4219-IT 2166
16022 - was my question 4/11
14227

COMMENTS: Don, here is the information for 8154. It seems that 8154 is for the trough and pipeline. 8014 describes only the spring, those locations are correct. 1294 seems to be a beneficial use claim for the same spring and we will go ahead and drop this claim. There was a head box installed on this spring so it is impossible to prove that surface water was present prior to development. So, 8154 should be described as: POD 11S 19E Sec 35 SWSWNW. The POU is the same township and range, Sec 35 SWNW. This may seem funny, but there is only 20 feet of pipeline to a trough so the POU is in the same 40 acre tract. I hope this helps explain these confusing claims. Our only other problem seems to be Johnston Spring. This is claim 8072. This needs to be adjusted to POD 11n 19E sec 35 SESENW, POU in the SENW. This is the best description. These claims were scrutinized by the Range Con, Michael and Rex. Any questions, give me a call.

PROB.
