STANDARD FORM 5

Case No. 39576

SUBCASE NO: 34-10454

STIPULATED ELEMENTS OF A
WATER RIGHT

THIS FORM MAY ONLY BE USED IF ALL PARTIES HAVE STIPULATED TO ALL ELEMENTS OF ONE WATER RIGHT AND MAY BE SUBMITTED AT ANY TIME FOLLOWING THE CLOSE OF THE STATUTORY RESPONSE PERIOD.

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

Instructions For Use

A copy of this water right as recommended in the director's report shall be submitted with this form. A statement shall accompany each element of a water right.

Elements where there has been no objection should be listed exactly as they appear in the director's report. The statement as to these uncontested elements shall state "as recommended in the director's report."

Contested elements that are the result of an objection filed with the court shall be accompanied by a statement fully describing all facts, documents, expert opinions and law which support the element of the water right (attach additional pages if necessary).

ELEMENTS

Required Statement: IDWR and the parties stipulate that the attached Idaho Department of Water Resources Recommended Water Rights Acquired Under State Law is the correct description of each element of water right No. 34-10454.

The director's report included a further description on non-irrigation uses (stockwater) by type and number of head. This Standard Form 5 includes a refinement of the further description of non-irrigation uses developed as part of the proceedings in Basin-Wide Issue No. 12. On June 12, 1996, Special Master Haemmerle issued the Special Master's Recommendation Re: Basin-Wide Issue 12, which held that this further description was not necessary to define and/or administer de minimis stockwater rights; a motion for reconsideration is pending and efforts by the special master and the parties to identify an appropriate alternative to the further description of stockwater uses are currently underway. IDWR recommends portions of rights that meet the de minimis stockwater definition, such as the stockwater portion of this right, in the same manner as the de minimis stockwater rights. Pending the resolution of Basin-Wide Issue No. 12, this Standard Form 5 includes the refined description of stockwater uses by type and number of head mentioned above.

Review By IDWR

To speed up entry of a decree, the parties are encouraged to talk to the Idaho Department of Water Resources about their proposed settlement and have IDWR indicate its concurrence by signing the Standard Form 5.

Where all parties have signed, a Standard Form 5 may be filed with the court without the concurrence of IDWR. However, the parties must certify that they have served IDWR with a copy of the Standard Form 5 and that they have made a good faith attempt to resolve the matter with IDWR.

Within 14 days of filing a Standard Form 5 not containing an IDWR concurrence, IDWR shall file a statement of its position with the court.

If IDWR has not concurred by signing below, signing parties certify that they have served a copy of this document on the Idaho Department of Water Resources and have made a good faith attempt to obtain IDWR's concurrence, but have failed.

The stipulation of the parties is attached hereto and incorporated herein by reference.

Signatures and Addresses of Parties and their Attorney of Record (attach additional page if necessary):

I have read this form and know its contents and that the statements are true to the best of my knowledge and belief.

Name: Lloyd E. Jensen & Penny Hawkins
