

Date: February 14, 2014

To: Claim File 95-14949, Williams' Daughter's Floathouse (c/o Susan Borowicz)

From: Linda Werner, Water Resource Agent *LW*

Subject: Priority Date and Location of POD/POU

Claimant didn't show proof of priority date and POD and POU can only be determined by the GPS coordinates shown on claim. We have an aerial map dated 8/6/1965 which proves that the home was there in 1965. Question for them: is it okay to use priority date of 1965 and are the GPS coordinates listed on the claim an accurate representation of the location? (POD & POU as claimed only shows township, range and section)

Call to Mr. Veal, who signed claim as representative of floathouse owners, at 972-964-5598. I spoke with Ms. Becki Veal, who is the sister of Susan Borowicz, and one of the owners of the floathouse.

She states she definitely remembers spending time at the floathouse as far back as 1955, but it's okay to use a priority date of 8/6/1965. Also go ahead and recommend claim POD and POU using the coordinates given.
