Area 34 (Director's Report)* contained recommendations or abstracts for the elements of this water right.

No objections were filed to the *Director's Report* for water right 34-02379A. However, on February 9, 1994 the Idaho Department of Water Resources filed a *Motion to Correct Errors in Water Right 34-02379A (Motion)*. On January 17, 1995 a hearing was held on the *Motion* and subsequently on January 31, 1995 an *Order Granting Motion to File Late Objection or, In the Alternative, Granting Motion to Amend Director's Report* was filed. On June 27, 1996 a *Supplemental Director's Report* was filed solely to set forth a change in the basis of this water right.

All elements of the water right in the *Supplemental Director's Report* remain **unchanged** from the original *Director's Report*. The only change in the *Supplemental Director's Report* is that the basis of the claim was changed from "Decreed" to "License". The *Supplemental Director's Report* establishes *prima facie* evidence of this water right.

CONCLUSIONS OF LAW

Under *SRBA Administrative Order 1*, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

A *Supplemental Director's Report* is *prima facie* evidence of this water right. The record for this subcase including the un rebutted and unobjected to *Supplemental Director's Report* establishes the elements of this right.

Therefore, based on the file and record herein, and good cause appearing, IT IS RECOMMENDED that water right 34-02379A be decreed with the elements as set forth in the *Preliminary Special Master's Recommendation for Partial Decree* attached hereto.

DATED July 18, 1996.
